The Commons Under Scrutiny:

The Commons Under Scrutiny Michael Ryle, Peter G. Richards, 1988 **House of Commons - European Scrutiny Committee - HC 683** Great Britain: Parliament: House of Commons: European Scrutiny Committee, 2013-11-07 This is an assessment of each of the 129 measures subject to the United Kingdom's block opt out including the European Arrest Warrant. This is an area of policy which is highly legally complex and politically sensitive. Yet the Government has failed to provide the information Parliament needs to scrutinise these measures properly. There are two sets of conclusions in the Report: first the Committee asks detailed follow up questions on a number of the measures in question including the European Arrest Warrant. Second the Government's overall approach is thoroughly analysed. The Committee sees signs of incoherence in Government policy, probably a consequence of coalition politics, and observes that several of the explanations for the 35 measures the Government wants to rejoin appear to have been written as if the Government was not intending to rejoin them and vice versa. The Committee concludes that the House must be given the opportunity to vote on each of the measures the Government proposes to rejoin before formal negotiations with the European Commission and Council begin.

House of Commons - European Scrutiny Committee: Forty-First Report of Session 2013-14 - HC 83xxxviii Great Britain: Parliament: House of Commons: European Scrutiny Committee, 2014-03-28 **Reform in the House of Commons** Michael Jogerst, 2021-10-21 One of the most significant changes in the British House of Commons has been the development in 1979 of a system of select committees charged with monitoring government ministries. Unlike previous experiments in parliamentary reform, these committees are staffed exclusively with backbench MPs who regularly review executive policies and offer recommendations. Michael Jogerst reappraises the relationship between the executive and legislative branches in light of these new circumstances which are likely to affect the entire governmental structure of the United Kingdom. [Text, Cases and Materials on Public Law and Human Rights](#) Helen Fenwick, Gavin Phillipson, 2013-03-04 Building on the strengths of the Sourcebook on Public Law, this book has been comprehensively revised to take account of the radical programme of constitutional reform introduced by the Labour Government since 1997. **The Law and Parliament** Dawn Oliver, Gavin Drewry, 1998-09 Written by members of the Study of Parliament Group, this collection of essays on the law and parliament deals with subjects such as the Nolan Report, devolution, and an examination of the historical relationship between Parliament and European Human Rights law. **At Home and under Fire** Susan R. Grayzel, 2012-01-09 Although the Blitz has come to symbolize the experience of civilians under attack, Germany first launched air raids on Britain at the end of 1914 and continued them during the First World War. With the advent of air warfare, civilians far removed from traditional battle zones became a direct target of war rather than a group shielded from its impact. This is a study of how British civilians experienced and came to terms with aerial warfare during the First and Second World Wars. Memories of the World War I bombings shaped British responses to the various real and imagined war threats of the 1920s and 1930s, including the bombing of

civilians during the Spanish Civil War and ultimately the Blitz itself The processes by which different constituent bodies of the British nation responded to the arrival of air power reveal the particular role that gender played in defining civilian participation in modern war *Exploring Parliament* Cristin Leston-Bandeira, 2025 Cultural heritage in the realm of the commons Stelios Lekakis, 2020-10-05 Cultural heritage was invented in the realm of nation states and from an early point it was considered a public asset stewarded to narrate the historic deeds of the ancestors on behalf of their descendants Nowadays as the neoliberal narrative would have it it is for the benefit of these tax paying citizens that privatisation logic on heritage sector have been increasing over recent decades to cover their needs in the name of social responsibility and other truncated views of the welfare state This volume examines whether we can place cultural heritage at the other end of the spectrum as a common good and potentially as a commons It does so by looking at Greece as a case study lately a battlefield of harsh and experimental austerity measures but also of inspiring grass roots mobilisation and scholarship currently blossoming to defend the right of communities to enjoy collaboratively manage and co create goods by the people for the people Since cultural heritage and culture in general is hastily bundled up with other goods and services in various arguments for and against their public character this volume invites several experts to discuss their views on their field of expertise and reflect on the overarching theme Can cultural heritage be considered a commons If so what are the advantages and pitfalls concerning theory practice and management of heritage What can we learn from other public resources with a longer history in commons based or market oriented interpretation and governance Can a commons approach allow us to imagine and start working towards a better more inclusive and meaningful future for heritage **Government responses to the Committee's eighth and ninth reports of session 2009-10** Great Britain: Parliament: House of Commons: Public Administration Select Committee, 2010-10-21 Responses to 8th report HC 330 ISBN 9780215544612 and 9th report HC 457 ISBN 9780215544872 **Against the Commons** Álvaro Sevilla-Buitrago, 2022-09-27 An alternative history of capitalist urbanization through the lens of the commons Characterized by shared self managed access to food housing and the basic conditions for a creative life the commons are essential for communities to flourish and protect spaces of collective autonomy from capitalist encroachment In a narrative spanning more than three centuries *Against the Commons* provides a radical counterhistory of urban planning that explores how capitalism and spatial politics have evolved to address this challenge Highlighting episodes from preindustrial England New York City and Chicago between the 1850s and the early 1900s Weimar era Berlin and neoliberal Milan Ivaró Sevilla Buitrago shows how capitalist urbanization has eroded the egalitarian convivial life worlds around the commons The book combines detailed archival research with provocative critical theory to illuminate past and ongoing struggles over land shared resources public space neighborhoods creativity and spatial imaginaries *Against the Commons* underscores the ways urbanization shapes the social fabric of places and territories lending particular awareness to the impact of planning and design initiatives on working class communities and popular

strata Projecting history into the future it outlines an alternative vision for a postcapitalist urban planning one in which the structure of collective spaces is ultimately defined by the people who inhabit them **Public Law** Mark Elliott,Robert Thomas,2024 The market leading public law text uses three key themes to tie the subject together with style and flair The authors capture the dynamic nature of public law covering essential topics and key contemporary debates as well as offering fascinating insights Fresh direct and clear writing style enables thorough understanding of the fundamentals while engaging readers with difficult issues and debates Three key themes guide students through the book the importance of executive accountability the shift from political to legal constitutionalism and multilayered governance demonstrating the interlinking strands of public law Practical examples illustrate the importance of public law to everyday life in the UK and discussion questions encourage students to consider contentious issues Expert commentaries at the end of every chapter allow students to see the debates within each topic first hand Also available as an e book and on Law Trove enhanced with self test questions and author videos to offer a fully immersive experience and extra learning support **Charities and the Commons** ,1908 Parliament Alexander Horne,Andrew Le Sueur,2016-06-02 This collection of essays by leading academics lawyers parliamentarians and parliamentary officials provides a critical assessment of the UK Parliament s two main constitutional roles as a legislature and as the preeminent institution for calling government to account Both functions are undergoing change and facing new challenges Part 1 Legislation includes chapters on Parliament s emerging responsibilities for pre legislative scrutiny of government Bills and for evaluating proposed legislation against explicit constitutional standards The impact on legislation of the European Union and the growing influence of the House of Lords are also examined Part 2 Accountability investigates how Parliament operates to scrutinise areas of executive action previously often shielded from effective parliamentary oversight including national security war making powers and administrative justice There are also chapters on parliamentary reform including analysis of the House of Commons Wright reforms parliamentary sovereignty privilege and the European Convention on Human Rights Euroscepticism and parliamentary sovereignty and the regulation of lobbyists The book will be of interest to anyone who is curious about the work of Parliament and is aimed at legal academics practitioners and political scientists **National Parliaments Within the Enlarged European Union** John O'Brennan,Tapio Raunio,2007-06-11 This book presents a wide range of perspectives on the role of national parliaments in EU politics and policy making looking at efforts to address perceived democratic and information deficits The House of Commons Emma Crewe,2020-05-31 The House of Commons is one of Britain s mysterious institutions constantly in the news yet always opaque In this ground breaking anthropological study of the world s most famous parliament Emma Crewe reveals the hidden mechanisms of parliamentary democracy Examining the work of Members of Parliament including neglected areas such as constituencies and committees this book provides unique insights into the actual lives and working relationships of parliamentarians Why do the public loathe politicians but often love their

own MP the author asks The antagonistic facade of politics irritates the public who tend to be unaware that backstage democracy relies on MPs consulting compromising and cooperating across political parties far more than is publicly admitted As the book shows this is only one of myriad contradictions in the labyrinths of power Based on unprecedented access and two years of interviews and research in the Palace of Westminster and MPs constituencies The House of Commons An Anthropology of MPs at Work challenges the existing scholarship on political institutions and party politics Moving beyond the narrow confines of rational choice theory and new institutionalism Emma Crewe presents a radical alternative to the study of British politics by demonstrating that all of its processes hinge on culture ritual and social relations A must read for anyone interested in political anthropology politics or the Westminster model

House of Lords - House of Commons - Joint Committee on Human Rights: The Implications for Access to Justice of the Government's Proposals to Reform Legal Aid - HL 100 - HC 766 Great Britain: Parliament: Joint Committee on Human Rights, 2013-12-13 The report The Implications For Access To Justice Of The Government's Proposals To Reform Legal Aid HL100 HC 766 concludes that the government should reconsider its proposals for the reform of legal aid The government has so far made welcome exemptions to its proposed residence test in the light of responses to its consultation but the Committee is still not satisfied that the proposed test will not affect vulnerable groups While accepting that it is legitimate for the government to introduce a residence test for civil legal aid and to restrict the scope of prison law funding the Committee calls for more and broader exemptions from these proposals to avoid breaches of the fundamental right of effective access to justice in individual cases The exceptional funding framework may not be working as intended and could therefore leave certain groups unable to access legal aid when human rights law requires it The proposal to remove cases with
