Dante's Vision and the Circle of Knowledge Giuseppe Mazzotta, 2014-07-14 In a masterly synthesis of historical and literary analysis Giuseppe Mazzotta shows how medieval knowledge systems the cycle of the liberal arts ethics politics and theology interacted with poetry and elevated the *Divine Comedy* to a central position in shaping all other forms of discursive knowledge To trace the circle of Dante's intellectual concerns Mazzotta examines the structure and aims of medieval encyclopedias especially in the twelfth and thirteenth centuries the medieval classification of knowledge the battle of the arts the role of the imagination the tension between knowledge and vision and Dante's theological speculations in his constitution of what Mazzotta calls aesthetic ludic theology As a poet Dante puts himself at the center of intellectual debates of his time and radically redefines their configuration In this book Mazzotta offers powerful new readings of a poet who stands amid his culture's crisis and fragmentation one who responds to and counters them in his work In a critical gesture that enacts Dante's own insight Mazzotta's practice is also a fresh contribution to the theoretical literary debates of the present Originally published in 1992 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase

Rights Expands Arthur P. Monahan, 2007-03-29 *The Circle of Rights Expands* explores ideas of limit on political authority through a fresh reading of the political philosophy of the fifteenth seventeenth and eighteenth centuries including the work of representative thinkers such as Locke Rousseau Athusius Grotius Hobbes and Hume Arthur Monahan examines problems of sovereignty religious toleration and individual rights emphasizing the relationship between such individual rights and economic change

The Circle of Fire P.J. Mazumdar, 2009-11-30 *The Circle of Fire* examines the eternal metaphysical questions What is God and What is the purpose of life The book discusses the answers to these questions given by Western science and different schools of Indian thought specifically detailing the answers to be found in India s two most developed atheistic traditions Hinduism and Buddhism Representative of a generation of Indians who have grown up with the best in scientific education and spiritual values author P J Mazumdar takes a hard look at religion science and how two seemingly divergent bodies of knowledge can be brought together Like Deepak Chopra a generation earlier Mazumdar is both a medical doctor and a member of a family steeped in Hindu tradition and is therefore well placed to elucidate ancient Indian philosophy to the modern analytical mind Acknowledging the metaphysical insights to be found in both Western science and Eastern spirituality Mazumdar pays special attention to the highest school of philosophy of Hinduism Advaita and its application to practical spirituality through the teachings and practice of Yoga The book takes its structure from the Vedas and is similarly divided into Jnanakanda Knowledge and Karmakanda Actions the first part examines the body of knowledge from European and Indian sources addressing the question of God and the second part looks at practical ways of applying this knowledge through different schools of Hindu and Buddhist philosophy The book explores the purest form of nondual Hindu philosophy Advaita and points out how the theories underpinning Buddhism and Advaita although they appear to contradict each other are the only theories that remain consistent with the findings of modern science The author makes the brave assertion that ultimately one or the other will be the theory realized by science as the ultimate metaphysical truth Like other books on the meeting of science and spirituality Fritzjof Capra s 80s classic *The Tao of Physics* and the necessity of a scientifically compatible notion of God Richard Dawkin s *The God Delusion* *The Circle of Fire* is ambitious in scope and a challenging rewarding read
