The Hungry Stream Essays On Emigration And Famine:

The Hungry Stream E. Margaret Crawford, 1997 Trauma and the Memory of Politics Jenny Edkins, 2003-07-31 In this interesting study Jenny Edkins explores how we remember traumatic events such as wars famines genocides and terrorism and questions the assumed role of commemorations as simply reinforcing state and nationhood Taking examples from the World Wars Vietnam the Holocaust Kosovo and September 11th Edkins offers a thorough discussion of practices of memory such as memorials museums remembrance ceremonies the diagnosis of post traumatic stress and the act of bearing witness She examines the implications of these commemorations in terms of language political power sovereignty and nationalism She argues that some forms of remembering do not ignore the horror of what happened but rather use memory to promote change and to challenge the political systems that produced the violence of wars and genocides in the first place This wide ranging study embraces literature history politics and international relations and makes a significant contribution to the study of memory

Literature and the Irish Famine 1845-1919 Melissa Fegan, 2002-08-08 The impact of the Irish famine of 1845 1852 was unparalleled in both political and psychological terms The effects of famine related mortality and emigration were devastating in the field of literature no less than in other areas In this incisive new study Melissa Fegan explores the famine s legacy to literature tracing it in the work of contemporary writers and their successors down to 1919 Dr Fegan examines both fiction and non fiction including journalism travel narratives and the Irish novels of Anthony Trollope She argues that an examination of famine literature that simply categorizes it as minor or views it only as a silence or an absence misses the very real contribution that it makes to our understanding of the period This is an important contribution to the study of Irish history and literature sharply illuminating contemporary Irish mentalities

The Great Famine Ciarán Ó Murchadha, 2011-06-02 Over one million people died in the Great Famine and more than one million more emigrated on the coffin ships to America and beyond Drawing on contemporary eyewitness accounts and diaries the book charts the arrival of the potato blight in 1845 and the total destruction of the harvests in 1846 which brought a sense of numbing shock to the populace Far from meeting the relief needs of the poor the Liberal public works programme was a first example of how relief policies would themselves lead to mortality Workhouses were swamped with thousands who had subsisted on public works and soup kitchens earlier and who now gathered in ragged crowds Unable to cope workhouse staff were forced to witness hundreds die where they lay outside the walls The next phase of degradation was the clearances or exterminations in popular parlance which took place on a colossal scale From late 1847 an exodus had begun The Famine slowly came to an end from late 1849 but the longer term consequences were to reverberate through future decades

Ireland's Great Famine in Irish-American History Mary Kelly, 2013-11-18 Ireland s Great Famine in Irish American History Enshrining a Fateful Memory offers a new concise interpretation of the history of the Irish in America Author and distinguished professor Mary Kelly s book is the first synthesized volume to track Ireland s Great Famine within America s

The Removal of Irish Paupers from Britain Lewis Darwen, Donald MacRaild, 2024-11-29 During the nineteenth century local officials sought to deal with their Irish pauper problem by removing these poor migrants back to Ireland under the laws of settlement and removal Over the course of the century hundreds of thousands of Irish paupers were forcibly repatriated in this way Even though the settlement rights of Irish immigrants gradually improved over time removals were still taking place into the twentieth century The system was widely recognised as being cruel and unfair especially in Ireland where the removal of Irish paupers from Britain garnered considerable political and press attention Much was made of the illegality of some removals and of harsh removals involving widowed women children and the elderly This book which is the first sustained study of repatriation from Britain demonstrates a persistent theme the marginal nature of Irish life on the larger island Drawing on extensive research from newspaper sources and parliamentary papers it presents an original and richly detailed perspective on Irish immigration poverty and pauperism in nineteenth century Britain

MacRaild, 2018 This is the first full length study of Irish Ribbonism tracing the development of the movement from its origins in the Defender movement of the 1790s to the latter part of the century when the remnants of the Ribbon tradition found solace in a new movement the quasi constitutional affinities of the Ancient Order of Hibernians Placing Ribbonism firmly within Ireland's long tradition of collective action and protest this book shows that owing to its diversity and adaptability it shared similarities but also stood apart from the many rural redresser groups of the period and showed remarkable longevity not matched by its contemporaries The book describes

the wider context of Catholic struggles for improved standing explores traditions and networks for association and it describes external impressions Drawing on rich archives in the form of state surveillance records show trial proceedings and press reportage the book shows that Ribbonism was a sophisticated and durable underground network drawing together various strands of the rural and urban Catholic populace in Ireland and Britain Ribbon Societies in Nineteenth Century Ireland and its Diaspora is a fascinating study that demonstrates Ribbonism operated more widely than previous studies have revealed
