**The Most Dreadful Visitation** Valerie Pedlar, 2006-11-01 An Open Access edition of this book is available on the Liverpool University Press website and the OAPEN library Victorian literature is rife with scenes of madness with mental

disorder functioning as everything from a simple plot device to a commentary on the foundations of Victorian society But while madness in Victorian fiction has been much studied most scholarship has focused on the portrayal of madness in women male mental disorder in the period has suffered comparative neglect Valerie Pedlar corrects this imbalance in *The Most Dreadful Visitation* This extraordinary study explores a wide range of Victorian writings to consider the relationship between the portrayal of mental illness in literary works and the portrayal of similar disorders in the writings of doctors and psychologists Pedlar presents in depth studies of Dickens's *Barnaby Rudge* Tennyson's *Maud* Wilkie Collins's *Basil and Trollope's He Knew He Was Right* considering each work in the context of Victorian understandings and fears of mental degeneracy

*I. The spirit of prayer; or, the soul rising out of the vanity of time, into the riches of eternity. In two parts ; 7,II. The way to divine knowledge; being several dialogues between Humanus, Academicus, Rusticus, and Theophilus* William Law,1749

*Indian Realism* Jadunath Sinha,1999-09 This book is an attempt at a reconstruction of the Yogacara subjective idealism and an exhaustive criticism of it by different schools of Indian realism The exposition of the doctrine is based on the works of Santaraksita and Kamalasila and the critics of Vijñānavāda Generally the exposition and criticism of the doctrine by every eminent thinker have been given separately Most of the critics give a fair and impartial account of Vijñānavāda and contribute to the clarification of the idealist position The author has dealt with the controversy between subjective idealism and realism in Indian thought and tried to give a fairly full account of the arguments by which Indian realists seek to establish the reality of the external world Incidentally the Yogacara subjective idealism has been compared with the idealism of Berkeley and the sensationalism of Hume and the resemblances and differences between them have been briefly noted A striking feature of the book is that the parallel arguments of many contemporary realists have been quoted simply to indicate that the philosophical genius of a particular type is apt to move in the same groove irrespective of the soil it thrives in

*Intelligent Evolution* Michael A. Flannery,Alfred Russel Wallace,2020-08-12 Alfred Russel Wallace 1823 1913 co discoverer of natural selection was second only to Charles Darwin as the 19th century's most noted English naturalist Yet his belief in spiritualism caused him to be ridiculed and dismissed by many leaving him a comparatively obscure and misunderstood figure In this volume Wallace is finally allowed to speak in his own defense through his grand evolutionary synthesis *The World of Life* published over a century ago in 1910 More than just a reprinting of a near forgotten work Michael A Flannery places Wallace in historical context and includes the very latest historiography relating to both Darwin and Wallace in his detailed introduction Flannery exposes Charles Darwin's now famous theory of evolution as little more than a naturalistic cover for an extreme philosophical materialism borrowed as a youth from Edinburgh radicals This is juxtaposed by his sympathetic account of what he calls Wallace's intelligent evolution a thoroughly teleological alternative to Darwin's stochastic processes Though based upon very different formulations of natural selection the Wallace Darwin dispute

as presented by Flannery shows a metaphysical clash of worldviews coextensive with modern evolutionary theory itself design and purpose versus randomness and chance This book is for anyone seeking to understand the historical and philosophical roots of a controversy that still rages today This book contains an abridgement of Alfred Russel Wallace s *The World of Life* and Reverend John Magens Mello s essay *The Mystery of Life and Mind* Michael A Flannery is Professor Emeritus UAB Libraries University of Alabama at Birmingham Professor Flannery has published extensively in medical history and bioethics winning the prestigious Edward Kremers Award in 2001 for distinguished writing by an American from the American Institute of the History of Pharmacy the Murray Gottlieb Prize in history by the Medical Library Association in 2002 and the 2006 Publishers Award of the Archivists and Librarians in the History of Health Sciences This is his tenth book

*Benevolent Living* Richard Hazelett, Dean Turner, 1990      **The Congregationalist** Robert William Dale, James Guinness Rogers, 1885      **Spinoza** Olli Koistinen, John Ivan Biro, 2002 The essays in this volume investigate several themes notably Spinoza s monism the nature of the individual the relation between mind and body and his place in 17th century philosophy
