The Cold War 1945-1991 Derrick Murphy, 2003 An in depth but accessible study of one of the most popular GCSE Modern World History topics     *BRIXMIS and the Secret Cold War* Andrew Long, 2024-09-30 A detailed account of British intelligence operations in Cold War East Germany revealing Soviet and East German military secrets from 1946 to 1990 The German Democratic Republic or East Germany was the frontline in the Cold War packed with hundreds of thousands of Soviet and East German troops armed with the latest Warsaw Pact equipment lined up along the 1 400 km Inner German Border However because of the repressive East German police state little human intelligence about these forces reached the West Who were they Where were they located What were they doing How were they equipped What were their intentions NATO was lined up in West Germany to face these forces and relied on getting up to date intelligence to warn of any threat Indicators of Hostility that could be a precursor to an invasion BRIXMIS the British Commanders in Chief Mission to the Soviet Forces in Germany was on hand to provide that intelligence Thanks to an obscure 1946 agreement between the British and Soviets that established liaison missions in their respective zones of occupation the British were able to send highly qualified military observers into East Germany to roam relatively freely and keep an eye on what was going on What started as liaison a point of contact between the British and Soviet occupation forces developed into a very sophisticated intelligence collection operation sending tours out every day of the year between 1946 and when the Mission closed in 1990 These tours were undertaken in high performance highly modified marked vehicles with personnel in uniform and unarmed apart from professional photographic equipment and occasionally some top secret gadgets from the boffins back in the UK They joined their French and American colleagues in snooping around the opposition photographing military bases equipment and maneuvers and trying to evade capture by the secret police and counterintelligence units They faced danger and violence daily but thanks to their bravery and professionalism the West had accurate and up to date information on what was happening in East Germany which helped keep the peace all that time This is the story of this little known unit and their exploits behind enemy lines     The British National Bibliography Arthur James Wells, 2006     Churchill Cold War Warrior Anthony Tucker-Jones, 2024-09-30 In Churchill Cold War Warrior renowned military historian Anthony Tucker Jones reassesses Winston Churchill's neglected postwar career He explains how in an unguarded moment Winston inadvertently sowed the seeds for the Cold War by granting Stalin control of Eastern Europe Famously Churchill at Fulton then warned of the growing danger created by this partition of the continent Winston after the Second World War wanted to prove a point Shunned by the electorate in 1945 instead of retiring he was determined to be Prime Minister for a second time Biding his time he watched in dismay as Britain scuttled from India and Palestine and weathered the East West confrontation over Berlin He finally got his way in 1951 and took the reins of a country with drastically waning powers Churchill was confronted by a world in turmoil with an escalating Cold War that had gone hot in Korea and an unraveling British Empire Communism

and nationalism proved a heady cocktail that fanned the flames of widespread conflict He had to contain rebellions in Kenya and Malaya while clinging on in Egypt Desperately he also sought to avoid a Third World War and the use of nuclear weapons by reuniting the Big Three      Disrupt and Deny Rory Cormac,2018-05-09 British leaders use spies and Special Forces to interfere in the affairs of others discreetly and deniably Since 1945 MI6 has spread misinformation designed to divide and discredit targets from the Middle East to Eastern Europe and Northern Ireland It has instigated whispering campaigns and planted false evidence on officials working behind the Iron Curtain tried to foment revolution in Albania blown up ships to prevent the passage of refugees to Israel and secretly funnelled aid to insurgents in Afghanistan and dissidents in Poland MI6 has launched cultural and economic warfare against Iceland and Czechoslovakia It has tried to instigate coups in Congo Egypt Syria Saudi Arabia Iran and elsewhere Through bribery and blackmail Britain has rigged elections as colonies moved to independence Britain has fought secret wars in Yemen Indonesia and Oman and discreetly used Special Forces to eliminate enemies from colonial Malaya to Libya during the Arab Spring This is covert action a vital though controversial tool of statecraft and perhaps the most sensitive of all government activity If used wisely it can play an important role in pursuing national interests in a dangerous world If used poorly it can cause political scandal or worse In Disrupt and Deny Rory Cormac tells the remarkable true story of Britain's secret scheming against its enemies as well as its friends of intrigue and manoeuvring within the darkest corridors of Whitehall where officials fought to maintain control of this most sensitive and seductive work and above all of Britain's attempt to use smoke and mirrors to mask decline He reveals hitherto secret operations the slush funds that paid for them and the battles in Whitehall that shaped them      **With the SAS: Across the Rhine** Ian Wellsted,2020-08-19 In this WW2 memoir the author of SAS With the Maquis continues his thrilling account of life as a British Army commando behind enemy lines Colonel Ian Wellsted OBE served with the British Army's elite Special Air Service during World War II In this vivid personal account he vividly recounts his involvement in Operation Archway a mission supporting Field Marshal Montgomery's Allied 21st Army Group in operations Varsity and Plunder In this offensive the SAS teams were thrust deep into German territory often having to battle their way through enemy lines to get back to safety I quickly learned that there was no way to control an SAS battle Wellsted wrote of his first major encounter in charge of a patrol The din was deafening seventy odd Vickers and half a dozen Brownings all chattering together In one of these encounters as the war was drawing to a close Wellsted's troop found itself surrounded In the ensuing firefight Wellsted was wounded bringing his active front line career to an end      *Franklin D. Roosevelt and the Art of Leadership* William Nester,2024-06-30 Scholar William Nester explores Franklin D Roosevelt's character personality and presidential power After their independence and civil wars Americans never faced a greater threat than the sixteen years of global depression followed by global war from 1929 to 1945 Franklin Delano Roosevelt was the president for the last dozen of those years during which he led the nation first to alleviate the Great Depression then led an international alliance that vanquished the

fascist powers during the Second World War Along the way he established the modern presidency with centralized powers to make and implement domestic and foreign policies He was naturally a master politician who eventually through daunting trials and errors became an accomplished statesman For all that historians regularly rank Roosevelt among the top three presidents Yet most historians and countless others criticize Roosevelt for an array of things that he did or failed to do Conservatives lambast him for creating a welfare state and trying to pack federal courts with liberal judges while liberals condemn him for internment of 120 000 Japanese Americans during the war and doing little to advance civil rights for African Americans Critics blister war commander Roosevelt for caving into strategies demanded by powerful leaders that squandered countless lives and treasure in literal and figurative dead ends These include Prime Minister Churchill's push to invade the Italian peninsula and General MacArthur's determination to recapture the Philippines At times his policies violated his principles Like President Wilson during the Second World War Roosevelt championed self-determination but not for every nation He badgered Churchill to break up Britain's empire while bowing to Stalin's brutal communist conquest of eastern Europe And those are just the opening barrages against Roosevelt Although he won four presidential elections with overwhelming majorities nearly as many people reviled him as they adored him Franklin D Roosevelt and the Art of Leadership explores the dynamic among Roosevelt's character personality and presidential power with which he asserted policies that overcame first the Great Depression and then the Axis powers during the Second World War Along the way the book raises and answers key questions What were Roosevelt's leadership skills and how did he develop them over time Which New Deal policies succeeded which failed and what explains those results Which war strategies succeeded which failed and what explains those results What policies rooted in Roosevelt's instincts proved to be superior to alternatives grounded in thick official reports advocated by his advisors Finally how does Roosevelt rank as an American and global leader

**The Long Patrol** Roy Bainton, 2011-10-14 When the Allies occupied Germany at the end of the Second World War there were two million men present to witness the devastating end of the Third Reich Few of them could have imagined just how long this occupation was going to last right up to the fall of the Berlin Wall in 1989 and well into its aftermath Today some 17 000 British troops remain in Germany But over the past four and a half decades tens of thousands of British men and women have lived and worked in British Zone as members of the British Army of the Rhine BAOR some for relatively short periods many for much longer Long enough though for the experience to have a profound effect on their lives and on their attitudes THE LONG PATROL reveals what life has been like in the British Zone for those men and women and their families As the post-war worlds of Britain and Germany had little in common they had to find their own identity often suspended between the two And what did the Germans make of the British How did they react when whole streets sometimes whole districts were requisitioned and occupied What were the psychological effects of a foreign army taking over the barracks of what had been until so recently the homes of the warriors of the 1 000 Year Reich Eventually the British became more and more insulated

against the culture around them building their own camps their own cinemas In major centres like Berlin they lived a separate life whilst all around them Germany got on with the massive task of reconstruction In the background there lurked the ever present spectre of a possible Third World War Based largely on interviews and information culled from personal diaries and letters THE LONG PATROL is primarily an oral history of the British in Germany It also analyses and interprets experiences in an attempt to begin to make sense of an unusual and still significant part of British history in the twentieth century Funny tragic bizarre and poignant in equal parts THE LONG PATROL is an important contribution to the social history of post war Britain and Germany

The Challenge of Nation-Building Rebecca Patterson, 2014-09-17 In the last decades the United States Army has often been involved in missions other than conventional warfare These include low intensity conflicts counterinsurgency operations and nation building efforts Although non conventional warfare represents the majority of missions executed in the past sixty years the Army still primarily plans organizes and trains to fight conventional ground wars Consequently in the last ten years there has been considerable criticism regarding the military's inability to accomplish tasks other than conventional war Failed states and the threat they represent cannot be ignored or solved with conventional military might In order to adapt to this new reality the U S Army must innovate This text examines the conditions that have allowed or prevented the U S Army to innovate for nation building effectively By doing so it shows how military leadership and civil military relations have changed Nation building refers to a type of military occupation where the goal is regime change or survival a large number of ground troops are deployed and both military and civilian personnel are used in the political administration of an occupied country with the goals of establishing a productive economy and a stable government Such tasks have always been a challenge for the U S military which is not normally equipped or trained to undertake them Using military effectiveness as the measurement of innovative success the book analyzes several U S nation building cases including post World War II Germany South Korea from 1945 1950 the Vietnam War and Operation Iraqi Freedom By doing so it reveals the conditions that enabled military innovation in one unique case Germany while explaining what prevented it in the others This variation of effectiveness leads to examine prevailing military innovation theories threat based accounts quality of military organizations and civil military relations This text comes at a critical time as the U S military faces dwindling resources and tough choices about its force structure and mission orientation It will add to the growing debate about the role of civilians military reformers and institutional factors in military innovation and effectiveness

**Retreat from Moscow** David Stahel, 2019-11-19 An authoritative revisionist account of the German Winter Campaign of 1941 1942 with maps Hair raising a page turner Kirkus Reviews Germany's winter campaign of 1941 1942 is commonly seen as its first defeat In Retreat from Moscow a bold gripping account of one of the seminal moments of World War II David Stahel argues that instead it was its first strategic success in the East The Soviet counteroffensive was in fact a Pyrrhic victory Despite being pushed back from Moscow the Wehrmacht lost far fewer men frustrated its enemy's strategy and

emerged in the spring unbroken and poised to recapture the initiative Hitler's strategic plan called for holding important Russian industrial cities and the German army succeeded. The Soviets as of January 1942 aimed for nothing less than the destruction of Army Group Center yet not a single German unit was ever destroyed. Lacking the professionalism, training and experience of the Wehrmacht, the Red Army's offensive attempting to break German lines in countless head-on assaults led to far more tactical defeats than victories. Using accounts from journals, memoirs and wartime correspondence, Stahel takes us directly into the Wolf's Lair to reveal a German command at war with itself as generals on the ground fought to maintain order and save their troops in the face of Hitler's capricious, increasingly irrational directives. Excerpts from soldiers' diaries and letters home paint a rich portrait of life and death on the front where the men of the Ostheer battled frostbite nearly as deadly as Soviet artillery. With this latest installment of his pathbreaking series on the Eastern Front, David Stahel completes a military history of the highest order. An engaging, fine-grained account of an epic struggle, Mr. Stahel describes these days brilliantly, switching among various levels of command while reminding us of the experiences of the soldiers on the ground and the civilians caught up in the Nazi war of annihilation. *The Wall Street Journal*      Feminist Security Studies Annick T. R. Wibben, 2010-12-16. This book rethinks security theory from a feminist perspective; uniquely, it engages feminism, security and strategic studies to provide a distinct feminist approach to security studies. The volume explicitly works toward an opening up of security studies that would allow for feminist and other narratives to be recognized and taken seriously as security narratives. To make this possible, it presents a feminist reading of security studies that aims to invigorate the debate and radicalize critical security studies. Since feminism is a political project and security studies are at their base about particular visions of the political and their attendant institutions, this is of necessity a political intervention. The book works through and beyond security studies to explore possible spaces where an opening of security is necessary to make way for feminist insights to take place. While it develops and illustrates a feminist narrative approach to security, it is also intended as an intervention that challenges the politics of security and the meanings for security legitimized in existing practices. This book provides a comprehensive framework for the emerging field of feminist security studies and will be of great interest to students and scholars of feminist IR, critical security studies, gender studies and IR and security studies in general.

*Fighting and Writing* Luise White, 2021-02-08. In *Fighting and Writing*, Luise White brings the force of her historical insight to bear on the many war memoirs published by white soldiers who fought for Rhodesia during the 1964-1979 Zimbabwean liberation struggle. In the memoirs of white soldiers fighting to defend white minority rule in Africa long after other countries were independent, White finds a robust and contentious conversation about race difference and the war itself. These are writings by men who were ambivalent conscripts, generally aware of the futility of their fight, not brutal pawns flawlessly executing the orders and parroting the rhetoric of a racist regime. Moreover, most of these men insisted that the most important aspects of fighting a guerrilla war were tracking and hunting knowledge of the land and of the ways of African

society were learned from black playmates in idealized rural childhoods In these memoirs African guerrillas never lost their association with the wild even as white soldiers boasted of bringing Africans into the intimate spaces of regiment and regime

*Behind Enemy Lines in France and the Far East* Maxine Harcourt-Kelly, 2025-06-30 In October 1943 Frederick Bailey a wireless operator who had trained with the Royal Armoured Corps was selected for Special Operation Executive's wireless training centre at Fawley Court Henley on Thames It was the start of an incredible wartime career that saw Fred serve behind enemy lines in both the European and Far East theatres With his training complete and having adopted the fieldname R tif Sergeant Bailey became a member of one of the famous Jedburgh units Team Citr en The Jedburghs generally consisted of compact teams of three men usually an officer a radio operator and a soldier from the country the team was to be dropped into Together with Major John Smallwood and Captain Pierre Bloch a French Foreign Legionnaire Bailey as Team Citr en's radio operator was dropped in into the Lagarde area of the Vaucluse region in German occupied France by an American aircrew from Algiers during the night of 11 12 August 1944 Their mission was to support the local Resistance groups in the rear of the German units trying to hold back the Allied forces sweeping through France after D Day As Maxine Harcourt Kelly reveals the fear of Bailey's transmissions being intercepted by the Germans as well as the constant danger of their location being revealed by informers meant that Team Citr en was constantly on the move Despite this on one occasion the group knocked out an enemy tank with the help of an intrepid young Frenchman who ran up to it armed only with a grenade and dropped it through the driver's viewing hatch One morning Bailey learnt that a large German convoy was moving along the road from Grenoble to Lyon He sent a coded message to HQ in Algiers asking for an immediate air strike A series of Mosquito fighter bombers attacked and destroyed the whole convoy Fred also caused major disruption to German attempts to withdraw by calling in air support which destroyed a vital bridge Fred was Mentioned in Despatches and awarded the Croix de Guerre with Bronze Star by the French With his war in Europe over Fred volunteered to serve with SOE's Force 136 in the Far East He was duly sent out to Burma where he was dispatched into the Keren Hills to monitor the routes being used by the retreating Japanese Fred was able to send regular reports on enemy troop movements and direct Allied air strikes On one occasion they ambushed a Japanese convoy A fierce firefight developed but they slipped back into the jungle before the Japanese could counter attack These attacks were so disruptive that the Japanese were forced to form a special force to hunt Fred's team down As they could not be resupplied Fred's team grew weaker Before long with nothing to eat but a handful of rice each day the team was beginning to starve It was left with no option but to evacuate Even then Fred's adventures were far from over In August 1945 he was dropped into Malaya tasked with finding any American aircrew who had been shot down and taken prisoner south of Kuala Lumpur This is the action packed story of one man's remarkable war serving in Allied Special Forces units behind enemy lines in both Occupied Europe and the Far East **Winston Churchill and the Art of Leadership** William Nester, 2020-09-30 Many indeed are the biographies of Winston Churchill one of the most influential

figures of the twentieth century But what was that influence and how did he use it in the furtherance of his and his country's ambitions For the first time Professor William Nestor has delved into the life and actions of Churchill to examine just how skillfully he manipulated events to place him in positions of power His thirst for power stirred political controversy wherever he intruded Those who had to deal directly with him either loved or hated him His enemies condemned him for being an egoist publicity hound double dealer and Machiavellian accusations that his friends and even he himself could not deny He could only serve Britain as a statesman and a reformer because he was a wily politician who won sixteen of twenty one elections that he contested between 1899 and 1955 The House of Commons was Churchill's political temple where he exalted in the speeches and harangues on the floor and the backroom horse trading and camaraderie Most of his life he was a Cassandra warning against the threats of Communism Nazism and nuclear Armageddon With his ability to think beyond mental boxes and connect far flung dots he clearly foretold events to which virtually everyone else was oblivious Yet he was certainly not always right and was at times spectacularly wrong This is the first book that explores how Churchill understood and asserted the art of power mostly through hundreds of his own insights expressed through his speeches and writings

**Index de Périodiques Canadiens**, 1998      Gender and the Race for Space Erinn McComb, 2025-06-10 The American astronaut image was informed by early Cold War ideals of masculinity that helped mold a distinctly American anti communist masculinity which appeared on the surface anyway to resolve not only an American crisis of masculinity but helped win the Cold War on an ideological and popular level This American image focused on strict gender binaries of man as the protector controlling technology and containing communism while woman was the passive actor with spaceflight technology left behind in the home waiting for the return of the astronaut husband Allowing women to fly into space would have represented a lack of individual control with spaceflight technology      **Shadow** Neil Hunter Raiford, 2018-08-22 This is the poignant and exciting story of a statistical anomaly a B 24 bomber crew that completed 50 combat missions in World War II This crew was part of the famous 450th Bomb Group which was nicknamed the Cottontails because of their white rudders As part of the 15th Army Air Force they flew strategic bombing missions out of Manduria Italy in the heel of the boot and struck strategic targets which were out of the reach of the 8th Army Air Force bases in England The group lost 1 505 airmen in only a year and a half the equivalent of losing their effective flying strength three times over The book's title comes from the crew's bomber Shadow which in turn was named for the pilot's black cocker spaniel that flew with them on training missions Based on interviews with the surviving crewmembers and their families as well as extant archival source material the book details the childhood training and post war life of each of its 13 principal characters Chapter One is a discussion of each man's boyhood years and Chapter Two provides details of the training that each received In Chapter Three the original crew of ten Crew 4 N 33 was formed in Clovis New Mexico An assignment for training in Clovis and in B 24s meant that the crew had been designated for heavy bombardment Chapter Four includes a description of the four main objectives for the crew one of
