Johannes Bjelke-Petersen Rae Wear,2002 A saviour to some reviled by others Johannes Bjelke Petersen became the butt of jokes and even assassination attempts His influence spread well beyond Queensland and in the mid 1970s he put an unknown french polisher into the Senate to help rub out the Whitlam government Young Joh had been a loner who worked hard to overcome crippling childhood polio and the poverty of life on his family s farm Enduring a long apprenticeship as an opposition backbencher he finally made it to the top bringing to his old style autocratic rule a more media savvy appeal to the electorate As this long awaited biography reveals Joh was as cunning as he was ruthless throughout his forty year political career Rae Wear analyses in detail his political psyche his unique leadership style and the reasons for his electoral support taking into account his Danish immigrant background and lifelong Christian piety Essential reading for anyone interested in Australian politics this biographical study explains in depth for the first time Bjelke Petersen s unlikely elevation to the premiership and his ultimate disgrace amid revelations of widespread corruption *Engaging the Public* Thomas J.

Bergholt,2013-12-21 Mr. Sorkin Goes to Washington Melissa Crawley,2014-06-26 Before the unprecedented televised presidential debates of 1960 most Americans were able to relate to their leaders in little more than an historical context In the era of televised elections however the media have allowed Americans to witness the paternal moral and intellectual qualities of their president up close Television has been so critical to this process of political socialization that for many Americans the televised image of the president is the president As the acclaimed television drama *The West Wing* demonstrates fictional representations of the presidency can also be significant civic forces This book examines how film and television drama contribute to shaping the presidency and the way most Americans understand it and particularly the processes of political education The text discusses *The West Wing* s didactic potential its representation of White House politics and its depiction of race and gender with commentary on how fictional representations of the presidency become important elements of American political consciousness The Political Socialization of Black Americans Paul R.

Gooch,Michael T. Rogers,2015-09-18 Imagine an America where politicians governmental institutions schools new technologies and interest groups work together to promote informed engaged citizens Civic Education in the Twenty First Century brings together scholars from various disciplines to show how such a United States is possible today Inspired by Alexis de Tocqueville s analysis of American democracy in the early 1800s this edited volume represents a multidimensional evaluation of civic education in its new and varied forms While some lament a civics crisis in America today Civic Education in the Twenty First Century raises hope that we can have an informed and active citizenry We find the activities of a number of politicians government institutions schools and interest

groups as promising developments in the struggle to educate and engage Americans in their democracy New technologies and new innovations in civic education have laid the foundation for a revitalized American civic ecology With Civic Education in the Twenty First Century we call for the United States to make these practices less isolated and more common throughout the country The volume is broken into three major sections First there are four chapters exploring the history and philosophical debates about civic education particularly with respect to its role in America s educational institutions Then the second section provides seven groundbreaking inquiries into how politicians and political institutions can promote civic education and engagement through their routine operations As some examples this section explores how politicians through campaigns and judiciaries through community programs enhance civic knowledge and encourage civic engagement This section also explores how new technologies like the Internet and social media are increasingly used by government institutions and other entities to encourage a more politically informed and engaged citizenry Finally the third section contains six chapters that explore programs and practices in higher education that are enhancing civic education engagement and our knowledge of them From the virtual civics campus of Fort Hayes State to citizens academies throughout the country this section shows the possibilities for schools today to once again be civics actors and promoters *The Political and Civic Socialization of Children* Terry Lutes,1981
