*The Man-Made World* Charlotte Perkins Gilman, 2021-01-05 *The Man Made World* 1911 is a sociological study by American author and feminist Charlotte Perkins Gilman Inspired by her work as a social reformer and advocate for women's suffrage Gilman sought to write a work of nonfiction that explained the effects of patriarchy not only on the lives of women but on the structure and health of society at large In the beginning Gilman observes that though biology naturally attributes motherhood and fatherhood to women and men respectively there is no evolutionary explanation for the widespread control of men over all other human activities This inequity Gilman explains is what she means by the term Androcentric Culture a culture organized by men for men Having established her thesis Gilman dedicates chapters to such topics as the family health art sports religion education government economics and warfare in order to observe the impact of male domination on each Ultimately Gilman asks what if anything will men lose if women are granted the rights and responsibilities they have no reason not to share *The Man Made World* is a thorough and powerful experiment in sociological thought and a groundbreaking work of feminist nonfiction With a beautifully designed cover and professionally typeset manuscript this edition of Charlotte Perkins Gilman's *The Man Made World* is a classic of American literature and nonfiction reimagined for modern readers

**Man-Made Women** Kathleen Richardson, Charlotta Odlind, 2023-01-01 This book presents a unique feminist approach to sex dolls and sex robots taking a critical look at the academic and business narratives that serve to rationalise them As new forms of pornography porn robots this edited volume provides an urgent women's centred critique The emergence of sex robots is situated within the wider context of the attack on women's rights and the relentless rise of techno pornography As an outgrowth of the industries of prostitution pornography and child sex abuse these objects offer new ways to dehumanise women and girls While support for sex robots is positioned as progressive and emancipatory the contributors in this volume argue they reduce women to consumable parts They explore how law the arts ethics economy politics and culture are interconnected with harmful technological developments

Gena Corea, Renate Duelli Klein, Jalna Hanmer, Helen B. Holmes, Betty Hoskins, Madhu Kishwar, Janice Raymond, Robyn Rowland, Roberta Steinbacher, 2024-11-20 In the early 1980s the new reproductive technologies available supposedly offered infertile women a chance to have children However there was growing concern that the determination of scientists to dominate nature their disregard for women's well being and the financial gains to be made from these technologies would together result in the increased modification of all women's lives and the loss of even more control over our own bodies Originally published in 1985 the essays in *Man Made Women* describe the technologies being used and researched in the areas of in vitro fertilization test tube babies sex predetermination and embryo transfer at the time They discuss the practical application of the technologies on an international scale and draw attention to the racist and classist assumptions on which they are based There is also information about the international action that feminists had begun to counter these so called benevolent and therapeutic technologies *Man Made Women* hoped to encourage women to start questioning the miracle of these new reproductive technologies and to become involved in crucial decisions about their bodies and their lives *The Man-Made World; Or, Our Androcentric Culture* Charlotte Perkins Gilman, 2019-11-21 In *The Man Made World Or Our Androcentric Culture* Charlotte Perkins Gilman presents a critical exploration of societal norms that privilege masculinity while subordinating femininity The book's literary style combines incisive argumentation with vivid illustrations reflecting the author's deep engagement with both sociology and feminist theory Gilman pulls from a range of cultural references encapsulating the pervasive nature of gender bias within a patriarchal framework thereby positioning her work within the early feminist discourse of the late 19th and early 20th centuries Charlotte Perkins Gilman an influential thinker and activist drew inspiration from her own experiences of gender oppression and personal struggles with domesticity Her upbringing in a progressive yet ultimately constrictive environment shaped her views on gender roles and societal expectations An advocate for women's rights Gilman's writings reflect her commitment to social reform and her vision for an equitable society where women can attain intellectual and economic independence This book is essential reading for anyone interested in feminist theory gender studies and sociology Gilman's profound insights into the construction of gender and its implications for society provide timeless relevance prompting readers to reconsider the cultural narratives that shape their understanding of gender roles and encouraging a necessary dialogue around equality and empowerment *The Man-made World, Or, Our Androcentric Culture* Charlotte Perkins Gilman, 1914 *Women and the Making of Built Space in England, 1870-1950* Elizabeth Darling, Lesley Whitworth, 2017-03-02 This interdisciplinary collection explores the relationships between women and built space in England between the 1870s and the 1940s Historians working in cultural literary architectural urban design labour and social history approach the topic through case studies of often neglected organisations individuals practices and initiatives Included are East End rent collectors tenants diarists and correspondents the All Europe House the Women's Co operative Guild the Housewives Committee of the Council of Industrial Design provincial and metropolitan

exhibitors and activists of varying kinds Moving beyond the study of buildings and their designers the volume considers the making of space in its broadest sense from the production of discourses to the consumption of domestic appliances and the performance of roles as diverse as social reformers committee members and homemakers It thereby demonstrates that women made a significant contribution to the creation of modern built environments in both public and private spheres

Walker, 2010-04 Extraordinary independent scholar of comparative religion and mythology Walker examines a time when the Goddess and her consort son ruled supreme and forward into the era when the patriarchy usurped Her worship **Theatre Magazine**, 1919 **Theatre Magazine** W. J. Thorold, Arthur Hornblow, Arthur Hornblow (Jr.), Perriton Maxwell, Stewart Beach, 1919 Motion Picture Herald, 1927 *Women Attached* Jacqueline Tivers, 2024-11-20 Originally published in 1985 *Women Attached* was one of the first empirical studies in geography to deal with the special problems of women with young children Even within sociology and psychology there were very few studies in this area at the time Within geography the study of this population sub group was certainly a new departure However it was impossible to make meaningful sense of the structure of daily lives and activities of women without taking in to account the nature and impact of constraints on such activities Young children being the most clearly visible constraint in women's lives Therefore one aim of the research project was to relate empirical findings to the existing social science literature dealing with constraints on activities This book was an attempt to redress the balance slightly in favour of women's activities and specifically focuses on a group of women who had only rarely been the subject of research interest at the time Today it can read in its historical context **Woman's Institute Reference Library ...
