Buried Glory Istvan Hargittai,2013-09-19 Moscow s Novodevichy Cemetery is the final resting place of some of Russia s most celebrated figures from Khrushchev and Yeltsin to Anton Chekhov Sergei Eisenstein Nikolai Gogol and Mikhail Bulgakov Using this famed cemetery as symbolic starting point Buried Glory profiles a dozen eminent Soviet scientists nine of whom are buried at Novodevichy men who illustrate both the glorious heights of Soviet research as well as the eclipse of science since the collapse of the USSR Drawing on extensive archival research and his own personal memories renowned chemist Istvan Hargittai bring these figures back to life placing their remarkable scientific achievements against the tense political backdrop of the Cold War Among the eminent scientists profiled here are Petr L Kapitza one of the most brilliant representatives of the great generation of Soviet physicists a Nobel Prize winner who risked his career and his life standing up for fellow scientists against Stalin Yulii B Khariton who ran the highly secretive Soviet nuclear weapons laboratory Arzamas 16 despite being Jewish and despite the fact that his father Boris had been sent to the labor camps And Andrei D Sakharov the father of the Soviet hydrogen bomb and a brilliant fighter for human rights for which he won the Nobel Peace Prize Along the way Hargittai shines a light on the harrowing conditions under which these brilliant researchers excelled Indeed in the post war period Stalin s anti Semitism and ongoing anti science measures devastated biology damaged chemistry and nearly destroyed physics The latter was saved only because Stalin realized that without physics and physicists there could be no nuclear weapons The extraordinary scientific talent nurtured by the Soviet regime belongs almost entirely to the past Buried Glory is both a fitting tribute to these great scientists and a fascinating account of scientific work behind the Iron Curtain

War of the Black Heavens Michael Nelson, 1997-12-01 International diplomacy and a changing global economy did not bring about the fall of the Iron Curtain Radio did and it was mightier than the sword Based on first hand interviews and documents from the Central Committee of the Soviet Communist Party Michael Nelson shows that Western radio principally the British Broadcasting Corporation Radio Free Europe Radio Liberty and the Voice of America were unrivaled forces in the fight against communism and the fall of the Iron Curtain The Communists did everything in their power to prevent the infiltration of Western thought into their world resorting to jamming radio signals assassinating staff and bombing stations The Russians for example decided to stop the mass production of short wave radios so that their citizens could not hear Western broadcasts War of the Black Heavens reveals that due to administrative incompetence short wave radio production continued making worthless many of the billions of dollars spent on jamming These radio programs introduced a forbidden exciting culture to millions of eager listeners Pop music talk shows news and information about consumer goods all relayed a message of the good life subtly undermining the values of the communist regimes Western radio actively connected listeners with the cultures of Europe and North America War of the Black Heavens describes an unheralded story of success and adds a new interpretation that helps us understand some of the most momentous political events of this century

Military Masculinity and Postwar Recovery in the Soviet Union Erica L. Fraser, 2019-04-08

Catastrophic wartime casualties and postwar discomfort with the successes of women who had served in combat roles combined to shatter prewar ideals about what service meant for Soviet masculine identity The soldier had to be re imagined and resold to a public that had just emerged from the Second World War and a younger generation suspicious of state control In doing so Soviet military culture wrote women out and attempted to re establish soldiering as the premier form of masculinity in society Military Masculinity and Postwar Recovery in the Soviet Union combines textual and visual analysis as well as archival research to highlight the multiple narratives that contributed to rebuilding military identities Each chapter visits a particular site of this reconstruction including debates about conscription and evasion appropriate role models for cadets misogynist military imagery in cartoons the fraught militarized workplaces of nuclear physicists and the first cohort of cosmonauts who represented the completion of the project to rebuild militarized masculinity

Snyder, 2011-06-20 Two of the most pressing questions facing international historians today are how and why the Cold War ended *Human Rights Activism and the End of the Cold War* explores how in the aftermath of the signing of the Helsinki Final Act in 1975 a transnational network of activists committed to human rights in the Soviet Union and Eastern Europe made the topic a central element in East West diplomacy As a result human rights eventually became an important element of Cold War diplomacy and a central component of détente Sarah B Snyder demonstrates how this network influenced both Western and Eastern governments to pursue policies that fostered the rise of organized dissent in Eastern Europe freedom of movement for East Germans and improved human rights practices in the Soviet Union all factors in the end of the Cold War
