**A History of the Apocalypse** Catalin Negru, 2023-01-20 Religion For thousands of years this thing has dictated which people should live and which people should die, what shape our buildings should have or what colors our garments should contain, what food people should eat or what words people should speak. If religion is the opium of the masses, then beliefs about the end of the world are like overdoses. People touched by such beliefs no longer rely on a hidden personal and intimate god contemplated upon from the safe distance of the beating human heart. They live with the promise of divine intervention at a grand scale on the current coordinates of space and time. This can be an exceptional motivator and a game changer in terms of civil obedience both at an individual and collective level. In the name of an immediate and palpable deity, people can commit shocking cruelties. However, such belief can also account for some of the most exceptional social developments in human history.

*The Secret Geometry of the Dollar* Ken McGrath, 2002-12-12 This book is intended as research. It has been written so the average reader will be able to see the fascinating patterns of symbolic mathematics and geometry hidden in the design of the dollar bill. Much of its esoteric symbolism will be shown and analyzed from history of the long train of tradition that led up to the dollar's present design. Although some of these ideas easily lead to wide-ranging philosophical speculation, and I reserve the right to drag out the soapbox occasionally, I will none the less try to maintain a neutral or

scientific approach to these topics Most of this story has been written in the first person like a letter to the reader like a notebook In order that the reasoning that led me to these discoveries might be more easily understood I have tried to show my slow progress and mistakes more or less as they happened and the gradual development of my thinking as I went along But to all of this I will add some hindsight and a certain amount of convenient arrangement of the order of some of the discoveries for clarity Without this most of my starting points of investigation and conclusions will not be understandable and many of my earlier dubious paths can be left unsaid Since this curious and strange design is not yet completely known or fully analyzed this investigation is by no means finished and should be an invitation for more adventurous readers to make their own discoveries This study is a much larger task than it would appear at first glance This writing will provide many of the mathematical keys and clues to enable readers to start to investigate on their own or to demonstrate to themselves the validity of those things shown here But these are hidden symbols both philosophical and mathematical and as such need to be puzzled out

*Pyramid Quest* Robert M. Schoch, Robert Aquinas McNally, 2005-06-02 The Egyptologist acclaimed for re dating the Great Sphinx at Giza sets his sights on one of the true mysteries of antiquity the Great Pyramid of Giza What is the Great Pyramid of Giza Ask that basic question of a traditional Egyptologist and you get the basic traditional answer a fancy tombstone for a self important pharaoh of the Old Kingdom This Egyptologists argue is the sole finding based on the data and the only deduction supported by science By implication anyone who dissents from this point of view is unscientific and woolly minded a believer in magic and ghosts Indeed some of the unconventional ideas about the Great Pyramid do have a spectacularly fabulous ring to them Yet from beneath the obvious terms of this controversy a deeper more significant question arises how is it that the Great Pyramid exercises such a gripping hold on the human psyche adding cryptic grace to the back of the one dollar bill and framing myriad claims of New Age pyramid power In *Pyramid Quest* Robert M Schoch and Robert Aquinas McNally use the rigorous intellectual analysis of scientific inquiry to investigate what we know about the Great Pyramid and develop a stunning hypothesis This ancient monument is the strongest proof yet that civilization began thousands of years earlier than is generally thought extending far back into a little known time In tracing that story we come to understand not only the Great Pyramid but also our own origins as civilized beings

**The Reincarnation of Edgar Cayce?** Wynn Free, David Wilcock, 2010-06-15 Discover the legacy of the most famous psychic of the 20th century in this stirring exploration of psychic abilities reincarnation and other paranormal phenomena There are remarkable parallels between the work of David Wilcock and Edgar Cayce the legendary clairvoyant sleeping prophet and father of holistic medicine Here author Wynn Free explores these parallels building a convincing case that the two men shared the same source of prophetic information and that Wilcock might indeed be Cayce s reincarnation Compiling some of Wilcock s most inspirational and life transforming

prophetic guidance from his channeled Source this book conveys profound insights into topics such as earth changes secret cabals soul evolution death and reincarnation ascension crop circles and the theory of evolution Explaining how energetic increases occurring in the Sun and planets can have scientifically measurable far reaching effects in a number of realms The Reincarnation of Edgar Cayce presents new evidence that this energy can transform DNA potentially making ESP telekinesis levitation and other paranormal activities as common as breathing and usher in the Golden Age promised by every major spiritual tradition in human history Readers will come away with a deeper understanding not only of the life and work of both Wilcock and Cayce but with a broader sense of the many forces seen and unseen at work in the universe today     **National Message and Banner** ,1928     *Stonehenge and the Great Pyramid* Bonnie Gaunt,1997 This first book on the sacred geometry of these two ancient and mystical sites the Great Pyramid and Stonehenge is a fascinating study of the geometry and inner mathematics encompassed by and encoded in these structures Gaunt concludes that the numbers encoded into these ancient structures are modern man s tangible link with antiquity and that together Stonehenge and the Great Pyramid may be a window through which the secrets of the universe and the origins of creation can be glimpsed     *The Lost Ten Tribes* Joseph Wild,1919     *The American Antiquarian and Oriental Journal* ,1882     **The Freemason's Chronicle** ,1896
