## **The Mall:**

Call of the Mall Paco Underhill, 2005-01-03 Profiling malls as intersections of American consumer marketing the media and street culture an examination of malls as reflections of commercial and social culture considers what malls mean to ordinary people     **America at the Mall** Lisa Scharoun, 2014-01-10 Since the construction of the first fully enclosed shopping center in 1952 the shopping mall has evolved into the heart of many suburban areas across the United States More than simply a place to purchase goods this veritable temple of consumerism has become a primary place for community and social interaction and an essential element in many citizens day to day lives This study explores the spiritual emotional and physical effects of the enclosed shopping mall on the public chronicling the growth of the mall its role in shaping urban and suburban life its positive and negative impacts on society and the environment and its future viability As this work shows the mall remains rich in symbolic influence and in many ways mirrors the American condition     *The Mall* Jerry Jacobs, 1984

*Jewel of the Mall* Stephen R. Brown, 2005 WWII Memorial Jewel of the Mall is a full color photographic book on the WWII Memorial with an introduction by Senator Robert Dole and photographs by renowned photographer Stephen R Brown The photographs are exclusive never to be duplicated images Panoramic scenes of the new face of the Mall comprise seventy five pages of the book while the rest are a documentary of the creation and installation of the sculpture and marble ornamentation     Medicine Moves to the Mall David Charles Sloane, Beverlie Conant Sloane, 2003-04-01 The shopping mall seems an unlikely place to go for health care services Yet the mall has become home to such services as well as a model for redesigning other health care facilities In *Medicine Moves to the Mall* David Charles Sloane and Beverlie Conant Sloane document the historical changes to our health care landscape by exploring the interactions between medicine and place This unique combination of architectural history and the history of medicine provides a thought provoking analysis of the geography of the practice of medicine The book presents three essays each accompanied by a gallery of historical and recent photos The authors discuss the rise of modern hospitals and how they were shaped into scientifically sterile and humanly stark medical workshops Starting in the 1970s hospital facilities were altered in appearance to become more friendly and welcoming The integration of a shopping mall s spaciousness and open design with technology and scientific innovation served in humanizing the hospital Most recently the accessibility and convenience of shopping center and roadside clinics have invited Americans to go shopping for health in the increasingly commercialized medical system *Medicine Moves to the Mall* will appeal to scholars and professionals in fields ranging from health care to cultural geography and from urban studies to architectural history as well as to readers interested in the shifting status of medicine in American society     Target Markets - International Terrorism Meets Global Capitalism in the Mall Suzi Mirgani, 2017-03-15 This book explores the points of convergence between corporate capitalist and terrorist practice Assessing an increase in the number of terrorist attacks directed at commercial entities in urban areas with an emphasis on the shopping mall in general and Nairobi s Westgate Mall

in particular Suzi Mirgani offers a fascinating and disturbing perspective on the spaces where the most powerful forces of contemporary culture the most mainstream and the most extreme meet on common ground **The People's Property?**

Lynn Staeheli, Donald Mitchell, 2016-05-06 The People's Property is the first book length scholarly examination of how negotiations over the ownership control and peopling of public space are central to the development of publicity citizenship and democracy in urban areas The book asks the questions Why does it matter who owns public property Who controls it Who is in it Donald Mitchell and Lynn A Staeheli answer the questions by focusing on the interplay between property in its geographical sense as a parcel of owned space and people Property rights are often defined as the right to exclude It is important therefore to understand who what individual and corporate entities governed by what kinds of regulations and restrictions owns publicly accessible property It is likewise important to understand the changing bases for excluding some people and classes of people from otherwise publicly accessible property That is to say it is important to understand how modes of access and possibilities for association in publicly accessible space vary for different individuals and different classes of people if we are to understand the role public spaces play in shaping democratic possibilities In what ways are urban public spaces the people's property and in what ways are they not What does this mean for citizenship and the constitution of an inclusive democratic polity The book develops its argument through five case studies protest in Washington DC struggles over the Plaza of Santa Fe NM homelessness and property redevelopment in San Diego CA the enclosure of public space in a mall in Syracuse NY and community gardens in New York City Though empirically focused on the US the book is of broader interests as publics in all liberal democracies are under going rapid reconsideration and transformation

*Transfer of Certain Functions of the Fish and Wildlife Service to the Dept. of Agriculture* United States. Congress. House. Merchant Marine and Fisheries, 1943 *Ambiance, Tourism and the City* Iñigo Sánchez-Fuarros, Daniel Paiva, Daniel Malet Calvo, 2023-04-28 *Ambiance Tourism and the City* considers how tourism and urban development affect the lived ambiances of contemporary cities around the world As most of the existing literature on sensory atmospheres says little about the intersection between tourism and atmospheric production this book affirms the centrality of the notion of ambiance as a mode of inquiry into the making and remaking of urban places for tourist consumption The book takes the reader into the sensory worlds of a traditional Italian marketplace a jungle park in Kuala Lumpur a slum in the Colombian city of Medellín or the sun and sand tourism destinations in Southern Spain among other case studies It offers new insights into the impact of tourism on the urban environment from multidisciplinary perspectives and a wide range of geographical regions across Europe North America Asia and South America Through these contemporary case studies the book further deepens our understanding of the ways in which ambiances and atmospheres pervade the physical regeneration and sensory transformation of contemporary tourist destinations Conversely this book offers insights on the effects of tourism on everyday urban experience By bringing together a diverse group of scholars and case studies to present a global perspective

on the atmospheric production of the tourist city this book is to serve as a valuable reference tool for researchers and undergraduate and postgraduate students with an interest in urban ambiances tourism cultural geography and urban planning Chapter 1 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license
