The Circles Search For Its Center:

The Mirror in the Text Lucien Dällenbach, 1989-07-27 The Mirror in the Text is concerned with the literary and artistic device of mise en abyme the use of an element within a work which mirrors the work as a whole like the play within a play in Hamlet In this classic study Lucien Dällenbach provides the first systematic analysis of this device and its literary and artistic applications from Van Eyck and Velasquez to Gide Beckett and the French nouveau roman Alongside this wealth of examples Dällenbach constructs his theoretical argument with elegance and clarity assuming no previous knowledge of arcane and specialized theory but guiding the reader helpfully through the maze of literary criticism The result is a new conceptual field a new grammar of the mise en abyme and an examination of its function within the work of art and literature The highly original study has been acclaimed as one of the most important works of contemporary literary theory It will be of interest to all students of English and European literature as well as to students of the visual arts **Samuel Beckett and the Visual**

Conor Carville, 2018-04-12 This book outlines Beckett's passion for the visual arts as he developed his signature style between the 1930s and 1970s Obscure Locks, Simple Keys Chris Ackerley, 2010-09-07 Obscure Locks offers a detailed annotation of Samuel Beckett's most enigmatic novel Watt It provides a page by page account of the demented details literary philosophical theological biographical and other that went into the making of this encyclop The Cambridge Companion to the Novel Eric Bulson, 2018-06-28 This Companion focuses on the novel as a global genre with a 2 000 year history The first section includes an examination of the various genres out of which it emerged epic history romance the picaresque and the different ways in which fiction and realism magical hyper and social were developed in response to specific political social and economic forces The second section focuses on how the novel works considering how it has played a crucial role in the formation of more abstract social political and familial identities The third section considers what the novel has become and will continue to become in the twenty first century It examines the recent interest in graphic novels as well as data digitization and a global literary marketplace's role in shaping the future of the novel This book will be a key resource for students and scholars studying the novel as a genre **Watt** Samuel Beckett, 2009-06-16 In prose

possessed of the radically stripped down beauty and ferocious wit that characterize his work this early novel by Nobel Prize winner Samuel Beckett recounts the grotesque and improbable adventures of a fantastically logical Irish servant and his master Watt is a beautifully executed black comedy that at its core is rooted in the powerful and terrifying vision that made Beckett one of the most influential writers of the twentieth century **Behold an Animal** Thangam Ravindranathan, 2020-01-15 As animals recede from our world what tale is being told by literature's creatures Behold an Animal Four Exorbitant Readings examines incongruous animals in the works of four major contemporary French writers an airborne horse in a novel by Jean Philippe Toussaint extinct orangutans in Ric Chevillard stray dogs in Marie NDiaye vanishing bits of hedgehogs in Marie Darrieussecq Resisting naturalist assumptions that an animal in a story is simply

literally or metaphorically an animal Thangam Ravindranathan understands it rather as the location of something missing The animal is a lure an unfinished figure fleeing the frame crossing bounds of period genre even medium and language Its flight traces an exorbitant self portrait in which thinking admits to its commerce with life and flesh It is in its animals at the same time unbearably real and exquisitely unreal that literature may today be closest to philosophy This book's primary focus is the contemporary French novel and continental philosophy In addition to Toussaint Chevallard NDiaze and Darrieussecq it engages the work of Jean de La Fontaine Eadweard Muybridge Edgar Allan Poe Lewis Carroll Samuel Beckett and Francis Ponge

Understanding Blanchot, Understanding Modernism Christopher Langlois, 2018-06-14 Maurice Blanchot occupies a central though still overlooked position in the Anglo American reception of 20th century continental philosophy and literary criticism On the one hand his rigorous yet always playful exchanges with the most challenging figures of the philosophical and literary canons of modernity have led thinkers such as Georges Bataille Emmanuel Levinas Jacques Derrida and Michel Foucault to acknowledge Blanchot as a major influence on the development of literary and philosophical culture after World War II On the other hand Blanchot's reputation for frustrating readers with his difficult style of thought and writing has resulted in a missed opportunity for leveraging Blanchot in advancing the most essential discussions and debates going on today in the comparative study of literature philosophy politics history ethics and art Blanchot's voice is simply too profound too erudite and too illuminating of what is at stake at the intersections of these disciplines not to be exercising more of an influence than it has in only a minority of intellectual circles **Understanding Blanchot Understanding Modernism** brings together an international cast of leading and emergent scholars in making the case for precisely what contemporary modernist studies stands to gain from close inspection of Blanchot's provocative post war writings New Syllabus
