The Color of Being/El Color del Ser Susie Kalil,2016-09-02 Born in Bryan Texas and raised in Houston Dorothy Hood won a scholarship to the

Rhode Island School of Design in the early 1930s then worked as a model in New York to earn money for classes at the Art Students League. On a whim she drove a roadster to Mexico City with friends in 1941 and ended up staying for more than twenty years. Hood was front and center at the cultural, political, and social crossroads of Mexico and Latin America during a period of intense creative ferment. She developed close friendships with the exiled European intelligentsia and Latin American surrealists, artists, composers, poets, playwrights, and revolutionary writers. She married the Bolivian composer José María Velasco Maidana, and together they traveled all over the world. Once back in Houston, Hood produced epic paintings that evoked the psychic void of space, large-scale works evoking primordial seas, volcanic explosions, and the cosmos contained within the mind. *The Color of Being*, *El Color del Ser*, establishes a vital connection among Texas, Latin America, New York, and Europe. It celebrates this important Modernist painter whose oeuvre is integral to the ongoing dialogue of abstraction by artists of the postwar period. Sponsored by the Art Museum of South Texas. Working Backstage Christin Essin, 2021-09-20 *Working Backstage* illuminates the work of New York City's theater technicians, shining a light on the essential contributions of unionized stagehands, carpenters, electricians, sound engineers, properties artisans, wardrobe crews, makeup artists, and child guardians. Too often dismissed or misunderstood as mere functionaries, these technicians are deeply engaged in creative problem-solving and perform collaborative, intricate, choreographed work that parallels the performances of actors, singers, and dancers onstage. Although their contributions have fueled the Broadway machine, their contributions have been left out of most theater histories. Theater historian Christin Essin offers clear and evocative descriptions of this invaluable labor based on her archival research and interviews with more than 100 backstage technicians. Members of the New York local of the International Alliance of Theatrical Stage Employees. A former theater technician herself, Essin provides readers with an insider's view of the Broadway stage from the suspended lighting bridge of electricians operating followspots, for *A Chorus Line*, the automation deck where carpenters move the massive scenic towers for *Newsies*, the makeup process in the dressing room for *The Lion King*, the offstage wings of *Matilda*, the Musical, where guardians guide child actors to entrances and exits. *Working Backstage* makes a significant contribution to theater studies and also to labor studies, exploring the politics of the unions that serve backstage professionals, protecting their rights and insuring safe working conditions. Illuminating the history of this typically hidden workforce, the book provides uncommon insights into the business of Broadway and its backstage working relationships among cast and crew members.
