The Christian Vision Man In Society:

The Christian Vision Carl F. H. Henry, Gerhart Niemeyer, J. I. Packer, 1984 These papers were delivered at a seminar of the Center for Constructive Alternatives on the Hillsdale College campus in September 1983 P xv **The Christian Vision of Humanity** John Randall Sachs, 1991 The incredible technical achievements of recent history may make us feel little less than gods but we also find much that cuts us down When we face our own limits and failures upon what or whom can we rely The biblical answer to questions about the ultimate nature and meaning of human life begins with the experience of Semitic slaves led out of Egyptian slavery beautifully recounted in Deuteronomy 26 5 11 The New Testament presents Jesus as the culmination of God's Old Testament promise Christian faith has a particular Vision of the world and of humanity founded upon the relationship between God and creation Its key elements are found in the inviolable dignity of every person the essential centrality of community and the significance of human action These are the main themes of a Christian anthropology developed in this book **Ricoeur's Personalist Republicanism** Dries Deweer, 2017-08-14 Moral and political convictions never stand alone They are always connected to an underlying view of mankind Liberalism which currently predominates is connected to a focus on the free individual Marxism thinks of man in terms of class struggle determined by economic relationships Halfway the twentieth century a powerful alternative came about by the name of personalism This term stood for a social and political thought based on the concept of the human person This concept stresses that a human being only becomes human in relationship with others and in a commitment to values that go beyond one's individual interests Although personalism has an important influence in western society in philosophical circles it is often regarded as dead and gone This tension brings Paul Ricoeur to the fore as an interesting interlocutor because he was considered a representative of personalism in his younger years while he later on also supported fatal criticisms of original personalism This book investigates to what extent the thought of Ricoeur bears a continuing stamp of personalism that allows him to instigate a personalist perspective within contemporary political philosophy The final result lies on three fronts First there is more clarity in the status of personalism in contemporary philosophy as Ricoeur's hermeneutical phenomenology shows that there are still viable means to elaborate the core ideas of personalism Second a personalist kind of republicanism is shown to provide a valuable input in the contemporary philosophical debate on citizenship Finally the most tangible result is a deeper understanding of the oeuvre of Ricoeur in the sense that this book shows that personalism is an important and above all underestimated perspective to understand his entire work Recovering Classic Evangelicalism Gregory Alan Thornbury, 2013-03-31 Once upon a time evangelicalism was a countercultural upstart movement Positioned in between mainline denominational liberalism and reactionary fundamentalism evangelicals saw themselves as evangelists to all of culture Billy Graham was reaching the masses with his Crusades Francis Schaeffer was reaching artists and university students at L Abri Larry Norman was recording Jesus music on secular record labels and touring with Janis Joplin and the

Doors and Carl F H Henry was reaching the intellectuals through Christianity Today It was the dawn of classic evangelicalism Surveying the current evangelical landscape however one gets the feeling that we re backpedaling quickly We are more theologically diffuse culturally gun shy and fragmented than ever before What has happened And how do we find our way back Using the life and work of Carl F H Henry as a key to evangelicalism s past and a cipher for its future this book provides crucial insights for a renewed vision of the church s place in modern society and charts a refreshing course toward unity under the banner of classic evangelicalism

The Other Six Days R. Human Dignity, Education, and Political Society James Greenaway,2020-07-07 A life of liberty and responsibility does not just happen but requires a particular kind of education one that aims at both a growth of the human soul and an enrichment of political society in justice and the common good This we call a liberal education Forgetfulness of liberty is also a forgetfulness of the multi dimensional nature of the human person and a diminution of political life Keeping in mind what can be lost when liberal education is lost this volume makes the case for recovering what is perennially noble and good in the liberal arts and why the liberal arts always have a role to play in human flourishing Each of the authors herein focuses on the connection of three primary themes human dignity liberal

education and political society Intentionally rooted in the hub that joins the three themes each author seeks to unfold the contemporary significance of that hub As a whole the volume explores how the three themes are crucial to each other how they illuminate each other how they need each other and how the loss of one jeopardizes the wellbeing of the others In individual chapters the authors engage various relevant aspects of liberal education As a result the volume is organized into three parts Liberal Education and a Life Well Lived Thinkers on Dignity and Education in History Contemporary Topics in Dignity and Education As education is increasingly channeled into an ever more narrow focus on technical specialization and measured against professional success students themselves face a maelstrom of campus politics and competing political orthodoxies These are among the issues that tend to militate against the operative liberty of the student to think and to speak as a person This edited collection is offered as an invitation to think again about the liberal arts in order to recover the meaning of education as the authentic pursuit of the good life or eudemonia **J. I. Packer** Leland Ryken,2015-10-14 For the last 60 years J I Packer has exerted a steady and remarkable influence on evangelical theology and practice His many books articles and lectures have shaped entire generations of Christians helping elevate their view of God and enliven their love for God In this new biography well known scholar Leland Ryken provides readers with a compelling overview of Packer s interesting life and influential legacy Exploring his childhood college days theological education and professional life in both England and America this volume combines detailed facts with personal anecdotes so as to paint a holistic portrait of the man himself Finally Ryken identifies lifelong themes evident in Packer s life ministry and writings that shed light on his enduring significance for Christians today **A Theology of Community Organizing** Chris Shannahan,2013-11-12 The rising importance of community organizing in the US and more recently in Britain has coincided with the developing significance of social movements and identity politics debates about citizenship social capital civil society and religion in the public sphere At a time when participation in formal political process and membership of faith groups have both declined dramatically community organizing has provided a new opportunity for small community groups marginalized urban communities and people of faith to engage in effective political action through the developments of inter faith and cross cultural coalitions of groups In spite of its renewed popularity little critical attention has been paid to community organizing This book places community organizing within debates about the role of religion in the public sphere and the rise of public theology in recent years The book explores the history methodology and achievements of community organizing engaging in a series of conversations with key community organizers in the US and Britain This volume breaks new ground by beginning to articulate a cross cultural and inter faith Theology for Community Organizing that arises from fresh readings of Liberation Theology **Law and Christianity in Latin America** M.C. Mirow,Rafael Domingo,2021-03-08 This volume examines the lives of more than thirty five key personalities in Latin American law with a focus on how their Christian faith was a factor in molding the evolution of law in their countries and the region The book is a significant contribution to our ability to

Economics in the Medieval Schools Langholm,2021-11-01 From the early thirteenth century social change and the emergence of a commercial economy caused theologians of the main scholastic tradition associated with the University of Paris to devote a small but significant part of their attention to economic problems Their primary purpose was to guide conduct but a concern with economic ethics acted as a stimulant to the development of predictive theory as well This book is a comprehensive survey of this tradition of economic thought until its decline in the mid fourteenth century The study focuses on exchange and value money and usury on fraud on duress and economic freedom The strong link between economic theory and the theory of property is accentuated It is based partly on familiar printed sources but a large body of previously unexplored manuscript sources are examined as well New interpretations are offered on several points of doctrine Its scope and the extent of the sources examined make this book an indispensable reference work for future research in medieval and early modern economic thought *The Great Life* Michael J. continues to understand what it is to be human This book features reflections on mythical thought and its logic and contrasts it to the Western conception of man as expressed in philosophy from antiquity to the twentieth century its main sources being Christianity and the idealistic tenet in antique Greek philosophy The author stresses the necessity to break away from a religious and metaphysical perception of man that is inevitably anthropocentric in order to construct a more scientifically based anthropology appropriate to tackle the threats our species poses to the vast ecological system on Earth American Government Cal Jillson, 2025-01-30 How politics in America works today how it got that way and how it's likely to change through reform these are the themes that pervade every chapter of Cal Jillson's highly lauded American Government Political Development and Institutional Change Even in the midst of current challenges America's past is present in all aspects of the contemporary political system Jillson uses political development and the dynamics of change as a thematic tool to help students understand how politics works now and how institutions participation and policies have evolved over time to produce the contemporary political environment In addition Jillson helps students think critically about how American democracy might evolve further focusing in every chapter on reform and further change New to the Thirteenth Edition Assesses the results of the Biden administration and the impact on the 2024 campaign of Biden's unexpected replacement by Kamala Harris at the top of the ticket Describes numerous ways in which the American political system has been affected by recovery from the Covid 19 pandemic the demise of Roe v Wade inflation and the border Assesses the implications of the January 6 2021 attack on the Capitol the Trump trials and what they mean for our political culture and partisan politics Assesses the implication of fake news and the move to mobile for our politics Explores the evidence for increasing polarization in public opinion voting behavior and the work of Congress and the courts Details the impact that the Russian invasion of Ukraine and the war in Israel and Gaza had on U S foreign policy and national security alliances *Freedom of the Human Person* Zbigniew Josef Waleszczuk, 2017-01-16 Freedom is the key issue for both Karol Wojtyla and Immanuel Kant that connects the Polish with the German philosopher This analysis aims to show the importance of Kant's ethics in the work of Karol Wojtyla Kant's paradigm shift in the anthropological thought was revolutionary The categorical imperative obliges each person to act morally and thus elevates them It is the foundation of human dignity not only for Kant but also for Wojtyla Who is man Is man free Or is materialistic man determined and arrested in immanence What should man do Man is gifted with freedom He is a person because he has the capacity to act Wojtyla and Kant put special emphasis on a person's power of self-determination that reveals itself through the experience as a freely acting person The realisation of the personal norm the categorical imperative was defined by both thinkers as a fulfilment of freedom Freedom shall be fulfilled in the responsible act which reveals the person's power of love *Congressional Record* United States.
