Bevens, 2002 Stephen B Bevens s Models of Contextual Theology has become a staple in courses on theological method and as a handbook used by missionaries and other Christians concerned with the Christian tradition s understanding of itself in relation to culture First published in 1992 and now in its seventh printing in English with translations underway into Spanish

Korean and Indonesian Bevans's book is a judicious examination of what the terms contextual theology and to contextualize mean. In the revised and expanded edition, Bevans adds a counter-cultural model to the five presented in the first edition: the translation, the anthropological, the praxis, the synthetic, and the transcendental model. This means that readers will be introduced to the way in which figures such as Stanley Hauerwas, John Milbank, Lesslie Newbigin, and occasionally Pope John Paul II need to be taken into account. The author's revisions also incorporate suggestions made by reviewers to enhance the clarity of the original three chapters on the nature of contextual theology and the five models.

*The Black Coptic Church* Leonard Cornell McKinnis II, 2023-07-25 Provides an illuminating look at the diverse world of Black religious life in North America, focusing particularly outside of mainstream Christian churches. From the Moorish Science Temple to the Peace Mission Movement of Father Divine to the Commandment Keepers sect of Black Judaism, myriad Black new religious movements developed during the time of the Great Migration. Many of these stood outside of Christianity, but some remained at least partially within the Christian fold. The Black Coptic Church is one of these. Black Coptics combined elements of Black Protestant and Black Hebrew traditions with Ethiopianism as a way of constructing a divine racial identity that embraced the idea of a royal Egyptian heritage for its African American followers, a heroic identity that was in stark contrast to the racial identity imposed on African Americans by the white dominant culture. This embrace of a royal Blackness, what McKinnis calls an act of fugitive spirituality, illuminates how the Black Coptic tradition in Chicago and beyond uniquely employs a religious performative imagination. McKinnis asks: What does it mean to imagine Blackness? Drawing on ten years of archival research and interviews with current members of the church, *The Black Coptic Church* offers a look at a group that insisted on its own understanding of its divine Blackness. In the process, it provides a more complex look at the diverse world of Black religious life in North America, particularly within non-mainstream Christian churches.

*Philosophy of Religion and the African American Experience* John H. McClendon III, 2017-07-03 Most white philosophers of religion generally presume that philosophy of religion is based on what is a false universality whereby the white Western experience is paradigmatic of

humanity at large The fact remains that Howard Thurman James H Cone and William R Jones among others have produced a substantial amount of theological work quite worthy of consideration by philosophers of religion Yet this corpus of thought is not reflected in the scholarly literature that constitutes the main body of philosophy of religion Neglect and ignorance of African American Studies is widespread in the academy By including chapters on Thurman Cone and Jones the present book functions as a corrective to this scholarly lacuna
