resolve the potential tension between bureaucracy and Parliamentary democracy This Official History is based on extensive research into both recently released and unreleased papers as well as interviews with leading participants It has important lessons to offer all those both inside and outside the UK seeking to improve the quality of democratic government This book will be of great interest to all students of British history British government and politics and of public administration in general

The British Constitution in the Twentieth Century Vernon Bogdanor,2004-06-10 This is the first scholarly survey of the British constitution in the twentieth century Indeed it fills a very real gap in the history of Britain during the last hundred years The book is a product of interdisciplinary collaboration by a distinguished group of constitutional lawyers historians and political scientists and draws where possible on primary sources Its evaluation of the recent constitutional reforms will be of particular interest This major interpretation of the constitution will remain authoritative for many years

The Civil Service Keith Dowding,2005-06-29 Radical reforms of the civil service during the 1980s and 90s have broken up the old unified hierarchical structures In their place are peripheral agencies concerned with policy implementation and a central core concerned with policy making The radical reforms are described and assessed in terms of the public choice and public management theories which underpin them Bureau maximizing and bureau shaping models are used to predict the directions we should expect the reforms to take and their likely success The key central chapter of the book examines the equivocal use of the term efficiency used to justify the managerial changes This is the first textbook which critically examines theories of bureaucracy together with an introductory and descriptive account of the civil service today

Diplomatic Identity in Postwar Britain James Southern,2021-05-09 This book seeks to understand the complex ways in which the Foreign Office adapted to the rise of identity politics in Britain as it administered British foreign policy during the Cold War and the end of the British Empire After the Second World War cultural changes in British society forced a reconsideration of erstwhile diplomatic archetypes as restricting recruitment to white heterosexual upper or middle class men gradually became less socially acceptable and less politically expedient After the advent of the tripartite school system and then mass university education the Foreign Office had to consider recruiting candidates who were qualified but had not been socialized in the public schools and Oxbridge Similarly the passage of the 1948 Nationality Act technically meant nonwhites were eligible to join The rise of the gay rights movement and postwar women s liberation both generated further unique dilemmas for Foreign Office recruiters Diplomatic Identity in Postwar Britain seeks to destabilize concepts like talent merit equality and representation arguing that these were contested ideas that were subject to political and cultural renegotiation and revision throughout the period in question

House of Commons - Public Administration Select Committee: Truth to Power: How Civil Service Reform Can Succeed - HC 74 Great Britain: Parliament: House of Commons: Public Administration Select Committee,2013-09-06 The Public Administration Select Committee PASC has concluded a year long inquiry into the future of the Civil Service with only one recommendation that Parliament should establish a Joint Committee

of both Houses to sit as a Commission on the future of the Civil Service It should be constituted within the next few months and report before the end of the Parliament with a comprehensive change programme for Whitehall with a timetable to be implemented over the lifetime of the next Parliament The Report considers the increased tensions between ministers and officials which have become widely reported and places the problems in Whitehall in a wider context of a Civil Service built on the Northcote Trevelyan settlement established in 1853 and the Haldane principles of ministerial accountability set out in 1919 The government's Civil Service Reform Plan lacks strategic coherence and clear leadership from a united team of ministers and officials The Northcote Trevelyan Civil Service remains the most effective way of supporting the democratically elected Government and future administrations in the UK Divided leadership and confused accountabilities in Whitehall have led to problems a low level of engagement amongst civil servants in some departments and agencies and a general lack of trust and openness the Civil Service exhibits the key characteristics of a failing organisation with the leadership are in denial about the scale of the challenge they face There is a persistent lack of key skills and capabilities across Whitehall and an unacceptably high level of churn of lead officials which is incompatible with good government **Great British Plans** Ian Wray, 2015-09-25 Can the British plan Sometimes it seems unlikely Across the world we see grand designs and visionary projects new airport terminals nuclear power stations high speed railways and glittering buildings It all seems an unattainable goal on Britain's small and crowded island and yet perhaps this is too pessimistic For the British have always planned and much of what they have today is the result of past plans successfully implemented Ranging widely from London's squares and the new city of Milton Keynes to High Speed One the motorways and the secret first electronic computers Ian Wray's remarkable book puts successful infrastructure plans under the microscope Who made these plans and what made them stick How does this reflect the defining characteristics of British government And what does that say about the individuals who drew them up and saw them through In so doing the book casts refreshing new light on how big decisions have actually been made revealing the hidden sources of drive and initiative in British society as seen through the lens of plans past And it asks some searching questions about the mechanisms we might need for successful plans future in Britain and elsewhere Includes foreword by the Right Honourable the Lord Heseltine CH Design and Cultural Politics in Postwar Britain Patrick Maguire, Jonathan Woodham, 1997-01-01 Nine essays and a collection of documents intended as a working tool for students of the post war period and in particular of design within the period They discuss the textiles pottery and furniture industries in terms of the shifts in meaning and location during the transition from highly controlled wartime production to the more market based structure that would become characteristic after the immediate reconstruction Among the specific topics are the place of the exhibition in the history of design patriotism politics and production adapting utility furniture to peace time production and aesthetic idealism and economic reality Distributed in the US by Books International The CiP data shows the main title as Popular Politics and Design in Post War Britain Annotation copyrighted by Book News

Williams, 2000-09-19 Crisis and Consensus in British Politics focuses on the collapse of the post war consensus in the mid 1970s crisis and the emergence of a new consensus in the 1990s It follows this process through six key policy areas including civil service reform privatisation macro economic management and relations with Europe It is designed for students following courses in modern history politics and public policy as well as general readers with an interest in current affairs Dilemmas of Change in British Politics Donley T. The Culture of Secrecy David Vincent, 1998 A comprehensive study of the closure of communication in modern British history right up to 1998 this book seeks to understand why secrets have been kept and how the systems of control have been constructed and challenged over the past 160 years Cages of Reason Bernard S. Silberman, 1993-06 Blending political historical and sociological analysis Bernard S Silberman offers a provocative explanation for the bureaucratic development of the modern state The study of modern state bureaucracy has its origins in Max Weber's analysis of the modes of social domination which Silberman takes as his starting point Whereas Weber contends that the administration of all modern nation states would eventually converge in one form characterized by rationality and legal authority Silberman argues that the process of bureaucratic rationalization took in fact two courses One path is characterized by permeable organizational boundaries and the allocation of information by professionals The other features well defined boundaries and the allocation of information by organizational rules Through case studies of France Japan the United States and Great Britain Silberman demonstrates that this divergence stems from differences in leadership structure and in levels of uncertainty about leadership succession in the nineteenth century Silberman concludes that the rise of bureaucratic rationality was primarily a response to political problems rather than social and economic concerns Cages of Reason demonstrates how rationalization can have occurred over a wide range of cultures at various levels of economic development It will be of considerable interest to readers in a number of disciplines political science sociology history and public administration Silberman has produced an invaluable densely packed work that those with deep knowledge of public administrative development will find extremely rewarding David H Rosenbloom American Political Science Review An erudite incisive and vibrant book the product of intensive study and careful reflection Given its innovative theoretical framework and the wealth of historical materials contained in it this study will generate debate and stimulate research in sociology political science and organizational theory It is undoubtedly the best book on the comparative evolution of the modern state published in the last decade Mauro F Guillen Contemporary Sociology **Organizing Governance, Governing Organizations** Colin Campbell, B. Public Policy Investment Anthony Bertelli, Peter John, 2013-11 This book sets out a novel approach to public policy in democratic political systems The idea is that government or executives are like investors who act on behalf of the public Political leaders make choices about which policies to follow and seek to get re elected as a result The book takes the well known case of Britain where the governing party and Prime Minister make the key decisions about which policies to follow The period is from 1971 to 2000 when the country faced a varied set of circumstances ranging from inflation and unemployment to economic growth The book shows how leaders coped in these conditions and used their control over policy to help get their governments re elected The book offers a comprehensive theory of public policy investment which may be used by scholars to apply to countries with very different institutions to those of Britain

Policy-Making in the Treasury M. Smith, 2014-01-30 Going behind the doors of the Treasury and Number 10 this book explores why successive British Prime Ministers from Callaghan to Blair have been hesitant towards European Economic and Monetary Union It uses official documents and interviews with former ministers to understand discussions that took place at the heart of government
