Initially concentrating on the material factors that shaped empire and environmental change *Environment and Empire* discusses the way in which British consumers and manufacturers sucked in resources that were gathered hunted fished mined and farmed Yet it is also clear that British settler and colonial states sought to regulate the use of natural resources as well as commodify them Conservation aimed to preserve resources by exclusion as in wildlife parks and forests and to guarantee efficient use of soil and water Exploring these linked themes of exploitation and conservation this study concludes with a focus on political reassertions by colonised peoples over natural resources In a post imperial age they have found a new voice reformulating ideas about nature landscape and heritage and challenging at a local and global level views of who has the right to regulate nature      Sociology and Social Anthropology in India Yogesh Atal,2009 The Indian Council of Social Science Research the premier organization for social science research in India conducts periodic surveys in the major disciplines of the social sciences to assess disciplinary developments as well as to identify gaps in research in these disciplines      The Straight Path of the Spirit Richard Katz,1999-04-01 The inspiring story of one man s exploration of indigenous healing in a culture fighting to preserve its spiritual health A firsthand account of a little known healing tradition A dramatic story of self transformation by a well respected Harvard educated anthropologist In the late 1970s Richard Katz a clinical psychologist trained in anthropology spent two years living in a remote island community in Fiji hoping to record the practices of its healers At the foundation of their healing he discovered was the concept of the straight path a journey through life whose truth is revealed only to the extent that it is searched for with honesty and faith It is a way of healing that in its very essence is a way of living a path that emphasizes the spiritual dimensions of health and the relevance of these to the community But while interviewing healers at work Katz was drawn into an increasingly suspenseful drama Unexplained deaths rumors and suspicions and the intrusion of a zealous evangelist rocked the village and soon revealed to the author the dangerous alternative to the straight path the misuse of power that some call witchcraft *The Straight Path of the Spirit* is an engrossing story of indigenous healers and a dramatic account of cultures in collision Through the story of his own self transformation Katz reveals not only those aspects of life essential for the Fijians as they struggle to hold onto their identity but also what is of importance to all of us who seek to retain our humanity      The Culture of Denial C. A. Bowers,1997-01-01 Argues that environmentalists must expand their political involvement to include the reform of public schools and universities and that education must be revamped to support ecologically sustainable paths for society      **The Postcolonial Aura** Arif Dirlik,2018-02-20 The essays in this volume range from questions of cultural self representation in China to more general problems of reconceptualizing global relationships in response to contemporary changes Although the new era of global capitalism calls for the remapping of global relations such remapping must be informed both by a grasp of contemporary structures of economic political and cultural power and by memories of earlier radical visions of society Without these two conditions Arif Dirlik argues the current preoccupation with Eurocentrism ethnic diversity and

multiculturalism distract from issues of power that dominate global relations and that find expression in murderous ethnic conflicts Dirlik offers multi historicalism which presupposes a historically grounded conception of cultural difference seeks in different histories alternative visions of human society and stresses divergent historical trajectories against a future colonized presently by an ideology of capital Arguing that the operations of capital have brought the question of the local to the fore he points to indigenism as a source of paradigms of social relations and relationships to nature to challenge the voracious developmentalism that undermines local welfare globally

**Educating for an Ecologically Sustainable Culture** C. A. Bowers,1995-01-01 Exposes the faulty assumptions that underlie modern education in the areas of moral education creativity and intelligence showing how these assumptions must be changed in order to produce an ecologically sustainable culture

**Acts of Rebellion** Ward Churchill,2003-12-16 What could be more American than Columbus Day Or the Washington Redskins For Native Americans they are bitter reminders that they live in a world where their identity is still fodder for white society The law has always been used as toilet paper by the status quo where American Indians are concerned writes Ward Churchill in Acts of Rebellion a collection of his most important writings from the past twenty years Vocal and incisive Churchill stands at the forefront of American Indian concerns from land issues to the American Indian Movement from government repression to the history of genocide Churchill one of the most respected writers on Native American issues lends a strong and radical voice to the American Indian cause Acts of Rebellion shows how the most basic civil rights laws put into place to aid all Americans failed miserably and continue to fail when put into practice for our indigenous brothers and sisters Seeking to convey what has been done to Native North America Churchill skillfully dissects Native Americans struggles for property and freedom their resistance and repression cultural issues and radical Indian ideologies
