Schaeffer, 2014-10-07 The history of the book in Tibet involves more than literary trends and trade routes Functioning as material intellectual and symbolic object the book has been an instrumental tool in the construction of Tibetan power and authority and its history opens a crucial window onto the cultural intellectual and economic life of an immensely influential Buddhist society Spanning the fourteenth to the eighteenth centuries Kurtis R Schaeffer envisions the scholars and hermits madmen and ministers kings and queens who produced Tibet's massive canons He describes how Tibetan scholars edited and printed works of religion literature art and science and what this indicates about the interrelation of material and cultural practices The Tibetan book is at once the embodiment of the Buddha's voice a principal means of education a source of tradition and authority an economic product a finely crafted aesthetic object a medium of Buddhist written culture and a symbol of the religion itself Books stood at the center of debates on the role of libraries in religious institutions the relative merits of oral and written teachings and the economy of religion in Tibet A meticulous study that draws on more than 150 understudied Tibetan sources The Culture of the Book in Tibet is the first volume to trace this singular history Through a single object Schaeffer accesses a greater understanding of the cultural and social history of the Tibetan plateau **The Complete Works of Sangharakshita** Sangharakshita, 2019-04-01 In this volume Sangharakshita approaches communicating Buddhism in the West from two very different but equally illuminating angles In the first part in talks given in the early years of his teaching in England he introduces the apparently exotic worlds of Tibetan Buddhism 1965 and its creative symbols 1972 and Zen Buddhism 1965 clarifying their mysteries while also somehow allowing them to work their magic The Astrological Neptune and the Quest for Redemption Liz Greene, 2000-12-01 The longing for redemption is a many headed daimon that dwells within the most earthbound and prosaic of souls Neptune is the astrological symbol that describes this energy Liz Greene an internationally known astrologer has given us the most complete and accessible book about Neptune ever written She explores Neptune themes in literature myth politics religion fashion and art to show how this energy manifests *The 'Self' or 'Non-self' in Buddhism* Bodo Balsys, 2016-02-05 The Self or Non self in Buddhism This book

is a cogent reinterpretation of many of the key arguments of Mah y na philosophy providing new insights in relation to the question of what a self may or may not be relativistically perceived as an I consciousness in light of the doctrine of the Void nyat The major classical logic relating to such things as the Two Truths Dependent Origination the Sevenfold Reasoning are properly examined by presenting an esoteric view the Dharmak ya Way that represents the middle way between extremes In doing so many concepts are modernised and inherent errors expunged via the presentation of a new valid hermeneutic
