The Making Of Barnsley:

Making of Barnsley Brian A. Elliott, 2004-10 When published in 1988 *The Making of Barnsley* was the first published history of the town since Victorian times focusing on the Opere industrial period but with an eye on the present day In this edition new sources provide insight into forgotten subjects such as medical care trades and early industries It also shows us that crime and punishment were an integral part of social history **The Making of Barnsley** Brian Elliott, 1988-01-01

Not So Merry Wakefield Kate Taylor, Coral M. P. Taylor, 2005-01-01 Talks about the life and times of a Wakefield woman in the late twentieth century with substantial local historical information This book aims to echo Henry Clarkson s memories of Merry Wakefield 1887 but with more sombre overtones reflecting experiences of single parenthood and the trauma of a fatal car accident but with good times too *South Yorkshire Mining Disasters* Brian Elliot, 2006-10-31 In the period that we now call the Industrial Revolution mining disasters wrecked the lives of thousands of South Yorkshire families and devastated entire communities The Husker pit flooding of 1838 in which 26 young girls and boys were killed shocked Victorian society and was a significant factor in the 1842 Report on Employment of Women and Children in Mines but earlier long forgotten disasters are also explored The Barnsley area was particularly hard hit during the middle decades of the century with major mining accidents usually great explosions of firedamp occurring for example at Lundhill Colliery 189 men and boys killed Oaks 361 fatalities Britains worst pit disaster and Swaithe Main 143 dead Scenes of grief mourning and remarkable heroism provided spectacular copy for Victorian newspapers and magazines such as *The Illustrated London News* focusing on the very uncertain and dangerous life of the miner Despite the importance and widespread occurrence of South Yorkshire mining disasters which also included dreadful winding accidents and gas emissions their story has never been told in a single volume **The Jews-Harp in Britain and Ireland** Michael Wright, 2017-07-05 The jews harp is a

distinctive musical instrument of international importance yet it remains one of those musical instruments like the ocarina kazoo or even the art of whistling that travels beneath the established musical radar The story of the jews harp is also part of our musical culture though it has attracted relatively little academic study Britain and Ireland played a significant role in the instrument s manufacture and world distribution particularly during the nineteenth and first half of the twentieth centuries Drawing upon previously unknown written sources and piecing together thousands of fragments of information spanning hundreds of years Michael Wright tells the story of the jews harp s long history in the Britain and Ireland Beginning with an introductory chapter describing the instrument Part One looks at the various theories of its ancient origin how it came to be in Europe terminology and its English name Part Two explores its commercial exploitation and the importance of the export market in the development of manufacturing Part Three looks the instrument s appearance and use in art literature and the media finally considering the many players who have used the instrument throughout its long history **Pioneers of Modern Craft** Margot Coatts, 1997 Pioneers of modern craft profiles key figures in the history of contemporary twentieth

century crafts It focuses on the lives and times of prominent individuals who were or became influential throughout the pre and post war periods in Britain such as David Pye Gerald Benney Gerda Flockinger Edward Barnsley and William Staite Murray Journal of the Society of Glass Technology Society of Glass Technology,1925 *The English Reports* ,1903

Journal of the Society of Glass Technology Society of glass technology, Sheffield, Eng,1925 **Silkstone** Joseph F. Prince,1922 **English Mechanic and Mirror of Science** ,1915 **The War for the Seas** Evan Mawdsley,2019-09-24

Local and Personal Laws Great Britain,1846 George Best: A Memoir Michael Parkinson,2018-11-15 One of the most famous footballers of all time George Best is an icon to football fans all over the world He lived a tumultuous life and died in 2005 after battling with alcoholism He is someone who has crossed over into legend status with his personal life sometimes overshadowing his footballing prowess There have been many books written about George but here Michael Parkinson combines his professional and personal knowledge of George with his classic and much loved writing style to produce a new and interesting biography of a football and cultural icon *Churchill, Master and Commander* Anthony Tucker-Jones,2021-11-25 Masterful research impeccable detail with a beautifully flowing narrative of which Churchill himself would have been proud Professor Peter Caddick Adams From his earliest days Winston Churchill was an extreme risk taker and he carried this into adulthood Today he is widely hailed as Britain's greatest wartime leader and politician Deep down though he was foremost a warlord Just like his ally Stalin and his arch enemies Hitler and Mussolini Churchill could not help himself and insisted on personally directing the strategic conduct of World War II For better or worse he insisted on being

political master and military commander Again like his wartime contemporaries he had a habit of not heeding the advice of his generals The results of this were disasters in Norway North Africa Greece and Crete during 1940 41 His fruitless Dodecanese campaign in 1943 also ended in defeat Churchill s pig headedness over supporting the Italian campaign in defiance of the Riviera landings culminated in him threatening to resign and bring down the British Government Yet on occasions he got it just right his refusal to surrender in 1940 the British miracle at Dunkirk and victory in the Battle of Britain showed that he was a much needed decisive leader Nor did he shy away from difficult decisions such as the destruction of the French Fleet to prevent it falling into German hands and his subsequent war against Vichy France In this fascinating new book acclaimed historian Anthony Tucker Jones explores the record of Winston Churchill as a military commander assessing how the military experiences of his formative years shaped him for the difficult military decisions he took in office This book assesses his choices in the some of the most controversial and high profile campaigns of World War II and how in high office his decision making was both right and wrong *Local and Personal Acts* Great Britain, 1897
