People survive in a dangerous primitive world relying on a close almost magical connection with their Creator In addition to knives spears and bows and arrows they are armed with special knowledge that allows leaders and shamans to guess the will of the spirits and control the life of the tribe And yet one threat the most terrible will remain unrecognized until the last and the world as those living in it know it will cease to be the same *Firstborn* Arthur C. Clarke,Stephen Baxter,2007-12-26

The Firstborn the mysterious race of aliens who first became known to science fiction fans as the builders of the iconic black monolith in 2001 A Space Odyssey have inhabited legendary master of science fiction Sir Arthur C Clarke's writing for decades With *Time's Eye* and *Sunstorm* the first two books in their acclaimed Time Odyssey series Clarke and his brilliant co author Stephen Baxter imagined a near future in which the Firstborn seek to stop the advance of human civilization by employing a technology indistinguishable from magic Their first act was the Discontinuity in which Earth was carved into sections from different eras of history restitched into a patchwork world and renamed Mir Mir's inhabitants included such notables as Alexander the Great Genghis Khan and United Nations peacekeeper Bisesa Dutt For reasons unknown to her Bisesa entered into communication with an alien artifact of inscrutable purpose and godlike power a power that eventually returned her to Earth There she played an instrumental role in humanity's race against time to stop a doomsday event a massive solar storm triggered by the alien Firstborn designed to eradicate all life from the planet That fate was averted at an inconceivable price Now twenty seven years later the Firstborn are back This time they are pulling no punches They have sent a quantum bomb Speeding toward Earth it is a device that human scientists can barely comprehend that cannot be stopped or destroyed and one that will obliterate Earth Bisesa's desperate quest for answers sends her first to Mars and then to Mir which is itself threatened with extinction The end seems inevitable But as shocking new insights emerge into the nature of the Firstborn and their chilling plans for mankind an unexpected ally appears from light years away **The Year's**

Before the breakthrough of postcolonial studies British science fiction authors already saw the opportunity to discuss political and ethical issues of imperialism by projecting human history and behavior onto the alien Other In this thesis the

case studies of 15 novels of alien encounter science fiction illuminate the treatment of colonial and postcolonial concepts such as colonialism neo colonialism Empire paternalism hybridity mimicry and science and technology as a means of conquest and resistance The analysis also shows that the Empire is still a vital background for British science fiction Thesis Series Anglistik Amerikanistik English American Studies Vol 35

[Dinosaurs Ever Evolving](#) Allen A. Debus,2016-06-21 From their discovery in the 19th century to the dawn of the Nuclear Age dinosaurs were seen in popular culture as ambassadors of the geological past and as icons of the life

through time narrative of evolution They took on a more foreboding character during the Cold War serving as a warning to mankind with the advent of the hydrogen bomb As fears of human extinction escalated during the ecological movement of the 1970s dinosaurs communicated their metaphorical message of extinction urging us from our destructive path Using an eclectic variety of examples this book outlines the three fold evolution of dinosaurs and other prehistoric monsters in pop culture from their poorly understood beginnings to the 21st century      *Searching for Extraterrestrial Intelligence* H. Stableford,2006 Publisher description      *Nanorobots and the Hunt for H1no1* E. j. Perkins,E. J. Perkins,2011 Kenneth and Keesa Rogers are not normal parents with normal jobs They invent warrior nanorobots that mimic their son s awesome martial art skills But top secret information such as warrior nanorobots is not something they share with their four adventurous children until an evil scientist genetically engineers a H1NO1 viral mutant powerful enough to wipe out the human race When that happens the parents divulge all their top secrets and move their family to the scariest place on earth the Ituri Rainforest Inside this hot zone of majestic beauty and mind blowing danger they risk everything in their hunt for H1NO1      *Ecological Imperialism* Alfred W. Crosby,2015-10-06 People of European descent form the bulk of the population in most of the temperate zones of the world North America Australia and New Zealand The military successes of European imperialism are easy to explain in many cases they were a matter of firearms against spears But as Alfred W Crosby maintains in this highly original and fascinating book the Europeans displacement and replacement of the native peoples in the temperate zones was more a matter of biology than of military conquest European organisms had certain decisive

advantages over their New World and Australian counterparts The spread of European disease flora and fauna went hand in hand with the growth of populations Consequently these imperialists became proprietors of the most important agricultural lands in the world In the second edition Crosby revisits his now classic work and again evaluates the global historical importance of European ecological expansion
