The Motley Fool Investment Guide for Teens David Gardner, Tom Gardner, Selena Maranjian, 2002-08-06 Publisher Description **Top Student, Top School?** Alexandria Walton Radford, 2013-05-06 Most of us think that valedictorians can write their own ticket By reaching the top of their class they have proven their merit so their next logical step should be to attend the nation's very best universities Yet in Top Student Top School Alexandria Walton Radford of American Institutes for Research reveals that many valedictorians do not enroll in prestigious institutions Employing an original five state study that surveyed nine hundred public high school valedictorians she sets out to determine when and why valedictorians end up at less selective schools showing that social class makes all the difference Radford traces valedictorians paths to college and presents damning evidence that high schools do not provide sufficient guidance on crucial factors affecting college selection such as reputation financial aid and even the application process itself Left in a bewildering environment of seemingly similar options many students depend on their parents for assistance and this allows social class to rear its head and have a profound impact on where students attend Simply put parents from less affluent backgrounds are far less informed about differences in colleges quality the college application process and financial aid options which significantly limits their child's chances of attending a competitive school even when their child has already managed to become valedictorian Top Student Top School pinpoints an overlooked yet critical juncture in the education process one that stands as a barrier to class mobility By focusing solely on valedictorians it shows that students paths diverge by social class even when they are similarly well prepared academically and this divergence is traceable to specific failures by society failures that we can and should address Watch an interview of Alexandria Walton Radford discussing her book here <http://www.youtube.com/watch?v=F81c1D1BpY0> No Longer Separate, Not Yet Equal Thomas J. Espenshade, Alexandria Walton Radford, Chang Young Chung, 2009 How do race and social class influence who gets into America's elite colleges This important book takes a comprehensive look at how all aspects of the

elite college experience from application and admission to enrollment and student life are affected by these factors To determine whether elite colleges are admitting and educating a diverse student body the authors investigate such areas as admission advantages for minorities academic achievement gaps tied to race and class unequal burdens in paying for tuition and satisfaction with college experiences Arguing that elite higher education affects both social mobility and inequality the authors call on educational institutions to improve access for students of lower socioeconomic status Annotation 2010 Book News Inc Portland OR booknews com
