## **The International Economic Order Part 1:**

*The New International Economic Order* Paul Stubbs, 2025-09-05 The New International Economic Order NIEO was an attempt underpinned by the agency of the Global South to articulate global economic and social rights consequent upon political rights gained through processes of decolonisation The New International Economic Order Lives and Afterlives situates the NIEO within the interregnum of the 1970s addressing its core features intellectual antecedents contradictions absences and afterlives Particular attention is paid to the role of the Non Aligned Movement NAM alongside the G 77 and UNCTAD The book traces the orchestrated United States opposition to the NIEO and the growth of neoliberalism at the end of the 1970s before discussing some of the NIEO s many afterlives It argues that analysing translating and adapting the NIEO is important for any re envisioning of emancipatory global economic political and social relations today Using a mixture of documentary and archive material The New International Economic Order will be of interest to students and researchers in diplomatic history international relations development studies and sociology It brings together a large number of themes that are not usually considered together in the existing literature combining theory and empirics in innovative ways *The New International Economic Order* Karl P Sauvant, Hajo Hasenpflug, 2019-06-10 In the face of the continuing economic gap between the industrialized and the developing countries the Third World began to demand a reorganization of the international economic system its mechanisms organizations purposes that would make the system responsive to the needs of all of its members The United Nations Sixth Special Session in 1974 **International Economic Organizations in the International Legal Process** Sergei A. Voitovich, 2023-08-28 Voitovich presents a clear and lucid discussion of the manner and form in which international economic organizations IEOs participate in two main stages of the international legal process law making and law implementation The book is based on normative instruments and fragments of practice of about fifty IEOs In order to ensure a proper and timely realization of their normative acts IEOs exercise a number of law implementing functions which are subject to a thorough comparative examination The author concludes that existing IEOs not being ideal institutional models possess a sufficient arsenal of law implementing instruments to make a considerable impact on the international legal regulations in the economic field The book will be of interest to academics and economic political scientists **Trilateralism** Holly Sklar, 1980 This is a classic work a highly readable wide ranging study of the Trilateral Commission and the worldwide strategies of Trilateralism It demystifies national and international events power propaganda and policy making from World War II through the sixties and seventies and into the eighties **Completing Humanity** Umut Özsu, 2023-12-21 After the Second World War the dissolution of European empires and emergence of new states in Asia Africa Oceania and elsewhere necessitated large scale structural changes in international legal order In Completing Humanity Umut zsu recounts the history of the struggle to transform international law during the twentieth century s last major wave of decolonization Commencing in 1960 with the General Assembly s landmark decolonization resolution and

concluding in 1982 with the close of the third UN Conference on the Law of the Sea and the onset of the Latin American debt crisis the book examines the work of elite international lawyers from newly independent states alongside that of international law specialists from First World and socialist states A study in modifications to legal theory and doctrine over time it documents and reassesses post 1945 decolonization from the standpoint of the Third World and the jurists who elaborated and defended its interests

**Conflict and Consensus in South/North Security** Caroline Thomas, Paikiasothy Saravanamuttu, 1989-11-23 Thirteen distinguished contributors address and re evaluate the security relations between the South and North boundaries

**Imports and Economic Growth** C.A. van Bochove, 2012-12-06 The research for this project was carried out while the author was at the staff of the Economics Faculty of Erasmus University Rotterdam The core results were recorded in discussion papers 7821 G 7901 G 7910 G and 8002 G of the faculty's Institute for Economic Research Working on the project I incurred considerable debts to some professors and fellow staff members of the faculty Professor P J Verdoorn initiated this study by suggesting its subject and by encouraging me to turn my initially hesitantly held view of imports as indispensable inputs into the cornerstone of the analysis he also read the final manuscript Professor H C Bos enthusiastic encouragement greatly stimulated me in the arduous phase of the writing of the manuscript his advice on style and emphasis considerably improved the presentation while his careful reading of the various versions of the manuscript eliminated many non sequiturs and some errors I am deeply in debt to A S W de Vries who scrutinized not only the manuscript but also the preliminary discussion papers while sharing an office room with him for six years I had the benefit of many stimulating discussions and he equanimously put up with my moods when I was stuck at some point I am also in debt to D P Broer for checking and improving the optimal control theorem in chapter 7 to Professor R Harkema for inducing me to write sections 5.1 and 5

**The Poverty Curtain** Mahbub ul Haq, 1976 Monograph on development policy choices for developing countries suffering from poverty and underdevelopment finds that traditional economic development

strategies have failed to cater to basic needs of the vast masses and recommends a new international economic order accompanied by new international relationships and development aid measures role of developed countries References and statistical tables Papers Relating to the Foreign Relations of the United States United States. Department of State,1969

**Development and Social Change** Philip McMichael,Heloise Weber,2020-12-15 Development and Social Change A Global Perspective describes the dramatic acceleration of the global and political economy in four parts colonialism the development era the current era of globalization and global counter movements for equity and sustainability Creative Demobilisation E.A. Gutkind,2013-10-08 This is Volume II in a series of eighteen on Public Policy Welfare and Social Work Originally published in 1998 part one of creative demobilisation looks at the principles of national planning The book attempts to lay down principles of planning on a national scale It is not concerned with the working out of details which belong rather to the sphere of regional and local planning Planning has become the catchword of our age not merely one suspects because it is a necessity inherent in our historical situation but also because it offers for many people a welcome escape from the ambiguities of political action **The Price of Aid** David C. Engerman,2018-02-19 This study of US and Soviet aid efforts in India during the Cold War makes a major contribution towards a necessary discussion of the politics of aid Times Higher Education Debates over foreign aid are often strangely ahistorical Economists argue about how to make aid work while critics bemoan money wasted on corruption ignoring the fundamentally political character of aid The Price of Aid turns the standard debate on its head By exposing the geopolitical calculus underpinning development assistance it also exposes its costs India stood at the center of American and Soviet aid competition throughout the Cold War as both superpowers saw developmental aid as a way of pursuing their geopolitical goals by economic means Drawing on recently declassified files from seven countries David Engerman shows how Indian leaders used Cold War competition to win battles at home eroding the Indian state in the process As China spends freely in Africa the political stakes of foreign aid are rising once again A superb field changing book A true classic Sunil Amrith **Documents in International Economic Law** Christian J. Tams,Christian Tietje,2012-08-30 International economic law is one of the crucial branches of international law and of major importance both practically and conceptually This document collection brings together all of the most important treaties regulations and other documents in this area It presents the key documents of contemporary international economic law in one single volume so to provide students as well as practitioners with an accessible reference guide The book will feature a brief introduction providing readers with a roadmap through what is perceived by many as the maze of international economic law The collection brings together documents relating to the three main pillars of international economic law namely world trade law international monetary law and international investment law These are preceded by texts of a more general character notably issued by the United Nations and clarifying the parameters of international economic relations This broad focus enables readers to view international economic law in its breadth and to avoid the

pitfalls of a compartmentalised approach which exclusively focuses on for example WTO law or investment law without appreciating their interrelation By bringing together key texts of all three branches the book should be invaluable to students taking general courses of international economic law as well as more specialised courses such as WTO law or investment law

**Globalization and Common Responsibilities of States** Koen De Feyter, 2017-05-15 There is a growing awareness that international law insufficiently protects common global interests and that States and non State actors need to work together to protect global aims The focus of this book is on the different fields of international law where there is a need for global cooperation to achieve common aims for example the law of the sea protection of world cultural heritage sustainable development biological diversity and climate change human rights and international crimes The volume also identifies the legal developments which have taken place for example treaties which use the language of common heritage of mankind or common concern of humanity thereby identifying global concerns and reflecting a global set of values and interests independent of the interests of States

*The World Economy through the Lens of the United Nations* José Antonio Ocampo, Anis Chowdhury, Diana Alarcón, 2018-03-16 This edited volume documents the intellectual influence of the United Nations Department of Economic and Social Affairs UN DESA through its flagship publication the World Economic and Social Survey WESS on its 70th Anniversary First published in 1948 as World Economic Report WESS is the oldest continuous post World War II publication recording and analysing the performance of the global economy and social development trends It offers relevant policy recommendations and highlights how well the United Nations UN annual report has tracked global economic and social conditions and how its analyses influenced and were influenced by the prevailing development discourse during the past seven decades It also critically reflects on its policy recommendations and their influence on actual policy making and the shaping of the world economy The World Economy through the Lens of the United Nations reflects on this report amongst others to provide valuable insights on global economic challenges and their differential impacts on different groups of countries requiring global policy coordination as well as context specific policy responses It demonstrates that UN reports have often been ahead of the curve and played a critical role in policy debate especially in the area of international policy coordination and coherence for balanced global development and offers rich and path breaking analyses of contemporary problems of growth development trade and stabilization

**Not For Sale** Anatole Anton, 2020-01-16 Not for Sale In Defense of Public Goods contains a variety of essays aimed at developing a timely philosophical defense of public goods against neo liberal criticisms The defense proceeds on both a conceptual level with essays treating such concepts as collective action collective provision common property intellectual property and a substanti

**The Other Canon of Economics, Volume 1** Erik Reinert, 2024-02-13 Other Canon Economics Essays in the Theory and History of Uneven Economic Development brings together key essays on development economics from one of the most prolific and important development economists and historians of economic policy today Erik S Reinert argues through essays ranging from 1994 to

2020 that neo classical economics damages developing countries the theory of comparative advantage leaves out a number of factors which make economic activities qualitatively different as carriers of economic growth Based on a long intellectual tradition started by the Italian economists Giovanni Botero 1589 and Antonio Serra 1613 and later used in virtually all presently industrialised countries Reinert shows that the country which exports increasing returns goods e g high end manufacture has advantages over the country which exports diminishing returns goods e g commodities This has important implications for today s development strategies that Reinert argues should be seen as industrial strategies

**Democracy's Think Tank** Brian S. Mueller, 2021-07-02 In Democracy s Think Tank Brian S Mueller places the Institute for Policy Studies IPS at the center of a network of activists involved in making the world safe for diversity Unlike defense intellectuals at the RAND Corporation and other think tanks responsible for formulating military strategy the peace intellectuals at IPS developed blueprints for an alternative to the U S led world order As the Iron Curtain fell across Eastern Europe a triumphalist Cold War narrative emerged proclaiming victory for freedom democracy and free enterprise over totalitarianism Yet for the peace intellectuals at IPS the occasion did not merit celebration Since its doors opened in 1963 IPS refused to embrace American exceptionalism and waged a battle against the Cold War and its liberal anti communist supporters As IPS founders Marcus Raskin and Richard Barnet saw it in the process of fighting communism and preserving the liberal capitalist order Cold War liberals had forsaken democracy Democracy s Think Tank tells the story of IPS s crusade to resurrect democracy at home and abroad Borrowing from populist progressive and New Left traditions IPS challenged elite expertise and sought to restore power to the people To this end IPS in the words of journalist I F Stone served as the institute for the rest of us Mueller tells the story of IPS s involvement in a broad range of grassroots campaigns aimed at ending the Cold War and increasing participatory democracy in the United States and across the globe Contemporary observers seeking an alternative to American empire in the twenty first century will find Democracy s Think Tank offers several possible paths toward a more democratic order

**The Fair and Equitable Treatment Standard in the International Law of Foreign Investment** Ioana Tudor, 2008-03-13 The treatment of foreign investors and of their investments on the territory of a host State is often subject to a bilateral investment treaty BIT signed by the national State of the investors and the host State These BITs usually contain a clause in which the two States offer fair and equitable treatment FET to the foreign investors on their territory Moreover this clause has become a norm of customary law implying that investors may rely on it even outside the context of the BIT Foreign investors whose rights under this clause have not been respected may bring the State in front of an international tribunal This book analyses not only the conventional and customary framework se the FET clause but also its scope and all its applications in the existing case law This book tackles the standard of fair and equitable treatment by applying four conceptual frames the legal basis of FET its nature as a standard its content and finally the implications of its breach The first two chapters explore the two classical sources of international law as possible sources for FET The main

sources of FET lie in a rich conventional framework mainly bilateral and regional Yet the high number of BITs does not appear to offer a uniform model of FET clauses quite the opposite the book offers a classification of the FET clauses found in more than 400 BITs Having concluded that the conventional framework is essential to FET the book turns to the examination of the possible customary character of FET and argues that the view equating FET with the International Minimum Standard is erroneous and it limits the scope of FET Alternatively it suggests that the FET standard is an independent standard of customary nature Then the book looks at the nature of FET that of being a standard and retains three direct consequences for its meaning its flexibility the absence of a fixed content and its evolutionary character With these three characteristics in mind it proceeds to the third conceptual framework the content of FET Although no fixed content may be given to it it identifies and develops each one of those situations in which the FET standard has already been applied Finally the last conceptual framework aims at discussing the final act of a FET claim i e the amount of compensation awarded It argues that FET is a standard which balances the interests and behaviours of both the States and the investors at the stage of compensation
