Factual Faith - Belief Founded on Truth Jaco Prinsloo,1900 Today there are more than 10 000 religious beliefs in the world Your belief in the supernatural or the lack thereof will be among the myriad of beliefs that are held by various peoples and nations in this world How did you choose your belief system and are you 100% sure that what you believe is actually true Can you offer reliable proof to those in search of answers to substantiate your viewpoint on the matter Have you ever asked yourself why we as humans no matter where we find ourselves on the planet are the only creatures with a built in need to worship some form of Deity We walk around with so many more irrational beliefs than we realise and this can have an extreme effect on the way we think and behave We have been bombarded with information and influenced by our upbringing The foundation of our unique cultural development lies in the influence of our nurturing by parents in our personalities and the interaction with our environment and our peers In recent years people have been taught to adopt a relativistic viewpoint and not to think critically about subjects they would rather accept the popular mind set even when refuting factual evidence stares them in the face If you do not agree with what the majority sees as true and trendy it can negatively affect your social status and even your career and who wants that Prinsloo gives a sincere and accurately researched look at the flaws in modern day perceptions on extremely profound life issues If you have been intrigued by the Universe and the complexity and diversity of life on Earth and doubted the reality of the spiritual this book will bring you to the realisation that it is the one subject in which you can have 100% confidence of it being factual and true You have probably asked many questions on matters pertaining to the very essence of your being and on the truth about the Universe life and the world in which we live as philosophers and scientists have done over centuries In this book you will find your answers based on provable facts and thorough scientific verification presented in an accessible and logic fashion This work challenges mainstream theories like Relativism and Darwinism and offers innovative evidence for belief in the supernatural through verifiable evidence in an enjoyable and interesting way It provides tangible proof which you can easily verify for yourself You will be challenged by questions like How does one prove something to be factual and true What are the motives for accepting unfounded beliefs and why keep on believing in something that is already proven false Would you have more confidence in your belief if you had access to scientifically provable facts that supported and substantiated your viewpoint Does God exist Can we prove that He exists Who is He really and what are the implications for my life Whenever you encounter new ideas or views you will be called upon to contrast them against those concepts and theories that you have always believed to be true Many of these ideas and theories have simply been chosen and adopted by people in defiance of the truth since the alternative would not fit

their worldview or the responsibility it would require of them This book will help you not to become an influenced victim of untrue modern trends but will place you in a position of knowledge and authority to defend your beliefs Read this ground breaking book you who dare and the secret motives of your belief system will reveal themselves to you **The Long Count** Andrea Klosterman Harris,2010-09-04 What happens when the Long Count ends That s what a team of scientists situated near Izapa Mexico sets out to determine in the years leading up to December 21 2012 the end date of the Long Count the ancient Mayan calendar which some believe predicts the end of the world When infighting threatens to break up the team before the solution is found one unscrupulous member advances a theory that puts world armies on alert brings religious organizations to a tipping point and global society to a panic As thousands flock to Izapa on the end date to wait for the world to end the team realizes too late that the danger they thought would come from outside the human race actually comes from within **Who's Counting?** John Allen Paulos,2022-09-15 For decades New York Times best selling author John Allen Paulos has enlightened readers by showing how to make sense of the numbers and probabilities behind real world events political calculations and everyday personal decisions Who s Counting features dozens of his insightful essays original writings on contemporary issues like the COVID 19 pandemic online conspiracy theories fake news and climate change as well as a selection of enduring columns from his popular ABC News column of the same name With an abiding respect for reason a penchant for puzzles with societal implications and a disarming sense of humor Paulos does in this collection what he s famous for clarifies mathematical ideas for everyone and shows how they play a role in government media popular culture and life He argues that if we can t critically interpret numbers and statistics we lose one of our most basic and reliable guides to reality **Fact-Checking the Fact-Checkers** Matt Palumbo,2023-07-18 Who fact checks the fact checkers An industry that started in the 1990s by fact checking chain emails and Bigfoot sightings has evolved over the past decade into the American political left s strongest tool in justifying the censorship of their political opposition and shaping the national narrative in their favor There may have been a brief era where the fact checkers fact checked facts now they fact check reality itself **The Encyclopedia of Religious Phenomena** J Gordon Melton,2007-09-01 An inspiring and fascinating look at people s religious experiences and beliefs Visions of Mary and glimpses of God Miraculous apparitions witnessed by hundreds in parking lots along freeways and at the world s holiest sites Weeping statues exorcisms near death experiences mystical labyrinths and more than 250 other unusual and unexplained phenomena apparitions and extraordinary experiences rooted in religious beliefs are explored in The Encyclopedia of Religious Phenomena J Gordon Melton the Distinguished Professor of American Religious History at the Institute for Studies of Religion Baylor University takes readers on a tour among angels Marian apparitions and religious figures such as Jesus the Buddha Muhammad and Tao Tzu Melton reports on dreams feng shui statues that bleed snake handling speaking in tongues stigmata relics including the Spear of Longinus and the Shroud of Turin and sacred locales such as Easter Island the Glastonbury Tor the Great Pyramids Mecca Sedona and

The Dna of Scripture Karl L. Dahlstrom, 2015-05-27 By utilizing a relatively unknown natural law of science we are able to reveal the hidden pattern and divine structure of the Holy Scripture which by definition proves its authenticity This book is a unique defense of the Bible and thus by extension that of Christianity by providing a proof of the veracity of the Word of God in a scientific manner outside the Bible itself which previously has not been accomplished The author will demonstrate that the same true natural law of science the Law of First Digits as described in chapters 2 and 3 when applied to the Holy Scriptures of the Bible proves the presence of Gods unfathomable intelligence in creating and preserving the truthfulness of His Word Moreover this proof extends to the identification of God as the only true God of the universe to the exclusion of all others That is a very powerful and controversial statement but one that can be backed up If one proves the entirety of the Scripture as true then it follows that the God referred to in those same Scriptures is and must be the one true God of the universe
