become one of America's first cold warriors led the bitter fight to reject the hydrogen bomb and campaigned tirelessly for the international control of atomic weapons. He continued to exert his influence as President Eisenhower's high commissioner and then ambassador to Germany helping to secure the country's future and strengthen Europe's defenses against Soviet aggression. He achieved national prominence in his twenty-year reign as president of Harvard, the very symbol of the intellectual and social elite, and yet was a champion of meritocracy and open admissions, helping to create the SAT and devoting his later life to improving public schools as the engine of democracy. For all his brilliance, he never understood the depression that ravaged his family but struggled to keep his wife from succumbing in the process, alienating both his sons. With *Man of the Hour*, Jennet Conant paints a rich, nuanced portrait of a great American leader and visionary, the last of a vanishing breed. Jacket
