Santley,Kenneth G. Hirth,1992-11-23

Prehispanic Domestic Units in Western Mesoamerica presents different analytical approaches for interpreting household composition and cultural site formation processes in prehispanic western Mesoamerica. Archaeological data collected using both stratigraphic and reconnaissance methods are combined with and interpreted using a combination of ethnohistoric ethnographic and ethnoarchaeological information. The result is a richer and more complete picture of prehispanic household structure than any single analytic approach could produce on its own. The book is organized into several sections based on common theme and geographic area. The first three chapters provide a broad discussion of conceptual and methodological difficulties that archaeologists must resolve in the study of prehispanic households. Subsequent chapters present case studies which examine households from two areas of western Mesoamerica: the Central Mexican highlands and the Gulf Coast of Mexico. Eight case studies from the Central Mexican highlands provide a longitudinal perspective on changing household composition. Four of these examine households during the late Formative, Classic, Epiclassic, and Early Postclassic periods (650 B.C. to A.D. 1200), while four others focus specifically on household structure during the century immediately preceding the Spanish Conquest. Two additional case studies provide comparative information on household organization in the South Gulf Coast region during the Classic period. *Prehispanic Domestic Units in Western Mesoamerica: Studies of the Household Compound and Residence* will be an excellent reference for all anthropologists and archaeologists interested in prehispanic western Mesoamerica.

Visions of Paradise Robert Stephen Haskett, 2005. Cuernavaca, often called the Mexican Paradise or Land of Eternal Spring, has a deep, rich history. Few visitors to this modern resort city near Mexico City would guess from its Spanish architecture and landmarks that it was governed by its Tlaluic residents until the early nineteenth century. Formerly called Cuauhnahuac, the city was renamed by the Spanish in the sixteenth century when Hernando Cortés built his stone palace on its main square and thrust Cuernavaca into the colonial age. In *Visions of Paradise*, Robert Haskett presents a history of Cuernavaca basing his account on an important body of late seventeenth-century historical records known as primordial titles written by still unknown members of the Native population. Until comparatively recently, these indigenous language documents have been dismissed as false or forged land records. Haskett, however, uses these Nahuatl texts to present a colorful portrait of how the Tlaluics of Cuernavaca and its environs made intellectual sense of their place in the colonial scheme, conceived of their relationship to the sacred worlds of both their native religion and Christianity, and defined their own history. Surveying the local history of Cuernavaca from precontact observations by the Aztecs through postclassic times to the present, with a concentration on early colonial times, Haskett finds that the Native authors of the primordial titles crafted a celebratory history proclaiming themselves to be an enduringly autonomous, essentially unconquered people who triumphed over the rigors of the Spanish colonial system.
