*The Lost Translators of 1808 and the Birth of Civil Law in Louisiana* Vernon Valentine Palmer, 2021-02-01 In 1808 the legislature of the Louisiana territory appointed two men to translate the Digest of the Laws in Force in the Territory of Orleans or as it was

called at the time simply the Code from the original French into English Those officials however did not reveal who received the commission and the translators never identified themselves Indeed the translators of 1808 guarded their secret so well that their identities have remained unknown for more than two hundred years Their names personalities careers and credentials indeed everything about them have been a missing chapter in Louisiana legal history In this volume Vernon Valentine Palmer through painstaking research uncovers the identity of the translators presents their life stories and evaluates their translation in the context of the birth of civil law in Louisiana One consequence of the translators previous anonymity has been that the translation itself has never been fully examined before this study To be sure the translation has been criticized and specific errors have been pointed out but Palmer s study is the first general evaluation that considers the translation s goals the Louisiana context its merits and demerits its innovations failures and successes It thus allows us to understand how much and in what ways the translators affected the future course of Louisiana law

The Lost Translators through painstaking research uncovers the identity of the translators presents their life stories and evaluates their translation in the context of the birth of civil law in Louisiana The Law of Contract 1670-1870 Warren Swain,2015-02-12 The foundations for modern contract law were laid between 1670 and 1870 Rather than advancing a purely chronological account this examination of the development of contract law doctrine in England during that time explores key themes in order to better understand the drivers of legal change These themes include the relationship between lawyers and merchants the role of equity the place of statute and the part played by legal literature Developments are considered in the context of the legal system of the time and through those who were involved in litigation as lawyers judges jurors or litigants It concludes that the way in which contract law developed was complex Legal change was often uneven and slow and some of the apparent changes had deep roots in the past Clashes between conservative and more reformist tendencies were not uncommon The Papers of Henry Laurens Henry Laurens,David R. Chesnutt,1968 *History of Oxford University Press: Volume I* Ian Anders Gadd,Simon Eliot,William Roger Louis,Keith Robbins,2013-11 The story of Oxford University Press spans five centuries of printing and publishing This first volume traces the beginnings of the University Press its relationship with the University and developments in printing and the book trade as well as the growing influence of the Press on the city of Oxford To the Uttermost Parts of the Earth Martti Koskenniemi,2021-08-26 A critical history of European sovereignty and property rights as the foundation of the international order in 1300 1870 *Bibliography of Printed Works on London History to 1939* Heather Creaton,Tony Trowles,1994 The history of London is so important in national and indeed international terms it seems extraordinary that this is the first general bibliography of the subject to appear It contains over 22 000 selected references to books and articles on the history of London from the Dark Ages to the beginning of the Second World War The whole of the former GLC area plus the City is covered Arrangement is by subject and there is a substantial analytical index Material for the bibliography was collected from specialist libraries all over London and beyond It is a

starting point for any enquiry about London's development over the centuries whether from the academic historian the amateur or the general enquirer A supplement is planned to cover new material on the period      **History of Universities: Volume XXXV / 1** Mordechai Feingold, 2022 This special edition of History of Universities Volume XXXV 1 studies and reappraises the often ignored history of eighteenth century Oxford caught as it is between the upheavals of the Stuart century and the reformation of the Victorian era
