Passionate Holiness Dennis O'Neill, 2018-09-20 Archbishop Desmond Tutu of Cape Town once said with regard to South Africa s apartheid policy One of the ways of helping to destroy a people is to tell them that they don t have a history that they have no roots More recently he described homophobic discrimination as totally unacceptable and unjust as apartheid ever was Unfortunately it has been particularly difficult for some gay lesbian bisexual and transgender Christians to remain connected

to identify with their own faith traditions because some of these traditions not only treat them as people of secondary status but also teach Christian history as though no people of same gender attraction or opposite gender identity had any noteworthy place in it and made no significant contributions at all to Christian tradition. Passionate Holiness tries to remedy this situation by explaining why acquaintance with the stories of certain saints with whom gender minorities can identify can help them to connect with their own history and spiritual legacy and empower them to face a brighter future with a sense of optimism and inclusion.

Christ the Miracle Worker in Early Christian Art Lee M. Jefferson, 2014. Images and artistic representations were of significant value to the early Christian communities. In *Christ the Miracle Worker in Early Christian Art*, Lee M. Jefferson argues in fact that images provided visual representations of vital religious and theological truths crucial to the faithful by which art possessed the power to project concepts and claims beyond the limitations of the written and spoken word. Images of Christ performing miracles or healings as demonstrated in this volume functioned as advertisements for Christianity and illustrated explications of the nature of Christ. These images of Christ as worker of miracles and healing form the nucleus of an extensive examination of this power of art, its role in fostering devotion and the deep connection between art and its underwriting and elucidation of pivotal theological claims and developments.
