## **The Coming Climax Of History:**

The Coming Climax of History Jim McKeever, 1983-04-01      **The DNA of History** Pete Schwalm, 2014-08-08 This book discusses the three themes of grace mercy and judgment within the context of four major time frames The first three epochs each culminating in unique judgments provide historical precedents to the fourth in which we live As we near what might be the end of the fourth and final epoch it is imperative that we learn from the first three By grasping the first three historical precedents as prelude to the fourth people can choose to become informed prepare personally and live as Kingdom of God people in relationship with their community of faith and their world Will our age heed the warnings or will it conclude with judgment as well      Millennial Dreams and Apocalyptic Nightmares Angela M. Lahr, 2007-10-31 The Religious Right came to prominence in the early 1980s but it was born during the early Cold War Evangelical leaders like Billy Graham driven by a fierce opposition to communism led evangelicals out of the political wilderness they inhabited since the Scopes trial and into a much more active engagement with the important issues of the day How did the conservative evangelical culture move into the political mainstream Angela Lahr seeks to answer this important question She shows how evangelicals who had felt marginalized by American culture drew upon their eschatological belief in the Second Coming of Christ and a subsequent glorious millennium to find common cause with more mainstream Americans who also feared a soon coming end albeit from nuclear war In the early postwar climate of nuclear fear and anticommunism the apocalyptic eschatology of premillennial dispensationalism embraced by many evangelicals meshed very well with the secular apocalyptic mood of a society equally terrified of the Bomb and of communism She argues that the development of the bomb the creation of the state of Israel and the Cuban Missile Crisis combined with evangelical end times theology to shape conservative evangelical political identity and to influence secular views Millennial beliefs influenced evangelical interpretation of these events repeatedly energized evangelical efforts and helped evangelicals view themselves and be viewed by others as a vital and legitimate segment of American culture even when it raised its voice in sharp criticism of aspects of that culture Conservative Protestants were able to take advantage of this situation to carve out a new space for their subculture within the national arena The greater legitimacy that evangelicals gained in the early Cold War provided the foundation of a power base in the national political culture that the religious right would draw on in the late seventies and early eighties The result she demonstrates was the alliance of religious and political conservatives that holds power today      The Next to Last Word Michael P. V. Barrett, 2015-07-27 Haggai Zechariah and Malachi the often ignored Minor Prophets delivered the next to last word to God's people That is these prophets pointed Israel to Christ the supreme and final Word and warned them against rejecting Him Underscoring the truth that studying this portion of Scripture is profitable 2 Tim 3:16 Michael Barrett helps us discern the relevance of these prophets for today He explains the prophetic office the historical setting of the postexilic books and their contributions to God's overall redemptive message before considering the specific messages of each of these books in depth

H. Hinsley,Francis Harry Hinsley,1967-10 In the last years of the nineteenth century peace proposals were first stimulated by fear of the danger of war rather than in consequence of its outbreak In this study of the nature and history of international relations Mr Hinsley presents his conclusions about the causes of war and the development of men s efforts to avoid it In the first part he examines international theories from the end of the middle ages to the establishment of the League of Nations in their historical setting This enables him to show how far modern peace proposals are merely copies or elaborations of earlier schemes He believes there has been a marked reluctance to test these theories not only against the formidable criticisms of men like Rousseau Kant and Bentham but also against what we have learned about the nature of international relations and the history of the practice of states This leads him to the second part of his study an analysis of the origins of the modern states system and of its evolution between the eighteenth century and the First World War The Fourth Turning Is Here Neil Howe,2023-07-18 The visionary behind the bestselling phenomenon The Fourth Turning looks once again to America s past to predict our future in this startling and hopeful prophecy for how our present era of civil unrest will resolve over the next ten years and what our lives will look like once it has Twenty five years ago Neil Howe and the late William Strauss dazzled the world with a provocative new theory of American history Looking back at the last 500 years they d uncovered a distinct pattern modern history moves in cycles each one lasting roughly eighty to one hundred years the length of a long human life with each cycle

composed of four eras or turnings that always arrive in the same order and each last about twenty years The last of these eras the fourth turning was always the most perilous a period of civic upheaval and national mobilization as traumatic and transformative as the New Deal and World War II the Civil War or the American Revolution Now right on schedule our own fourth turning has arrived And so Neil Howe has returned with an extraordinary new prediction What we see all around us the polarization the growing threat of civil conflict and global war will culminate by the early 2030s in a climax that poses great danger and yet also holds great promise perhaps even bringing on America's next golden age Every generation alive today will play a vital role in determining how this crisis is resolved for good or ill Illuminating sobering yet ultimately empowering *The Fourth Turning Is Here* takes you back into history and deep into the collective personality of each living generation to make sense of our current crisis explore how all of us will be differently affected by the political social and economic challenges we'll face in the decade to come and reveal how our country our communities and our families can best prepare to meet these challenges head on

**History on Film/Film on History** Robert A. Rosenstone, 2014-01-14 Since first publication in 2006 Robert A. Rosenstone's *History on Film/Film on History* has established itself as a classic treatise on the historical film and its role in bringing history to life In this updated version of his ground breaking and widely acclaimed text Robert Rosenstone argues that to leave history films out of the discussion of the meaning of the past is to ignore a major factor in our understanding of past events He champions the dramatic feature as a legitimate way of doing history even though it is largely fictional He examines what history films convey about the past and how they convey it demonstrating the need to learn how to read and understand this new visual world Integrating detailed analysis of individual history films such as *Glory* *Reds* *October* and *Schindler's List* this new edition includes A new introduction outlining the impact this work has had on the topic of history and film as well as general developments in the field New up to date Guide to Key Reading Detailed examinations of a variety of films American European Mexican and Soviet made in different political systems and climates A chapter focusing on Oliver Stone as a brilliant historian of the Vietnam era A chapter on recent Holocaust films showing how a group of works taken together can provide a wide ranging understanding of a single historical event With its useful guidance on how to effectively analyse films as historical interpretations this new edition will continue to hold its place as a text which not only shows the value of film on history but also demonstrates how history can work on film
