Stories of Encouragement and Faith in Life Challenging Times Pastor W.M. Harris, 2018-12-13 The stories in this book were written to encourage inspire and motivate the readers to be strong in their faith when life s challenging times arise in their lives It is without question that your faith will be tested but you must understand that God can speak through situations and circumstances that occur in daily living

Mirror Lake Andrée A. Michaud, 2021-03-02 From internationally acclaimed crime writer Andr e A Michaud a brilliant and original tragicomic thriller about one man s search for peace and sanctuary amid invasive neighbours and a mysterious death Retired fifty something Robert Moreau flees a society he can no longer bear for *Mirror Lake* Maine Little does he suspect that an intrusive neighbour and a mysterious death will quickly dispel any illusions he may have had about finding sanctuary in isolation The misanthropic Moreau quickly learns that his Thoreau like vision is a fiction And as in all fiction nothing not even Moreau s own identity is certain except perhaps the friendship of his loyal dog Jeff In this tragicomic novel of the confusion between the fabular and the real brilliantly rooted in the forested Quebec Maine landscape Moreau is compelled to look deep in *Mirror Lake* s shimmering waters and into the eyes of the man he is was and could be Winner of the Prix Ringuet and adapted into a feature film *Mirror Lake* is a masterpiece of Michaud s canon a playfully genre mixing psycho thriller that explores our mysterious existence and the bottomless self

On the True Nature of the Soul: Essays for the Seriously

Curious Robert Colacurcio, 2017-02-16 This book is a compilation of essays written mostly to family members and friends in response to their questions and comments to my other books These essays were written in over a period of two years and can be read singly although I have grouped them to try to achieve a cumulative effect Many people seem satisfied with the childhood information about the soul that they carry into adulthood Some people just find the subject beyond them even though the soul is their most intimate companion Everyone agrees that proper feeding requires accurate information about the animal or person being fed and yet the spiritual nurture of the soul is not examined with the same critical eye Much that I have to say therefore has to do with the proper feeding of the soul based on a critical examination of the true nature of the soul As in all my books I am indebted to the methods of examination from the Buddhas spiritual technology toolkit Don't Shoot the Horse H. Randy Hayes, 2007-08 Randy Hayes has served in many different capacities of ministry He has pastured been a youth leader and children s minister He served as Chaplain for a rescue mission and therefore has worked with people in many different stages of life and numerous situations Randy has worked with addicts and children the homeless and the prosperous and has collected loads of testimonies where God has touched the lives of hurting people He has witness many trials and even more victories and shares them with humor and somber conclusions Don t Shoot the Horse is simply a book of encouragement offering hope to the reader The chapters are short and to the point making it easy reading Some of the chapters as one reader described will make you laugh out loud other chapters will make you say Oh man The chapters Thanks a Lot Living a life of gratitude The God of Broken Pieces and Regaining Your Footing were written after the author s world fell apart and God starting putting it back together His unique way of looking at things will help to inspire you to notice the many gifts the Savior bestows on us each day and encourages you to stand still and see the salvation of the Lord

Developing Civil Society Dr Senyo Adjibolosoo, 2006-07-28 Following on from his earlier volume Globalization and the Human Factor Senyo Adjibolosoo focuses attention on the prospects for establishing civil society through the development of a positive human factor As civil society can neither be brought into existence by factors such as stringent legislation economic development political manoeuvring and violent civil disobedience nor by chance these orthodox procedures have proved to be nothing more than unproductive quick fix solutions This study examines how previous social engineering programmes failed because of the preoccupation with the symptoms of severe human factor decay HFD The necessary conditions for a successful evolution of a principle centred civil society is the availability of a positive human factor without which no group of people can achieve and sustain civil liberties human rights or the rule of law Provocative and challenging this book illustrates how positive human factor is essential to not only developing but also industrialized countries **The Oxford Handbook of Law, Regulation and Technology** Roger Brownsword, Eloise Scotford, Karen Yeung, 2017 The variety pace and power of technological innovations that have emerged in the 21st Century have been breathtaking These technological developments which include advances in networked information and communications biotechnology

neurotechnology nanotechnology robotics and environmental engineering technology have raised a number of vital and complex questions Although these technologies have the potential to generate positive transformation and help address grand societal challenges the novelty associated with technological innovation has also been accompanied by anxieties about their risks and destabilizing effects Is there a potential harm to human health or the environment What are the ethical implications Do these innovations erode or antagonize values such as human dignity privacy democracy or other norms underpinning existing bodies of law and regulation These technological developments have therefore spawned a nascent but growing body of law and technology scholarship broadly concerned with exploring the legal social and ethical dimensions of technological innovation This handbook collates the many and varied strands of this scholarship focusing broadly across a range of new and emerging technology and a vast array of social and policy sectors through which leading scholars in the field interrogate the interfaces between law emerging technology and regulation Structured in five parts the handbook I establishes the collection of essays within existing scholarship concerned with law and technology as well as regulatory governance II explores the relationship between technology development by focusing on core concepts and values which technological developments implicate III studies the challenges for law in responding to the emergence of new technologies examining how legal norms doctrine and institutions have been shaped challenged and destabilized by technology and even how technologies have been shaped by legal regimes IV provides a critical exploration of the implications of technological innovation examining the ways in which technological innovation has generated challenges for regulators in the governance of technological development and the implications of employing new technologies as an instrument of regulatory governance V explores various interfaces between law regulatory governance and new technologies across a range of key social domains
