Sixteen Modern American Authors Jackson R. Bryer, 1990 Praise for the earlier edition Students of modern American literature have for some years turned to *Fifteen Modern American Authors* 1969 as an indispensable guide to significant scholarship and criticism about twentieth century American writers In its new form *Sixteenth Modern American Authors* it will continue to be indispensable If it is not a desk book for all Americanists it is a book to be kept in the forefront of the bibliographical compartment of their brains American Studies **The Literary Criticism of Samuel Johnson** Philip Smallwood, 2023-09-21 A compelling case for the importance of the heart and emotions over that of critical theory in Johnson

s literary criticism *Eliot and Beckett's Low Modernism* Rick de Villiers, 2021-11-24 It explores the relation between humility and humiliation in the works of T S Eliot and Samuel Beckett. It offers the first book length comparative study of T S Eliot and Samuel Beckett. It develops a literary theory of humility and humiliation concepts whose definitions have largely been determined by philosophy and theology. It explores the relation between negative affect ethics and aesthetics. Humility and humiliation have an awkward often unacknowledged intimacy. Humility may be a queenly cardinal or monkish virtue while humiliation points to an affective state at the extreme end of shame. Yet a shared etymology links the words to lowliness and further down to the earth. As this study suggests like the terms in question T S Eliot and Samuel Beckett share an imperfect likeness. Between them is a common interest in states of abjection shame and suffering and possible responses to such states. Tracing the relation between negative affect ethics and aesthetics. It demonstrates how these two major modernists recuperate the affinity between humility and humiliation concepts whose definitions have largely been determined by philosophy and theology. **Centennial Hauntings**, 2022-10-04 **T. S. Eliot** Harriet Davidson, 2022-09-09 One of the most influential poets of the twentieth century T S Eliot is generally regarded as a leading exponent of the literary movement which came to be known as Modernism. In this volume Harriet Davidson collects key recent essays by such internationally renowned critics as Terry Eagleton Sandra Gilbert Jacqueline Rose Jeffrey Perl Christine Froula Maud Ellmann and Michael North placing Eliot's work centrally in the context of postmodern critical theory. Eliot's writing is often perceived as incompatible with or resistant to new theoretical approaches but this volume demonstrates the continuity between Eliot's own theoretical writings and contemporary theory and illuminates his poetry with imaginative readings from deconstructive Marxist psychoanalytic and feminist perspectives. Headnotes to the essays and a bibliography which lists other informative readings make this book an invaluable guide to all students of twentieth century poetry and to scholars interested in the relationship between critical and creative writing. *Prospects for the Study of American Literature* Richard Kopley, 1997-08 What can there possibly be left to say about this common litany resonant both in and outside of academia reflects a growing sense that the number of subjects and authors appropriate for literary study is rapidly becoming exhausted. Take heart admonishes Richard Kopley in this dynamic new anthology for this is decidedly not the case. While generations of literary study have unquestionably covered much ground in analyzing canonical writers many aspects of even the most well known authors both their lives and their work remain underexamined. Among the authors discussed are T S Eliot Ralph Waldo Emerson William Faulkner Harriet Beecher Stowe Walt Whitman Ernest Hemingway Richard Wright Edith Wharton Nathaniel Hawthorne Zora Neale Hurston Henry James Willa Cather Herman Melville Edgar Allan Poe Henry David Thoreau and Mark Twain. **The Language of Criticism (Routledge Revivals)** John Casey, 2012-07-26 First published in 1966 the *Language of Criticism* was the first systematic attempt to understand literary criticism through the methods of linguistic

philosophy and the later work of Wittgenstein Literary critical and aesthetic judgements are rational but are not to be explained by scientific methods Criticism discovers reasons for a response rather than causes and is a rational procedure rather than the expression of simply subjective taste or of ideology or of the power relations of society The book aims at a philosophical justification of the tradition of practical criticism that runs from Matthew Arnold through T S Eliot to I A Richards William Empson F R Leavis and the American New Critics It argues that the close reading of texts moves justifiably from text to world from aesthetic to ethical valuation In this it differs radically from the schools of theory that have recently dominated the humanities
