Above Them All: The Story of the Landmark Hotel & Casino Marc Wagner, 2018-11-20 The Landmark Hotel Casino was considered by many to be an eyesore and a failure before it was even completed Developer Frank Carroll s dream struggled to become reality through seven years of stop and go construction Money problems and legal disputes plagued the Landmark throughout its construction as well as its entire operational life A string of owners including the eccentric Howard Hughes struggled to make the Las Vegas property a success but fate refused to roll the dice in their favor Filled with rare photos interviews with employees and backed by over a decade of research From its development and construction through its operational life to its twilight years of abandonment and eventual destruction to make room for a parking lot this is the story of the tower above them all in Las Vegas

Rubble Jeff Byles, 2007-12-18 From the straight boulevards that smashed their way through rambling old Paris to create the city we know today to the televised implosion of Las Vegas casinos to make room for America s ever grander desert of dreams demolition has long played an ambiguous role in our lives In lively colorful prose Rubble rides the wrecking ball through key episodes in the world of demolition Stretching over more than five hundred years of razing and toppling this story looks back to London s Great Fire of 1666 where self deputized wreckers artfully blew houses apart with barrels of gunpowder to halt the furious blaze and spotlights the advent of dynamite courtesy of demolition s patron saint Alfred Nobel that would later fuel epochal feats of unbuilding such as the implosion of the infamous Pruitt Igoe housing complex in St Louis Rubble also delves beyond these bravura blasts to survey the world jarring invention of the wrecking ball the oddly stirring ruin of New York s old Pennsylvania Station that potent symbol of the wrecker run amok and the ever busy bulldozers in places as diverse as Detroit Berlin and the British countryside Rich with stories of demolition s quirky impresarios including Mark Loizeaux the world famous engineer of

destruction who brought Seattle's Kingdome to the ground in mere seconds this account makes first hand forays to implosion sites and digs extensively into wrecking's little known historical record Rubble is also an exploration of what happens when buildings fall when monuments topple into memory and when destructive creativity tears down to build again It unearths the world of demolition for the first time and along the way throws a penetrating light on the role that destruction must play in our lives as a necessary prelude to renewal Told with arresting detail and energy this tale goes to the heart of the scientific social economic and personal meaning of how we unbuild our world Rubble is the first ever biography of the wrecking trade a riveting character filled narrative of how the black art of demolition grew to become a multibillion dollar business an extreme spectator sport and a touchstone for what we value what we disdain who we were and what we wish to become

The Strip Stefan Al, 2017-03-03 The transformations of the Strip from the fake Wild West to neon signs twenty stories high to starchitecture and how they mirror America itself The Las Vegas Strip has impersonated the Wild West with saloon doors and wagon wheels it has decked itself out in midcentury modern sleekness It has illuminated itself with twenty story high neon signs then junked them After that came Disney like theme parks featuring castles and pirates followed by replicas of Venetian canals New York skyscrapers and the Eiffel Tower It might be noted that forty two million people visited Las Vegas in 2015 ten million more than visited the real Paris More recently the Strip decided to get classy with casinos designed by famous architects and zillion dollar collections of art Las Vegas became the implosion capital of the world as developers driven by competition got rid of the old to make way for the new offering a non metaphorical definition of creative destruction In The Strip Stefan Al examines the many transformations of the Las Vegas Strip arguing that they mirror transformations in America itself The Strip is not as popularly supposed a display of architectural freaks but representative of architectural trends and a record of social cultural and economic change Al tells two parallel stories He describes the feverish competition of Las Vegas developers to build the snazziest most tourist grabbing casinos and resorts with a cast of characters including the mobster Bugsy Siegel the eccentric billionaire Howard Hughes and the would be political kingmaker Sheldon Adelson And he views the Strip in a larger social context showing that it has not only reflected trends but also magnified them and sometimes even initiated them Generously illustrated with stunning color images throughout The Strip traces the many metamorphoses of a city that offers a vivid projection of the American dream **Encyclopedia of**

Explorations in the Sociology of Consumption George Ritzer, 2001-04-11 In this book one of the leading social theorists and cultural commentators of modern times turns his gaze on consumption George Ritzer author of the famous McDonaldization Thesis demonstrates the irrational consequences of the rational desire to consume and commodify He examines how McDonaldization might be resisted and situates the reader in the new cultural spaces that are emerging in society shopping malls casino hotels Disneyfied theme parks and Las Vegas the new cathedrals of consumption as he calls them The book shows how new processes of consumption relate to globalization theory In illuminating discussions of the work of Thorstein Veblen and the French situationists Ritzer unearths the roots of problems of consumption in older sociological traditions He indicates how transgression is bound up with consumption through an investigation of the obscene in popular and postmodern culture

Industrial Archaeology Eleanor Casella, James Symonds, 2007-01-04 Eleanor Conlin Casella and James Symonds The essays in this book are adapted from papers presented at the 24 Annual Conference of the Theoretical Archaeology Group held at the University of Manchester in December 2002 The conference session An Industrial Revolution Future Directions for Industrial Archaeology was jointly devised by the editors and sponsored by English Heritage with the intention of gathering together leading industrial and historical archaeologists from around the world Speakers were asked to consider aspects of contemporary theory and practice as well as possible future directions for the study of industrialisation and industrial societies It perhaps fitting that this meeting was convened in Manchester which has a rich industrial heritage and has recently been proclaimed as the archetype city of the industrial revolution McNeil and George 2002 However just as Manchester is being transformed by regeneration shaking off many of the negative connotations associated with factory based industrial production and remaking itself as a 21 century city then so too is the archaeological study of industrialisation being transformed In the most recent overview of industrial archaeology in the UK Sir Neil Cossons cautioned that industrial archaeology risked becoming a one generation subject that stood on the edge of oblivion alongside the mid 20 century pursuit of folklife studies Cossons 2000 13 It is to be hoped that the papers in this volume demonstrate that this will not be the case

Architectural Agents Annabel Jane Wharton, 2015-02-15 Buildings are not benign rather they commonly manipulate and abuse their human users Architectural Agents makes the case that

buildings act in the world independently of their makers patrons owners or occupants And often they act badly Treating buildings as bodies Annabel Jane Wharton writes biographies of symptomatic structures in order to diagnose their pathologies The violence of some sites is rooted in historical trauma the unhealthy spatial behaviors of other spaces stem from political and economic ruthlessness The places examined range from the Cloisters Museum in New York City and the Palestine Archaeological Museum renamed the Rockefeller Museum in Jerusalem to the grand Hostal de los Reyes Catolicos in Santiago de Compostela Spain and Las Vegas casino resorts Recognizing that a study of pathological spaces would not be complete without an investigation of digital structures Wharton integrates into her argument an original consideration of the powerful architectures of video games and immersive worlds Her work mounts a persuasive critique of popular phenomenological treatments of architecture Architectural Agents advances an alternative theorization of buildings agency one rooted in buildings essential materiality and historical formation as the basis for her significant intervention in current debates over the boundaries separating humans animals and machines

Morta Las Vegas Nathaniel Lewis, Stephen Tatum, 2017-11 Through all its transformations and reinventions over the past century Sin City has consistently been regarded by artists and cultural critics as expressing in purest form for better or worse an aesthetic and social order spawned by neon signs and institutionalized indulgence In other words Las Vegas provides a codex with which to confront the problems of the West and to track the people materials ideas and virtual images that constitute postregional space Morta Las Vegas considers Las Vegas and the problem of regional identity in the American West through a case study of a single episode of the television crime drama CSI Crime Scene Investigation Delving deep into the interwoven events of the episode titled 4 4 but resisting a linear logical case study approach the authors draw connections between the city a layered and complex world and the violent uncanny mysteries of a crime scene Morta Las Vegas reveals nuanced issues characterizing the emergence of a postregional West moving back and forth between a geographical and a procedural site and into a place both in between and beyond Western identity
