Power Restructuring In China And Russia Mark Lupher, 2018-02-12 The massive economic transformations and political upheavals that have been sweeping China and the Soviet Union in the final decades of the twentieth century are among the great dramas of our time Yet the origins of these revolutionary changes are murky and their outcomes unclear Have we witnessed the demise of an archaic authoritarian order and the rise of pluralism and democracy or are the tumultuous events of the post Mao era and the period of perestroika more usefully viewed in light of broader patterns of power and politics in Chinese and Russian history Considering these questions with a new interpretation of power relations and political processes in China and Russia Mark Lupher explores the imperial era the communist period and the current situation in both countries Rather than speaking of reform which too often is understood as liberalization along Western lines his discussion is focused on power restructuring the ebb and flow of state power the centralization and decentralization of political and economic power and the three way struggles between central rulers various elites and nonprivileged groups that drive these processes Lupher s power restructuring analysis is noteworthy in combining broad comparative historical analysis and conceptualization with a closely focused discussion and reinterpretation of the Chinese Cultural Revolution the core of his book By comparing and bringing new light to bear on a series of pivotal episodes in Chinese and Russian history he furthers our understanding and assessment of processes that will continue to unfold in China Russia and the former Soviet republics

From Soviet to Russian International Law George Ginsburgs, 2023-09-20 Russia's international law persona is still in its infancy and it will take a while for the cycle to run its full course However significant changes have already occurred in some areas thus offering an

opportunity to analyze the trends here and track the process of emergence of successor doctrines and practices destined to replace the Soviet heritage The quartet of topics selected for treatment in this volume the relationship between international and domestic law citizenship and state succession the Sino Russian boundary problem and cooperation with China in policing crime illustrates major shifts in Russia's international law policy in a bid to shed the corset of Communist ideology and the old regime's modus operandi and join the international community's mainstream culture The test cases also attest to the difficulties encountered in the process of transition and show that progress on this front has by no means been uniform The sample includes both instances where the break with the past looks quite pronounced and where greater distancing from precedent might logically have been expected but for reasons that are then explored a sense of substantive continuity instead prevails albeit made more palatable by an application of linguistic cosmetics From Soviet to Russian International Law Studies in Continuity and Change marks the occasion of the author's 65th birthday and the 40th anniversary of his publishing debut Why Communism Did Not Collapse Martin K. Dimitrov, 2013-07-31 Addresses the durability of communist autocracies in Eastern Europe and Asia the longest lasting type of non democratic regime to emerge after World War I **A Biographical Approach to Chinese Political Analysis** George C. S. Sung, 1975 **Central Control and Local Discretion in China** Chae-ho Chŏng, 2000 This book analyses the decollectivization reform in China during the early 1980s in order to gauge the impact of post Mao decentralization on central control and provincial discretion The volume challenges the notion that the decision to decentralize administrative authority ipso facto produces local discretion properly keyed to local conditions In fact outcomes often differ from the intended goals While generally local interests and central local clientilistic networks determine the policy responses of the provinces bureaucratic careerism also plays a crucial role In the case of post Mao decollectivization national level analyses suggest that a majority of provinces adopted household farming neither too quickly nor too slowly since both pioneering and resisting entailed potentially enormous political risks Once Beijing's preference appeared firmly fixed however they all quickly bandwagoned by popularizing the policy as swiftly as possible Three detailed case studies of Anhui as a pioneer Shandong as a bandwagoner and Heilongjiang as a resister further highlight the evolutionary process in which provincial variations came to be replaced by uniform compliance imposed by Beijing Theoretically this study contends that the overall scope of local discretion is circumscribed by the dominant norms and incentive relations embedded in the implementation dynamics Methodologically the book employs a combination of aggregate analyses and comparative case studies Empirically on the basis of newly available materials including classified documents and interviews it challenges the peasant power school which has somehow allowed local governments to evaporate in its descriptions of post Mao decollectivization Subjectivity and Sexuality in Contemporary Chinese Feminist Writing Ruttapond Swanpitak, 2025-02-17 This book explores representations of female sexuality and subjectivity in contemporary Chinese fiction by three women writers published from 1986 to 2000 from the perspective of poststructuralist

feminism It discusses the representative works of authors Wang Anyi Tie Ning and Chi Li who are well known in the Chinese literary field However their works have not to date been analysed through the poststructuralist feminism s notions of subjectivity femininity and transgression This book then provides detailed analysis of each writer and draws comparisons between their works to provide an extended consideration of female sexuality and subjectivity within post Mao Chinese fiction In this respect this book not only offers fresh insights into the three authors fiction but also contributes to the feminist study of Chinese women s writing Additionally the research contributes to a better understanding of contemporary Chinese culture in relation to patriarchy misogyny feminism differences and resistance It is relevant to scholars in the fields of China studies Chinese literature feminist literature and gender studies

Law and the Party in China Rogier J. E. H. Creemers,Susan Trevaskes,2021-01-07 In the Xi Jinping era it has become clear that the rule of law as understood in the West will not appear in China soon But was this ever a likely option This book argues China s legal system needs to be studied from an internal perspective to take into account the characteristic architecture of China s Party state To do so it addresses two key elements ideology and organisation Part One of the book discusses ideology and the law exploring how the Chinese Communist Party conceives of the nature of law and its position within its broader range of policy tools Part Two on organisation and the law reviews how these ideological principles manifest themselves in the application of law as well as the reform of the Party state As such it highlights how the Party s plans and approaches run counter to mainstream theoretical expectations and advocates a greater attention to the inherent logic of the system itself

The Political Economy of Reform in Post-Mao China Elizabeth J. Perry,Christine Wong,2020-10-26 In December 1978 the Chinese Communist Party announced dramatic changes in policy for both agriculture and industry that seemed to repudiate the Maoist road to socialism in favor of certain capitalist tendencies The motives behind these changes the nature of the reforms and their effects upon the economy and political life of countryside and city are here analyzed by five political scientists and five economists Their assessments of ongoing efforts to implement the new policies provide a timely survey of what is currently happening in China Part One delineates the content of agricultural reforms including decollectivization and the provisions for households to realize private profits and examines their impact on production marketing peasant income family planning local leadership and rural violence Part Two examines the evolution of industrial reforms centering on enterprise profit retention and their impact on political conflict resource allocation investment material and financial flows industrial structure and composition of output Through all ten chapters one theme is conspicuous the multiple interactions between politics and economics in China s new directions since the Cultural Revolution

The Fate of Nations Michael Mandelbaum,1988-09-30 New interpretations of historic episodes in international relations result from a fresh analysis of national security policies and the demands and constraints imposed upon their development by the international system

China's Domestic Private Firms: Anne S. Tsui,Yanjie Bian,2014-12-18 One of the most important outcomes of market reforms in China over the past 20 years has been

the emergence of a significant domestic private sector which now accounts for almost a third of China's GDP and is by far the country's most important source of employment growth. This book is the first in-depth analysis of the management and operation of these domestic private firms which are defined as companies or organizations created by PRC citizens including township enterprises and collectives. The book provides a comprehensive and multidisciplinary perspective on the factors important to the successful operation and growth of these firms. It begins with a review of the literature on the topic in three different disciplines: economics, sociology, and management, each followed by several chapters covering recent developments in these areas. Featuring contributions by distinguished scholars and China experts, the work concludes with an insightful chapter on the future of China's public sector in the global economy. *Mao Zedong* Alan Lawrance, 1991. One of a series, this contains a biographical essay, a chronology, a survey of manuscript resources, an annotated bibliography of historical and biographic works on Mao and his place in history, speeches and writings by Mao, a summary of newspaper coverage, and a bibliography of newspapers. **Monthly Catalog of United States Government Publications**, 1978 **Forgotten Diplomacy** Vincent K.L. Chang, 2019-11-26. In this meticulously researched volume, Vincent Chang resurrects a near-forgotten yet pivotal chapter of Dutch-Chinese ties to narrate how World War II, the civil war in China, and Indonesia's decolonization redefined and remade this age-old bilateral relationship. Drawing on a unique range of hitherto unexplored archives, the book explains how China's nascent rise on the global scene and the Netherlands' simultaneous decline as a colonial power shaped events in Dutch-controlled Indonesia and vice versa, and prompted a recalibration of their mutual ties culminating in the Netherlands' recognition of the People's Republic and laying the foundations for Dutch and Chinese policies through to the present. Offering insightful analyses of power dynamics and international law at the close of empire, this book is a critical resource for historians and China specialists as well as scholars of international relations. **United States Government Publications Monthly Catalog**, 1950 *The Budget of the United States Government* United States Bureau of the Budget, 1951.
