The Committee of One Million Stanley D. Bachrack, 1976 China John King Fairbank, Merle Goldman, 2006-04-30 John King Fairbank was the West's doyen on China and this book is the full and final expression of his lifelong engagement with this vast ancient civilization The distinguished historian Merle Goldman brings the book up to date and provides an epilogue discussing the changes in contemporary China that will shape the nation in the years to come *The Media and Sino-American Rapprochement, 1963-1972* Guolin Yi, 2020-11-11 Winner of the ACPSS Research Award An important new cultural study of the Cold War Guolin Yi's *The Media and Sino American Rapprochement 1963 1972* analyzes how the media in both countries shaped public perceptions of the changing relations between China and the United States in the decade prior to Richard Nixon's visit to Beijing This book offers the first systematic study of Cankao Xiaoxi Reference News an internal Chinese newspaper that carried relatively objective stories the Xinhua News Agency translated from world news media for circulation among Communist cadres As the main channel for the cadres to learn about the outside world this newspaper provides a window into China's evolving foreign policy including the reception of signals from the Nixon administration Yi compares this internal communications channel with the public accounts contained in the more widely circulated newspaper People's Daily a chief propaganda outlet of the Chinese Communist Party CCP directed at its own people and China watchers all over the world A third level of communication emerges in classified CCP instructions and government documents By approaching the Chinese communication system on three levels internal public and classified Yi's analysis demonstrates how people at different positions in the political hierarchy accessed varying types of information allowing him to chart the development of Beijing's approach to the U S government In a corresponding analysis of the defining features of American reporting on China Yi considers the impact of government media relationships in the United States during the Cold War Alongside prominent magazines and newspapers particularly the New York Times and the Washington Post in their differing coverage of key events Yi discusses television networks which proved vital for promoting the success of Ping Pong Diplomacy and the impact of Nixon's visit in 1972 With its comparative study of news outlets in the two countries *The Media and Sino American Rapprochement 1963 1972* presents a thorough and comprehensive perspective on the role of the media in influencing domestic Chinese and American public opinion during a critical decade *Taiwan's Transformation* John J. Metzler, 2017-01-04 This book presents a cogent but comprehensive review of Taiwan's socio-economic transformation from a Japanese colony to a thriving East Asian mini state Since the 1980's Taiwan has primarily been viewed as a thriving economic model Though certainly true this assessment belies the amazing social and political success story for 23 million people on a small New Hampshire sized island just off the China coast Metzler highlights the engaging political narrative of democratization as well as Taiwan's noteworthy accomplishments despite the proximity and opposition of communist China Further the result of the 2016 elections and its implication are analyzed Scholars studying

East Asia and policy makers will gain a greater appreciation for the island's dynamic prosperous resilience despite pressure from China

Two Faces of Exclusion Lon Kurashige, 2016-09-02 From the Chinese Exclusion Act of 1882 to the Immigration Act of 1924 to Japanese American internment during World War II the United States has a long history of anti Asian policies But Lon Kurashige demonstrates that despite widespread racism Asian exclusion was not the product of an ongoing national consensus it was a subject of fierce debate This book complicates the exclusion story by examining the organized and well funded opposition to discrimination that involved some of the most powerful public figures in American politics business religion and academia In recovering this opposition Kurashige explains the rise and fall of exclusionist policies through an unstable and protracted political rivalry that began in the 1850s with the coming of Asian immigrants extended to the age of exclusion from the 1880s until the 1960s and since then has shaped the memory of past discrimination In this first book length analysis of both sides of the debate Kurashige argues that exclusion era policies were more than just enactments of racism they were also catalysts for U S Asian cooperation and the basis for the twenty first century's tightly integrated Pacific world

Asia in Washington Kent E. Calder, 2014-04-23 For several centuries international relations has been primarily the purview of nation states Key powers have included at various times Great Britain France Japan China Russia then the U S S R and then Russia again and the nation most influential in international relations for the past several decades has been the United States But in a world growing smaller with a globalizing system increasing in complexity by the day the nation state paradigm is not as dominant as it once was In *Asia in Washington* longtime Asia analyst Kent Calder examines the concept of global city in the context of international affairs The term typically has been used in an economic context referring to centers of international finance and commerce such as New York Tokyo and London But Calder extends the concept to political centers as well particularly in this case Washington D C Improved communications enhanced transportation greater economic integration and activity have created a new economic village and global political cities are arising within the new structure distinguished not by their CEOs or stock markets but by their influence over policy decisions and their amassing of strategic intelligence on topics from national policy trends to geopolitical risk Calder describes the rise of Washington D C as perhaps the preeminent global political city seat of the world's most powerful government center of NGO and multilateral policy activity the locale of institutions such as the World Bank and IMF and home to numerous think tanks and universities Within Washington the role of Asia is especially relevant for several reasons It represents the core of the non Western industrialized world and the most challenge to Western dominance It also raises the delicate issue of how race matters in international global governance a factor crucially important during a time of globalization And since Asia developed later than the West its changing role in Washington raises major issues regarding how rising powers assimilate themselves into global governance structure How do Asian nations establish increase and leverage their Washington presence and what is the impact on Washington itself and the decisions made there Kent Calder explains it all in *Asia in*

Washington *World War II and the Cold War* Martin J. Medhurst, 2018-09-01 This volume examines crucial moments in the rhetoric of the Cold War beginning with an exploration of American neutrality and the debate over entering World War II Other topics include the long distance debate carried on over international radio between Hitler and Franklin D Roosevelt understanding and interpreting World War II propaganda domestic radio following the war and the use of Abraham Lincoln narratives as vehicles for American propaganda the influence of foreign policy agents Dean Acheson Paul Nitze and George Kennan and the rhetoric of former presidents John F Kennedy and Ronald Reagan Ultimately this volume offers a broad based look at the rhetoric framing the Cold War and in doing so offers insight into the political climate of today **Congress and China Policy** Robert G. Sutter, 2023-11-20 Congress and China Policy Past Episodic Recent Enduring Influence supports findings that bipartisan majorities in Congress have been instrumental in driving the fundamental shift in American policy toward China carried out during the past six years Filling major gaps in the inadequate treatment of Congress in assessments of US policy toward China this book compares recent Congressional influence with the episodes of Congressional activism in China policy over the past 200 years showing Congress recently has been more important than ever The findings also show that partisan politics Congressional executive competition for policy control swings in public and media opinion and influences by special interests longstanding drivers of past Congressional involvement in China policy have been of secondary or lesser importance as the Congressional members have grappled with the acute dangers posed by Chinese economic security and governance challenges Steady and determined efforts by this cohort of bipartisan Congressional majorities to defend America from Chinese challenges have proven more resolute than the erratic practices of President Trump and previously dismissive Joseph Biden who came late to a tougher policy This volume forecasts that US policy will remain heavily influenced by these members as they serve out their terms in the years ahead State and Development Clark, Lemco, 2021-11-01 A new phenomenon in the past several decades has been the steady growth of the role of the state in both political and economic life throughout the developing world This is largely the result of political leaders becoming increasingly involved in economic affairs and thereby using the state apparatus as an instrument to achieve politically defined economic objectives Strong developmentalist states hence have come to be seen as playing a central role in promoting economic growth and socio cultural change This collection of essays however raises a series of caveats about the idea that strong states promote development by exploring several case studies including Algeria Malaysia South Korea Venezuela and Taiwan **Nixon and Mao** Margaret MacMillan, 2008-03-11 Margaret MacMillan praised as a superb writer who can bring history to life The Philadelphia Inquirer brings her extraordinary gifts to one of the most important subjects today the relationship between the United States and China and one of the most significant moments in modern history In February 1972 Richard Nixon the first American president ever to visit China and Mao Tse tung the enigmatic Communist dictator met for an hour in Beijing Their meeting changed the course of history and ultimately laid the groundwork for the

complex relationship between China and the United States that we see today That monumental meeting in 1972 during what Nixon called the week that changed the world could have been brought about only by powerful leaders Nixon himself a great strategist and a flawed human being and Mao willful and ruthless They were assisted by two brilliant and complex statesmen Henry Kissinger and Chou En lai Surrounding them were fascinating people with unusual roles to play including the enormously disciplined and unhappy Pat Nixon and a small time Shanghai actress turned monstrous empress Jiang Qing And behind all of them lay the complex history of two countries two great and equally confident civilizations China ancient and contemptuous yet fearful of barbarians beyond the Middle Kingdom and the United States forward looking and confident seeing itself as the beacon for the world Nixon thought China could help him get out of Vietnam Mao needed American technology and expertise to repair the damage of the Cultural Revolution Both men wanted an ally against an aggressive Soviet Union Did they get what they wanted Did Mao betray his own revolutionary ideals How did the people of China react to this apparent change in attitude toward the imperialist Americans Did Nixon make a mistake in coming to China as a supplicant And what has been the impact of the visit on the United States ever since Weaving together fascinating anecdotes and insights an understanding of Chinese and American history and the momentous events of an extraordinary time this brilliantly written book looks at one of the transformative moments of the twentieth century and casts new light on a key relationship for the world of the twenty first century

Nixon in the World Fredrik Logevall, Andrew Preston, 2008-07-11

In the 1970s the United States faced challenges on a number of fronts By nearly every measure American power was no longer unrivalled The task of managing America's relative decline fell to President Richard Nixon Henry Kissinger and Gerald Ford From 1969 to 1977 Nixon Kissinger and Ford reoriented U S foreign policy from its traditional poles of liberal interventionism and conservative isolationism into a policy of active but conservative engagement In *Nixon in the World* seventeen leading historians of the Cold War and U S foreign policy show how they did it where they succeeded and where they took their new strategy too far Drawing on newly declassified materials they provide authoritative and compelling analyses of issues such as Vietnam d tente arms control and the U S China rapprochement creating the first comprehensive volume on American foreign policy in this pivotal era

Problems of Communism, 1979 *A Fragile Relationship* Harry Harding, 2000-07-26

President Nixon's historic trip to China in February 1972 marked the beginning of a new era in Sino American relations For the first time since 1949 the two countries established high level official contacts and transformed their relationship from confrontation to collaboration Over the subsequent twenty years however U S China relations have experienced repeated cycles of progress stalemate and crisis with the events in Tiananmen Square in June 1989 the most recent and disruptive example Paradoxically although relations between the two countries are vastly more extensive today than they were twenty years ago they remain highly fragile In this eagerly awaited book China expert Harry Harding offers the first comprehensive look at Sino American relations from 1972 to the present He traces the evolution of U S China

relations and assesses American policy toward Peking in the post Tiananmen era Harding analyzes the changing contexts for the Sino American relationship particularly the rapidly evolving international environment changes in American economic and political life and the dramatic domestic developments in both China and Taiwan He discusses the principal substantive issues in U S China relations including the way in which the two countries have addressed their differences over Taiwan and human rights and how they have approached the blend of common and competitive interests in their economic and strategic relationships He also addresses the shifting political base for Sino American relations within each country including the development of each society s perceptions of the other and the emergence and dissolution of rival political coalitions supporting and opposing the relationship Harding concludes that a return to the Sino American strategic alignment of the 1970s or even to the economic partnership of the 1980s is less likely in the 1990s than continued tension or even confrontation over such issues as The International Politics of Asia-Pacific, 1945-1995 Michael Yahuda,2005-08-19 This fully updated and revised edition of Michael Yahuda s extremely successful textbook introduces students to the international politics of the Asia Pacific region since 1945 Divided into three parts the first presents a chronological overview of developments since 1945 the new second part looks at the post cold war period while the third focuses on the policies of the US the USSR Russia China and Japan in the region Yahuda analyses politics in terms of global regional and local trends combining narrative with analysis This new edition features analysis of the economic crisis and the potential implications worldwide of East Asian economic recovery a chapter on the emergence of East Asia as a significant force in world affairs focusing on the role of lesser powers such as Indonesia and Malaysia chapters considering prospects post 2000 and competing frameworks for security in the wake of nuclear tension between India and Pakistan the strengths and weaknesses of US hegemony in the new world order **Historical Dictionary of Chinese Foreign Policy** Robert G. Sutter,2011-05-05 The foreign relations of the People s Republic of China have gone through dramatic change since 1949 The strong man rule of Mao Zedong and the Chinese Communist Party leader s dominance of Chinese foreign policy decision making for three decades witnessed dramatic swings in alignment repeated and strong commitments to revolutionary goals and ideals and spasms of destructive mass campaigns within China that spilled over to impact Chinese foreign relations Contrastingly as China emerged in the 21st century as an economic and military power second only to the United States the new generations of Chinese leaders followed collaborative and consultative patterns of foreign policy making at home and abroad seeking to sustain into the coming decades the generally favorable recent international circumstances seen as providing a prolonged period of strategic opportunity for China s economic and broader national development Historical Dictionary of Chinese Foreign Policy covers the more than 60 years of the foreign policy of the People s Republic of China It provides reliable and comprehensive information and assessments about the major actors developments and other aspects of the foreign policy and foreign relations of the People s Republic of China This is done through a chronology an introductory essay and over 500

The Practice of Power Rosemary Foot, 1995-09-21 This absorbing study examines the change in American relations with China after 1949 from hostility to rapprochement and to full normalization of the ties in 1979 Rosemary Foot goes on to examine the relationship after normalization a period when the United States has come to view China as less of a challenge but still resistant to certain of the norms of the current international order The book begins by examining US efforts to build and then maintain an international and domestic consensus behind its China policy It then looks at changing US perceptions of the capabilities of the Chinese state It shows how American positions on Chinese representation at the UN and on the trade embargo were subtly eroded not least by changes in US domestic public opinion The author argues that previous explanations of American relations with China have dwelt too single mindedly on ideas associated with the strategic triangle and that instead we need to embed our understanding of the evolution of American relations with China within a wider structure of relationships at the

global and domestic level Reviews A valuable interpretative analysis of US People s Republic of China relationships she substantially contributes to post Soviet era theoretical understanding Strongly recommended for courses in foreign policy diplomatic history and international relations Choice contains much that is valuable to those whose interests are primarily on the other side of the Pacific The chapter on American public opinion and Chinese policy is also something which is not readily found in existing accounts of China a post 1949 foreign relations Times Higher Education Supplement her analysis remains cautious and astute The Economist
