The Incredible Scream Machine A History Of The Roller Coaster:

The Incredible Scream Machine Robert Cartmell, 1987 In 1984 America celebrated the one hundredth anniversary of the first successful roller coaster device LaMarcus A. Thompson's switchback railway erected at Coney Island. Robert Cartmell examines every phase of roller coaster history from the use of the roller coaster by Albert Einstein to demonstrate his theory of physics to John Allen's use of psychology in designing one. Risk Arwen P. Mohun, 2013-02-26 How have Americans confronted, managed, and even enjoyed the risks of daily life? Winner of the Ralph Gomory Prize of the Business History Conference, *Risk* is a capacious term used to describe the uncertainties that arise from physical, financial, political, and social activities. Practically everything we do carries some level of risk: threats to our bodies, property, and animals. How do we determine when the risk is too high? In considering this question, Arwen P. Mohun offers a thought-provoking study of danger and how people have managed it from pre-industrial and industrial America up until today. Mohun outlines a vernacular risk culture in early America, one based on ordinary experience and common sense. The rise of factories and machinery eventually led to shocking accidents, which she explains. Risk management experts and the gospel of safety sought to counter this. Finally, she examines the simultaneous blossoming of risk-taking as fun and the aggressive regulations that follow from the consumer products safety movement. *Risk and Society* is a rapidly growing area of historical research, interests sociologists, psychologists, and other social scientists. Americans have learned to tame risk in both the workplace and the home. Yet many of us still like amusement park rides that scare the devil out of us; they dare us to take risks. **The Architecture of Pleasure** Josephine Kane, 2016-03-16 The amusement parks which first appeared in England at the turn of the twentieth century represent a startlingly novel and complex phenomenon combining fantasy, architecture, new technology, ersatz danger, spectacle, and consumption in a new mass experience. Though drawing on a diverse range of existing leisure practices, the particular entertainment formula they offered marked a radical departure in terms of visual, experiential, and cultural meanings. The huge, socially mixed crowds that flocked to the new parks did so purely in the pursuit of pleasure, which the amusement parks commodified in exhilarating new guises. Between 1906 and 1939, nearly 40 major amusement parks operated across Britain. By the outbreak of the Second World War, millions of people visited these sites each year. The amusement park had become a defining element in the architectural, psychological, and pleasurescape of Britain. This book considers the relationship between popular modernity, pleasure, and the amusement park landscape in Britain from 1900 to 1939. It argues that the amusement parks were understood as a new and distinct expression of modern times which redefined the concept of public pleasure for mass audiences. Focusing on three sites: Blackpool Pleasure Beach, Dreamland in Margate, and Southend's Kursaal, the book contextualises their development with references to the wider amusement park world. The meanings of these sites are explored through a detailed examination of the spatial and architectural form taken by rides and other buildings. The roller coaster, a defining symbol of the amusement park, is given particular focus, as is the extent to which discourses of class

gender and national identity were expressed through the design of these parks Continental Tourism, Travel Writing, and the Consumption of Culture, 1814-1900 Benjamin Colbert, Lucy Morrison, 2020-08-25 This book explores the boundaries of British continental travel and tourism in the nineteenth century stretching from Norway to Bulgaria from visitors albums to missionary efforts from juvenilia to joint authorship The essay topics invoke new aesthetics of travel as consumption travel as satire and of the developing culture of tourism Chronologically arranged the book charts the growth and permutations of this new consumerist ideology of travel driven by the desires of both men and women the insatiable appetite for new accounts of old routes as well as appropriation of the new interart reproductions of description and illustration and wider cultural manifestations of tourism within popular entertainment and domestic settings Continental tourism provides multiple perspectives with wide ranging coverage of cultural phenomena increasingly incorporated into and affected by the nineteenth century continental tour The essays suggest the coextension of travel alongside experiential boundaries and reveal the emergence of a consumerist attitude toward travel that persists in the present day Amusement Parks of Pennsylvania Jim Futrell, 2002-04 A comprehensive guide to 13 parks in the state complete with information on rides and attractions Packed with vintage postcard images and photos *Inventors and Inventions* Doris Simonis, 2007-09 From air conditioners to MRI scanners and from bicycles to frozen foods modern life would be unimaginable without the work of inventors Unlike other resources on inventions *Inventors and Inventions* surprises readers with its wide ranging exploration of inventors of the past and present including the creators of Kevlar Coca Cola eBay and the Global Positioning System
