The Christian Woman in the Working World Martha Nelson, 1970 *The Oxford Encyclopedia of Women in World History* Bonnie G. Smith, 2008 The *Encyclopedia of Women in World History* captures the experiences of women throughout world history in a comprehensive 4 volume work Although there has been extensive research on women in history by region no text or reference work has comprehensively covered the role women have played throughout world history The past thirty years have seen an explosion of research and effort to present the experiences and contributions of women not only in the Western world but across the globe Historians have investigated women's daily lives in virtually every region and have researched the leadership roles women have filled across time and region They have found and demonstrated that there is virtually no historical social or demographic change in which women have not been involved and by which their lives have not been affected The *Oxford Encyclopedia of Women in World History* benefits greatly from these efforts and experiences and illuminates how women worldwide have influenced and been influenced by these historical social and demographic changes The *Encyclopedia* contains over 1 250 signed articles arranged in an A Z format for ease of use The entries cover six main areas biographies geography and history comparative culture and society including adoption abortion performing arts organizations and movements such as the Egyptian Uprising and the Paris Commune women's and gender studies and topics in world history that include slave trade globalization and disease With its rich and insightful entries by leading scholars and experts this reference work is sure to be a valued go to resource for scholars college and high school students and general readers alike *The Christian Woman's Complete Guide to Health* Scott Farhart, Elizabeth King, 2012-10-08 When it comes to caring for their bodies women want to know that the advice they get is medically sound AND in line with their values and their faith This groundbreaking new reference offers guidance readers can trust as two Christian obstetrician gynecologists explore the medical psychological emotional and spiritual aspects of women's health Writing the essential reference guide for Christian women of every age Farhart and King make use of the most current research to explain everything women need to know about their bodies from puberty to menopause and beyond including alternative therapies diagnostic suggestions and the latest recommendations for physical exams Unlike some medical reference books the tone here is reassuring not scary and targets the underserved Christian segment of the female population **Unitarian Word and Work** ,1917 **The Millennial Harbinger ...** ,1863 **The Association Monthly** ,1914 *Encyclopedia of Feminist Theories* Lorraine Code, 2002-06-01 The path breaking *Encyclopedia of Feminist Theories* is an accessible multidisciplinary insight into the complex field of feminist thought The *Encyclopedia* contains over 500 authoritative entries commissioned from an international team of contributors and includes clear concise and provocative explanations of key themes and ideas Each entry contains cross references and a bibliographic guide to further reading over 50 biographical entries provide readers with a sense of how the theories they encounter have developed out of the lives and situations of their authors **The**

The Business of Women explores the world of women entrepreneurs in early twentieth century British Columbia. Contrary to expectation, the typical businesswoman was not unmarried or particularly rebellious but a woman who reconciled entrepreneurship with her femininity and her identity as a wife, mother, or widow. The entrepreneurial woman was the product of a frontier ethos in British Columbia that translated into higher rates of marriage for women and more married women working outside the home than in any other province in Canada. Like men, they worked to support their families. Woman's Home Missions of the Methodist Episcopal Church, 1917

World Regional Geography Lydia Mihelic Pulsipher, Alex Pulsipher, Holly M. Hapke, 2005-01-05. The scale of this book encompasses vast continents and global forces, but often its descriptive focus on individual lives has the most impact. Stories of people and families make the study of geography compelling. Students begin to grasp the complex patterns at work in the world today as they see how people are affected by and respond to economic, social, and political processes. Through these stories of individual lives, the authors hope to convey the impact of globalization, a major theme of the text. To highlight global to local and interregional connections, the text includes a number of topics that have no borders: the war on terrorism, realignments in the global political order, interregional trade, the global economy, popular culture, the environment, and the Internet. Here again, the focus on the individual person provides insight, offering local perspectives on these global trends. Preface Records, 1878
