Payne, 1995-08-18 Whereas foreign policymaking is generally viewed as a rational unemotional and sophisticated process this analysis of American policies toward the Persian Gulf the Palestinian Israeli conflict and the Bosnian conflict suggests that the underlying and largely unexamined cultural values of most ordinary Americans play a major role in determining the United States choice of force or negotiation in dealing with international problems Payne examines the linkage between the United States tendency to use force in foreign policy and the culture of violence in

America He argues that the costs of resolving conflicts militarily are likely to become more burdensome as economic competitors seek to take advantage of the U S tendency to demonstrate resolve primarily through the application of force Post Cold War challenges Payne argues call for a more nuanced combination of force and diplomacy He finds hope in the fact that a strong component of American culture favors nonviolence embraces humanitarianism and if cultivated can contribute to the peaceful resolution of conflicts

**Debating the African Condition: Race, gender, and culture conflict** Alamin M. Mazrui, Alamin Mazrui, Willy Mutunga, 2004 Is Ali Mazrui a visionary or a vacuous intellectual Is he reactionary revolutionary or essentially a radical pragmatist These questions were the focus of a special plenary session of the Conference of the African Association of Political Science that took place in Harare Zimbabwe in June 2003 The forum was intended to interrogate Ali Mazrui's contributions in the last forty years or so of his career as an academic The question themselves capture the magnitude of polarization among different sections of Mazrui's audiences generated by his often provocative propositions and prescriptions on a wide range of issues from the role of intellectuals in Africa's transformation to the imperative of pax Africana from Tanza philia to Islamophobia from the condition of the Black woman to the destiny of the Black race It is some the exchanges sometimes intense and even acrimonious arising from Mazrui's ideas on continental and global African affairs from the 1960s to the present that constitute the subject matter Together they are not only a celebration of Ali Mazrui's own intellectual life as one long debate but also an intellectual mirror of the contours of some of the hotly contested terrains in Africa's quest for self realization

**The Sociology of Globalization** Luke Martell, 2010-02-22 This accessible and wide ranging book demonstrates the distinctive insights that sociology has to bring to the study of globalization Taking in the cultural political and economic dimensions of globalization the book provides a thorough introduction to key debates and critically evaluates the causes and consequences of a globalizing world In addition to topics such as America's changing position in the world under President Obama the growth of China as a global power and anti globalization movements Martell brings to the discussion other aspects of world affairs that sociologists have sometimes not focused on so much In doing so he underlines the importance of economic motivations and structures and shows how power inequality and conflict are major factors in globalization The book argues that globalization offers many opportunities for greater interaction and participation in societies throughout the world for instance through the media and migration but also has dark sides such as war and nuclear proliferation global poverty climate change and financial crisis This book will be an ideal companion to students across the social sciences taking courses that cover globalization and the sociology of globalization in particular

**Culture Clash 2** Thomas D. Zweifel, 2013-07 Few are prepared for managing across cultures and the costs of cultural blind spots can spin out of control from lawsuits to lost opportunities Forged in the fire of clashing cultures and living on four continents Dr Zweifel developed a fool proof methodology for managing successfully across borders And post 9 11 the Arab Spring and the BRICS emerging markets e commerce and social networks have made this updated and expanded edition of Culture Clash indispensable Culture Clash 2 is not another Kiss Bow or Shake Hands Such protocol laden works on whether to bring wine to a dinner in Singapore or how many times to kiss in France might have their uses but non compliance with local etiquette has rarely been a deal breaker What has derailed international business is the inability of managers to see the world from their counterpart's point of view
