The Ibo Of Biafra:

The International Politics of the Nigerian Civil War, 1967-1970 John J. Stremlau, 2015-03-08 Biafra's declaration of independence on May 30 1967 precipitated a civil war with important implications for the territorial integrity of all newly independent African states Allegations of genocide commanded the world's attention and brought forth unprecedented humanitarian intervention This full account of the internationalization of that conflict draws on hitherto confidential records and more than two hundred interviews with foreign policymakers including Yakubu Gowon and C Odumegwu Ojukwu Originally published in 1977 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

Empire of Humanity Michael Barnett, 2011-03-03 *Empire of Humanity* explores humanitarianism's remarkable growth from its humble origins in the early nineteenth century to its current prominence in global life In contrast to most contemporary accounts of humanitarianism that concentrate on the last two decades Michael Barnett ties the past to the present connecting the antislavery and missionary movements of the nineteenth century to today's peacebuilding missions the Cold War interventions in places like Biafra and Cambodia to post Cold War humanitarian operations in regions such as the Great Lakes of Africa and the Balkans and the creation of the International Committee of the Red Cross in 1863 to the emergence of the major international humanitarian organizations of the twentieth century Based on extensive archival work close encounters with many of today's leading international agencies and interviews with dozens of aid workers in the field and at headquarters *Empire of Humanity* provides a history that is both global and intimate Avoiding both romanticism and cynicism *Empire of Humanity* explores humanitarianism's enduring themes trends and most strikingly ethical ambiguities Humanitarianism hopes to change the world but the world has left its mark on humanitarianism Humanitarianism has undergone three distinct global ages imperial postcolonial and liberal each of which has shaped what humanitarianism can do and what it is The world has produced not one humanitarianism but instead varieties of humanitarianism Furthermore Barnett observes that the world of humanitarianism is divided between an emergency camp that wants to save lives and nothing else and an alchemist camp that wants to remove the causes of suffering These camps offer different visions of what are the purpose and principles of humanitarianism and accordingly respond differently to the same global challenges and humanitarian emergencies Humanitarianism has developed a metropolis of global institutions of care amounting to a global governance of humanity This humanitarian governance Barnett observes is an empire of humanity it exercises power over the very individuals it hopes to emancipate Although many use humanitarianism as a symbol of moral progress Barnett provocatively argues that humanitarianism has undergone its most

impressive gains after moments of radical inhumanity when the international community believes that it must atone for its sins and reduce the breach between what we do and who we think we are Humanitarianism is not only about the needs of its beneficiaries it also is about the needs of the compassionate

Biafra's War 1967-1970 Al J. Venter, 2016-02-19 Almost half a century has passed since the Nigerian Civil War ended But memories die hard because a million or more people perished in that internecine struggle the majority women and children who were starved to death Biafra's war was modern Africa's first extended conflict It lasted almost three years and was based largely on ethnic by inference tribal grounds It involved on the one side a largely Christian or animist southeastern quadrant of Nigeria which called itself Biafra pitted militarily against the country's more populous and preponderant Islamic north These divisions almost always brutal persist Not a week goes by without reports coming in of Christian communities or individuals persecuted by Islamic zealots It was also a conflict that saw significant Cold War involvement the Soviets and Britain siding and supplying Federal Nigeria with weapons aircraft and expertise and several Western states Portugal South Africa and France especially providing clandestine help to the rebel state For that reason alone this book is an important contribution towards understanding Nigeria's ethnic divisions which are no better today than they were then Biafra was the first of a series of religious wars that threaten to engulf much of Africa Similar conflicts have recently taken place in the Ivory Coast Kenya Southern Sudan the Central African Republic Senegal Cassamance both Congo Republics and elsewhere As the war progressed Biafra also attracted mercenary involvement many of whom arriving from the Congo which had already seen much turmoil Western pilots were hired by Lagos and they flew the first Soviet MiG 17 jet fighters to have played an active role in a Western war Al Venter spent time covering this struggle He left the rebel enclave in December 1969 only weeks before it ended and claims the distinction of being the only foreign correspondent to have been rocketed by both sides first by Biafra's tiny Swedish built Minicon fighter planes while he was on a ship lying at anchor in Warri harbour and thereafter by MiG jets flown by mercenaries Among his colleagues inside the beleaguered territory were the celebrated Italian photographer Romano Cagnoni as well as Frederick Forsyth who originally reported for the BBC and then resigned because of the partisan pro Nigerian stance taken by Whitehall He briefly shared quarters with French photographer Giles Caron who was later killed in Cambodia Prior to that Venter had been working for John Holt in Lagos It is interesting that his office at the time was at Ikeja International Airport Murtala Muhammed today where the second Nigerian army mutiny was plotted and from where it was launched From this perspective he had a proverbial ringside seat of the tribal divisions that followed as hostilities escalated Venter took numerous photos while on

this West African assignment both in Nigeria while he was based there and later in Biafra itself Others come from various sources including some from the same mercenary pilots who originally targeted him from the air

The African Inheritance Ieuan Ll. Griffiths, 2005-09-30 Africa is a continent gripped by civil wars and widespread famine The causes of many of the continent's problems are deep rooted and can be traced to Africa's colonial past when European powers divided the spoils of the continent into separate sovereign states The African Inheritance examines the effect this balkanization of Africa has had and is having on the political and economic well being of the continent From a brief history of pre colonial Africa and its subsequent European partition and inevitable decolonization the book discusses the consequences of such an inheritance small and weak states destructive secessionist movements irredentism and African imperialism Attempts to tackle these problems and assert independent development are inhibited by the colonial inheritance
