The Churches In England From Elizabeth I To Elizabeth II Volume Iii 1833 1998:

The Churches and the Working Classes Patricia Midgley, 2012-12-21 Contrary to our perception of the centrality of the churches in English life in the nineteenth century the disappointing results of the 1851 Religious Census led religious leaders to seek a variety of ways to increase religious allegiance as the century progressed The apparent apathy and lack of interest in formal religion on the part of the working classes was particularly galling and the various denominations tried hard to attract them through evangelical missions as well as social and charitable ventures which sometimes competed with religious concerns to the latter's detriment This book traces the motivations concerns and efforts of the churches particularly in the period between 1870 and 1920 and the ambivalent responses of ordinary people The Education Act of 1870 led to the churches losing their hold on the education of the young a consequence foreseen by many church leaders but unable to be prevented By 1920 it was apparent that the churches' optimism regarding an increased role with a war-weary population would not be fulfilled The focus is on the city of Leeds representative of the industrialised urban areas with burgeoning populations which proved to be such a challenge to the churches at the same time stimulating them to ever greater efforts

Religion and Society in Twentieth-Century Britain Callum G. Brown, 2014-09-11 During the twentieth century Britain turned from one of the most deeply religious nations of the world into one of the most secularised nations This book provides a comprehensive account of religion in British society and culture between 1900 and 2000 It traces how Christian Puritanism and respectability framed the people amidst world wars economic depressions and social protest and how until the 1950s religious revivals fostered mass enthusiasm It then examines the sudden and dramatic changes seen in the 1960s and the appearance of religious militancy in the 1980s and 1990s With a focus on the themes of faith cultures secularisation religious militancy and the spiritual revolution of the New Age this book uses people's own experiences and the stories of the churches to display the diversity and richness of British religion Suitable for undergraduate students studying modern British history church history and sociology of religion

The Great Church Crisis and the End of English Erastianism, 1898-1906 Bethany Kilcrease, 2016-12-08 This book traces the history of the Church Crisis a conflict between the Protestant and Anglo Catholic Ritualist parties within the Church of England between 1898 and 1906 During this period increasing numbers of Britons embraced Anglo Catholicism and even converted to Roman Catholicism Consequent fears that Catholicism was undermining the Protestant heritage of the established church led to a moral panic The Crisis led to a temporary revival of Erastianism as protestant groups sought to stamp out Catholicism within the established church through legislation whilst Anglo Catholics who valued ecclesiastical autonomy opposed any such attempts The eventual victory of forces in favor of greater ecclesiastical autonomy ended parliamentary attempts to control church practice sounding the death knell of Erastianism Despite increased acknowledgment that religious concerns remained deep seated around the turn of the century historians have failed to recognize that this period witnessed a high point in Protestant Catholic antagonism and a shift in the relationship between the established church and Parliament Parliament's increasing unwillingness to address ecclesiastical concerns in this period was not an example advancing political secularity Rather Parliament's increased reluctance to engage with the Church of England illustrates the triumph of an anti Erastian conception of church state relations

The Third Spring Adam Schwartz, 2005-02 This book is the first detailed examination of these four authors as part of a Roman Catholic counter modern community of discourse It is informed by extensive research in the writers works scholarship on them and their personal papers
