Sophocles: Philoctetes Sophocles, 2013-09-12 Accessible edition with commentary of this widely read but highly complex and challenging play. Sivanandan, Jean Arasanayagam, Carl Muller, James Goonewardene, and Punyakante Wijenaike, to rigorously challenge the theoretical, cultural, and political assumptions that pit insider against outsider, resident against migrant, and the authentic against the alien. By interrogating the discourses of territoriality and boundary marking that have come into prominence since the start of the civil war, Salgado works to define a more nuanced and sensitive critical framework that actively reclaims marginalized voices and draws upon recent studies in migration and the diaspora to reconfigure the Sri Lankan critical terrain. **Sanctioned Ignorance** Paul Martin, 2013-11-15 There is no such thing as the ivory tower. Rather, there sit side by side numerous windowless towers of knowledge, each seeming to have only a small entrance and no discernable exit. Paul Martin. Multilingual, multicultural, and vast, Canada enjoys a rich diversity of literatures. So why does Canadian literature, as it has been taught, fail to encompass a common geography, history, and government, yet reveal the diverse experiences of its immigrants, long-term residents, and original peoples? Martin's research interviews with 95 professors in 27 universities maps the institutional chasms in communication and the nature of their persistence. His own example of venturing out from his tower to dialogue with colleagues shows a way toward cultivating a conception of the literatures of Canada that is expansive and inclusive.

Canadianists professors of English French Postcolonial and Comparative Literatures and leaders in education will profit from Martin's frank investigations

**Artful Flight** Susan Glickman,2022-02-21 Susan Glickman muses that thoughtful literary criticism is not merely about duelling with words however full of flourishes and feints Rather it means or ought to mean to evaluate something dispassionately seeing not only its faults but its virtues In

Artful Flight she does just that writing respectfully but uncompromisingly about artistic topics both ostensibly familiar such as considerations of writers like Northrop Frye Don Coles Er n Moure and Bronwen Wallace and delightfully arcane such as the etymological evolution of contranymy in Shakespeare and beyond With keen intelligence and droll wit Glickman explores a variety of artistic concerns from the expectations of literary genre the formalist hurdles of poetry and the tyranny of modern opinion to the magical history of the violin and the pleasure of creating visual art later in life Her approach is unabashedly her own feminist supportive and drawing on a wide range of cultural and literary references These well reasoned essays prove that balanced criticism can be compelling nuanced and sensitive to the motives and influences of artists
