Grisham,2014-03-21 This book explores the factors that influence violent rebellious political organisations to transform into other entities such as political parties criminal organisations and terrorist organisations From the end of the Second World War until 1990 many events in the world centred on the bipolar struggle between the United States and the USSR Although there were numerous civil wars occurring during the Cold War era many of these conflicts went virtually unnoticed unless they were linked to the Cold War struggle for ideological dominance In the aftermath of the fall of the Soviet Union the number of intra state conflicts was prevalent around the globe Along with the occurrence of civil wars a variety of violent political movements also developed Examining cases from Latin America Africa Europe and Asia this book addresses how violent political movements transform during and after conflict into

Dreamer Nation Ana Milena Ribero,2023-09-21 Contributing to rhetorical studies of social movements immigration and minoritized rhetorics Ana Milena Ribero argues that even though Dreamer rhetorics were reflective of the discursive limits of the neoliberal milieu they also worked to disrupt neoliberal constraints through activism that troubled the primacy of the nation state and citizenship refused to adhere to respectability politics forwarded embodied identity and transnational belonging and looked for liberation in community not solely in legislative action Both of and beyond neoliberalism Dreamer rhetorics evidenced a rhetorical flexibility a both and sensibility that allowed Dreamers to vacillate between neoliberal tropes and radical arguments

Memories and Social Struggles in Contemporary Bolivia Sue A. S. Iamamoto,2025-07-10 Through investigation of three case studies in Bolivia this book offers an innovative perspective to explain the role of collective memories in moments of intense social struggle and political change Memories and Social Struggles in Contemporary Bolivia Platforms in Convulsive Times examines social memories as functioning powerful platforms that structure the experience of activists in convulsive times The first case analyses how the inhabitants of the province of Omasuyos mobilized the memory of the anti colonial rebellion of Tupac Katari and Bartolina Sisa during the so called Gas War in 2003 The second case concentrates on how activists in El Alto recalled the War of the Pacific to make sense of the same conflict Thirdly this book explores the civic strike in Potos in 2010 and its relation to the memory of the rise and fall of the Imperial City of Potos Sue A S Iamamoto argues these memories and narratives have often experienced a path dependent continuous remembrance through history which is both constitutive and instrumental for the activists claiming it

Bodies of Violence Lauren B. Wilcox,2015 According to conventional international relations theory states or groups make war and in doing so kill and injure people that other states are charged with protecting While it sees the perpetrators of violence as rational actors it views those who are either protected or killed by this violence as mere bodies ahistorical humans who breathe suffer and die but have no particular political agency In its rationalist variants IR theory only sees bodies as inert objects Constructivist theory argues that subjects are formed through social relations but leaves the bodies of subjects outside of politics as brute facts According to Wilcox such limited thinking about bodies and violence is not just wrong but also limits the capacity of IR to theorize the meaning of political violence By contrast to rationalist and constructivist theory feminist theory sees subjectivity and the body as inextricably linked This book argues that IR needs to rethink its approach to bodies as having particular political meaning in their own right For example bodies both direct violent acts violence in drone warfare for example and are constituted by practices that manage violence for example scrutiny of persons as bodies through biometric technologies and body scanners The book also argues that violence is more than a strategic action of rational actors as in rationalist theories or a destructive violation of community laws and norms as in liberal and constructivist theories Because IR theorizes bodies as outside of politics it cannot see how violence

can be understood as a creative force for shaping the limits of how we understand ourselves as political subjects as well as forming the boundaries of our political communities By engaging with feminist theories of embodiment and violence Bodies of Violence provides a more nuanced treatment of the nexus of bodies subjects and violence than currently exists in the field of international relations **Margaret Thatcher, the Conservative Party and the Northern Ireland Conflict,**

1975-1990 Stephen Kelly, 2021-01-14 Winner of the 2022 CHOICE Outstanding Academic Titles The first woman elected to lead a major Western power and the longest serving British prime minister for 150 years Margaret Thatcher is arguably one the most dominant and divisive forces in 20th century British politics Yet there has been no overarching exploration of the development of Thatcher s views towards Northern Ireland from her appointment as Conservative Party leader in 1975 until her forced retirement in 1990 In this original and much needed study Stephen Kelly rectifies this From Thatcher s no surrender attitude to the Republican hunger strikes to her nurturing role in the early stages of the Northern Ireland peace process Kelly traces the evolutionary and sometimes contradictory nature of Thatcher s approach to Northern Ireland In doing so this book reflects afresh on the political relationship between Britain and Ireland in the late 20th century An engaging and nuanced analysis of previously neglected archival and reported sources Margaret Thatcher the Conservative Party and the Northern Ireland Conflict 1975 1990 is a vital resource for those interested in Thatcherism Anglo Irish relations and 20th century British political history more broadly **Philosophy and Fiction** Schuy R. Weishaar, 2022-11-22 Fiction lies in order to tell the truth and seeks reality through shadows Philosophy attempts to dispel false realities it pursues clear understanding of things as they are While the relation of philosophy and fiction is perhaps paradoxical they implicate one another s picture of human experience This book uses fiction to help readers process philosophical themes and the philosophical reflection in turn helps clarify the fiction The study moves through roughly a hundred years of modern fiction from Washington Irving s The Devil and Tom Walker 1824 through James M Cain s Double Indemnity 1936 Several classic works of literary fiction are examined a few largely forgotten stories and several popular novels Reading fiction through the lens of philosophy helps readers perceive the complexity and richness of fiction reinvigorating the pursuit of wisdom that lies just beneath the surface of the words on the page **Startup Lessons #203-#303** George Deeb, Red Rocket

Death in the Shape of a Young Girl Patricia Melzer, 2015-04-24 In the early 1970s a number of West German left wing activists took up arms believing that revolution would lead to social change This publication questions the separation of political violence from feminist politics and offers a new understanding of left wing female terrorists actions as feminist practices that challenged existing gender ideologies The author draws on archival sources unpublished letters and interviews with former activists to paint an interdisciplinary picture of West Germany s most notorious political group the Red Army Faction der Rote Armee Fraktion RAF [Reclaiming Unlived Life](#) Thomas Ogden, 2016-06-17 In [Reclaiming Unlived Life](#) influential psychoanalyst Thomas Ogden uses rich clinical examples to illustrate how different types of thinking may promote or impede analytic work With a unique style of creative reading the book builds upon the work of Winnicott and Bion discussing the universality of unlived life and the ways unlived life may be reclaimed in the analytic experience The book examines the role of intuition in analytic practice and the process of developing an analytic style that is uniquely one s own Ogden deals with many forms of interplay of truth and psychic change the transformative effect of conscious and unconscious efforts to confront the truth of experience and how psychoanalysts can understand their own psychic evolution as well as that of their patients [Reclaiming Unlived Life](#) sets out a new way that analysts can understand and use notions of truth in their clinical work and in their reading of the work of Kafka and Borges [Reclaiming Unlived Life](#) Experiences in Psychoanalysis will appeal to psychoanalysts and psychoanalytic psychotherapists as well as postgraduate students and anybody interested in the literature of psychoanalysis 1 shi qingyao, 2024-11-18 Who said that it is appropriate to travel today it will rain when you go out Lu Yang complained that he regretted not bringing hemp fiber in advance

Periagoge - Theory of Singularity and Philosophy as an Exercise of Transformation Guido Cusinato, 2023-11-07 This book returns to the question at the center of our existence a question that the narcissistic culture in which we are immersed systematically tends to remove Why The underlying thesis is that the answer must not be sought in success or social recognition but in a fragment of truth hidden somewhere inside each of us which reveals itself only if we detach ourselves from our ego and its certainties It is not therefore a matter of finding yet another philosophical theory of the meaning of existence but rather of shedding light on the conditions under which such meaning can emerge The author shows us that the ultimate source of our existential orientation lies in the affective sphere and that the current crisis of orientation is derived from the atrophy of the process of affective maturation on a large scale and from a lack of knowledge and experience about which techniques are best to reactivate it We are like glowworms that had once unlearned how to illuminate and have since begun to hover around the magic lantern of the ascetic ideal already criticized by Nietzsche and then around neon advertising signs We are glowworms that have forgotten that we have within our own affective structure a precious source of orientation The basic thesis is that this source of orientation can be reactivated through the care of desire and practices of emotional sharing
