Abstract: Eliot, an important poet, playwright, and literary critic of the nineteenth century in the United States, was the founder of Western modernism. He pioneered the modern poetic criticism. His practice of modernist poetry is the transition from traditionalist poetics to modernist poetics in the 20th century. His famous poetics theory declaration “Tradition and the Individual Talent” is an immortal classic in the field of poetics theory, in which he proposed the concept of “Traditional,” the theory of “Impersonal” poetry, “Objective Correlative,” and so on. All had a profound influence on the 20th-century poetry creation. This paper aims to analyze and discuss the important “Impersonal” theory from the three aspects of its connotation, the relationship between “Personality” and its intertextuality with New Criticism, so as to further understand Eliot’s poetic concepts.

Keywords: Eliot; “Tradition and the Individual Talent”; Impersonal theory; Poetics

1. Introduction

“Poetry is not a turning loose of emotion, but an escape from emotion; it is not the expression of personality, but an escape from personality.”——“Tradition and the Individual Talent” by TS Eliot, 1919.

“Tradition and the Individual Talent” is a distinguished essay written by American well-known poet and literary critic TS Eliot in 1919. This essay was first published in *The Egoist* in 1919 and later in Eliot’s first book of criticism, *The Sacred Wood* in 1920. It was also compiled in Eliot’s *Selected Essays* and *Selected Prose* ^[1].

Although Eliot is best known for his poetry, he also made a great contribution to the field of literary criticism. As a modernist poet and critic who held an important position and influence in the modernist movement of the 20th century. His poetry theory pioneered new criticism and served as an intermediary for the transition from traditional poetics in the 19th century to modern poetics in the 20th century. He was a poet-critic, like Sir Philip Sidney and Samuel Taylor Coleridge. The essay “Tradition and the Individual Talent” is one of the most significant critical articles, which formulates his influential conception of the relationship between the poet’s individual talent and the literary tradition that precedes them. It has shaped generations of poets, critics, and theorists and is a key text in modern literary criticism ^[2].
