**Shakespeare's Plants and Gardens: A Dictionary** Vivian Thomas, Nicki Faircloth, 2014-02-27 Shakespeare lived when knowledge of plants and their uses was a given but also at a time of unique interest in plants and gardens His lifetime saw the beginning of scientific interest in plants the first large scale plant introductions from outside the country since Roman times and the beginning of gardening as a leisure activity Shakespeare's works show that he engaged with this new world to illuminate so many facets of his plays and poems This dictionary offers a complete companion to Shakespeare's references to landscape plants and gardens including both formal and rural settings It covers plants and flowers gardening terms and the activities that Shakespeare included within both cultivated and uncultivated landscapes as well as encompassing garden imagery in relation to politics the state and personal lives Each alphabetical entry offers a definition and overview of the term discussed in its historical context followed by a guided tour of its use in Shakespeare's works and finally an extensive bibliography including primary and secondary sources books and articles     *The Victoria and Albert Museum* Elizabeth James, 2013-10-15 A comprehensive bibliography and exhibition chronology of the world's greatest museum of the decorative arts and design The Victoria and Albert Museum or South Kensington Museum as it used to be known was founded by the British Government in 1852 out of the proceeds from the Great Exhibition of 1851 Like the Exhibition it aimed to improve the expertise of designers and the taste of the public by exposing them to examples of good design from all countries and periods 2 500 publications have to date been produced by for or in association with the V A The National Art Library which is part of the Museum has prepared this detailed catalogue supplemented by a secondary list of 500 other books closely related to the V A The 1 500 exhibitions and displays recorded include those held in the main Museum and at its branches the Bethnal Green Museum now the National Museum of Childhood and the Theatre Museum Covent Garden and additionally those it has organized at external venues in Great Britain and abroad The exhibitions and publications are fully cross referenced and there are name title and subject indexes to the whole work as well as an explanatory introduction     The Victoria and Albert Museum Victoria and Albert Museum, 1998 First Published in 1999 Routledge is an imprint of Taylor Francis an informa company     **Quick Bibliography Series**, 1976     *Of Books and Botany in Early Modern England* Leah Knight, 2016-12-05 Contemplating the textual gardens poetic garlands and epigrammatic groves which dot the landscape of early modern English print Leah Knight exposes and analyzes the close configuration of plants and writing in the period She argues that the early modern cultures and cultivation of plants and books depended on each other in historically specific and novel ways

that yielded a profusion of linguistic conceptual metaphorical and material intersections Examining both poetic and botanical texts as well as the poetics of botanical texts this study focuses on the two outstanding English botanical writers of the sixteenth century William Turner and John Gerard to suggest the unexpected historical relationship between literature and science in the early modern genre of the herbal In depth readings of their work are situated amid chapters that establish the broader context for the interpenetration of plants and writing in the period s cultural practices in order to illuminate a complex interplay between materials and discourses rarely considered in tandem today *The Botany of the Commelins* D.O.
