David Benson,2019-05-10 This volume explores the conflicting representations of ancient Rome one of the most important European cities in the medieval imagination in late Middle English poetry Once the capital of a great pagan empire whose ruined monuments still inspired awe in the Middle Ages Rome the seat of the pope became a site of Christian pilgrimage owing to the fame of its early martyrs whose relics sanctified the city and whose help was sought by pilgrims to their shrines C David Benson analyzes the variety of ways that Rome and its citizens both pre Christian and Christian are presented in a range of Middle English poems from lesser known anonymous works to the poetry of Gower Chaucer Langland and Lydgate Benson discusses how these poets conceive of ancient Rome and its citizens especially the women of Rome as well as why this matters to their works An insightful and innovative study Imagined Romes addresses a crucial lacuna in the scholarship of Rome in the medieval imaginary and provides fresh perspectives on the work of four of the most prominent Middle English poets The Roman Self in Late Antiquity Marc Mastrangelo,2008-01-21 The Roman Self in Late Antiquity

for the first time situates Prudentius within a broad intellectual political and literary context of fourth century Rome As Marc Mastrangelo convincingly demonstrates the late fourth century poet drew on both pagan and Christian intellectual traditions especially Platonism Vergilian epic poetics and biblical exegesis to define a new vision of the self for the newly Christian Roman Empire Mastrangelo proposes an original theory of Prudentius s allegorical poetry and establishes Prudentius as a successor to Vergil Employing recent approaches to typology and biblical exegesis as well as the most current theories of allusion and intertextuality in Latin poetry he interprets the meaning and influence of Prudentius s work and positions the poet as a vital author for the transmission of the classical tradition to the early modern period This provocative study challenges the view that poetry in the fourth century played a subordinate role to patristic prose in forging Christian Roman identity It seeks to restore poetry to its rightful place as a crucial source for interpreting the rich cultural and intellectual life of the era **Ontology of Divinity** Mirosław Szatkowski,2024-04-22 This volume announces a new era in the philosophy of

David Hume and the Problem of Other Minds Anik Waldow, 2009-08-15 The problem of other minds has widely been considered as a special problem within the debate about scepticism If one cannot be sure that there is a world existing independent ly of one's mind how can we be sure that there are minds minds which we cannot even experience the way we experience material objects This book shows through a detailed examination of David Hume's A Treatise of Human Nature that these concerns are unfounded By focusing on Hume's discussion of sympathy the ability to connect with the mental contents of other persons Anik Waldow demonstrates that belief in other minds can be justified by the same means as belief in material objects The book thus not only provides the first large scale treatment of the function of the belief in other minds within the Treatise thereby adding a new dimension to Hume's realism but also serves as an invaluable guide to the complexity of the problem of other minds and its various responses in contemporary debate
