The Cistercians Ideals And Reality:

The Cistercians Louis Julius Lekai, 1977 *The Cistercian Evolution* Constance Hoffman Berman, 2010-08-03 According to the received history the Cistercian order was founded in C teaux France in 1098 by a group of Benedictine monks who wished for a stricter community They sought a monastic life that called for extreme asceticism rejection of feudal revenues and manual labor for monks Their third leader Stephen Harding issued a constitution the Carta Caritatis that called for the uniformity of custom in all Cistercian monasteries and the establishment of an annual general chapter meeting at C teaux The Cistercian order grew phenomenally in the mid twelfth century reaching beyond France to Portugal in the west Sweden in the north and the eastern Mediterranean ostensibly through a process of apostolic gestation whereby members of a motherhouse would go forth to establish a new house The abbey at Clairvaux founded by Bernard in 1115 was alone responsible for founding 68 of the 338 Cistercian abbeys in existence by 1153 But this well established view of a centrally organized order whose founders envisioned the shape and form of a religious order at its prime is not borne out in the historical record Through an investigation of early Cistercian documents Constance Hoffman Berman proves that no reliable reference to Stephen s Carta Caritatis appears before the mid twelfth century and that the document is more likely to date from 1165 than from 1119 The implications of this fact are profound Instead of being a charter by which more than 300 Cistercian houses were set up by a central authority the document becomes a means of bringing under centralized administrative control a large number of loosely affiliated and already existing monastic houses of monks as well as nuns who shared Cistercian customs The likely reason for this administrative structuring was to check the influence of the overdominant house of Clairvaux which threatened the authority of C teaux through Bernard s highly successful creation of new monastic communities For centuries the growth of the Cistercian order has been presented as a spontaneous spirituality that swept western Europe through the power of the first house at C teaux Berman suggests instead that the creation of the religious order was a collaborative activity less driven by centralized institutions its formation was intended to solve practical problems about monastic administration With the publication of *The Cistercian Evolution* for the first time the mechanisms are revealed by which the monks of C teaux reshaped fact to build and administer one of the most powerful and influential religious orders of the Middle Ages **Holy Entrepreneurs** Constance Brittain Bouchard, 2018-10-18 The twelfth century was characterized by intense spirituality as well as rapid economic development Drawing on unprecedented research Constance Brittain Bouchard demonstrates that the Cistercian monks of Burgundy were exemplary in both spheres Bouchard explores the web of economic ties that linked the Cistercian monasteries with their secular neighbors especially the knights and reaches some surprising conclusions about Cistercian attitudes **The Cambridge Companion to the Cistercian Order** Mette Birkedal Bruun, 2013 Presents the Order s figureheads practical life and spiritual horizon and its contribution to medieval Europe s religious cultural and political climate *Medieval Monasticism* C.H. Lawrence, 2014-07-10 Hugh

Lawrence's book ranges right across Europe and the Middle East as well as reconstructing the internal life experience and aims of the medieval cloister he also explores the many sided relationships between the monasteries and the secular world from which they drew recruits This Third Edition contains new thoughts and perspectives throughout The Cistercian Order in Medieval Europe Emilia Jamroziak, 2015-06-22 The Cistercian Order in Medieval Europe offers an accessible and engaging history of the Order from its beginnings in the twelfth century through to the early sixteenth century Unlike most other existing volumes on this subject it gives a nuanced analysis of the late medieval Cistercian experience as well as the early years of the Order Jamroziak argues that the story of the Cistercian Order in the Middle Ages was not one of a Golden Age followed by decline nor was the true Cistercian spirit exclusively embedded in the early texts to remain unchanged for centuries Instead she shows how the Order functioned and changed over time as an international organisation held together by a novel management system from Estonia in the east to Portugal in the west and from Norway to Italy The ability to adapt and respond to these very different social and economic conditions is what made the Cistercians so successful This book draws upon a wide range of primary sources as well as scholarly literature in several languages to explore the following key areas the degree of centralisation versus local specificity how much the contact between monastic communities and lay people changed over time how the concept of reform was central to the Medieval history of the Cistercian Order This book will appeal to anyone interested in Medieval history and the Medieval Church more generally as well as those with a particular interest in monasticism *The Haskins Society Journal* 34 Person William North, Contributor Laura E Wangerin, 2024-10-08 Essays illuminating a wide range of topics from Cistercian preachers and the geography of purgatory to royal and ecclesiastical justice and power This volume continues the Society's commitment to historical and interdisciplinary research from the early and central Middle Ages and demonstrates its belief that the close interrogation of primary documents yields new insights into or important recalibrations of our understanding of the past It begins by surveying the works of the Greek Fathers rendered into Latin in late antiquity exploring their reception and deployment in England before the conquest The twelfth century occupies a central place in this volume Four papers offer close readings or re readings of key authors or sources one reconstructs William of Malmesbury's journeys in the mid 1130s another offers a new reading of two of Aelred of Rievaulx's royal biographies a third considers the influence of Henry of Marcy on Herbert of Clairvaux's *Liber visionum et miraculorum Clarevallensium* and a fourth examines the *Historia Gaufredi Ducis* and its outsized impact on the history of the ritual of dubbing Two papers address royal and ecclesiastical justice in mid thirteenth century France through meticulous work with archival sources they respectively consider the case of Geoffroy de Milly and limits of sovereign authority and enquetes as a technique of power Further topics include the emerging geography of purgatory in the imagination of the twelfth and thirteenth centuries the different dimensions of medieval institutional culture as seen in the intersection of earthly and angelic power in Angevin England placed in dialogue with American medieval

historiography and the evolving historiographical treatment of men of the Church employed as trusted administrators by Italian communes The volume concludes with two essays on significant moments in the history of American medieval studies examinations of the publication history of Evelyn Faye Wilson's *Stella Maris* of John of Garland and of the life scholarship and legacy of Bennett David Hill round out the volume *Medieval Mothering* Bonnie Wheeler, 2014-04-23 First published in 1996 Routledge is an imprint of Taylor Francis an informal company *A Companion to Aelred of Rievaulx (1110-1167)* Marsha Dutton, 2017-01-23 Brill's *Companion to Aelred of Rievaulx* explores the life works and thought of Aelred Cistercian abbot of Rievaulx Abbey from 1147 to 1167 As well as introducing the three genres of his works sermons spiritual teaching and history scholars survey such central topics as Marian devotion love and friendship the sacramental nature of community lay spirituality and saints' lives The work also includes the first supplement to the *Bibliotheca aelrediana secunda* listing publications by and about Aelred from between 1996 and 2015 Aelred is rapidly becoming one of the best known and most loved of the 12th century Cistercians this book provides welcome new insights into his contributions to the spiritual and political concerns of his place and time Contributors are Damien Boquet Pierre Andr  Burton Marsha L Dutton Elizabeth Freeman Daniel M La Corte Marie Anne Mayeski Domenico Pezzini John R Sommerfeldt and Katherine Yohe **The Violent Pilgrimage** Tim Rayborn, 2013-03-18 The notion of Christianity as a religion of peace was severely tested during the Middle Ages when killing in the name of God became a sanctified act In this book Tim Rayborn traces the development of the early Crusades Christian views of war and violence and its attitudes toward Islam primarily during the turbulent period of the 11th and 12th centuries with some attention to earlier centuries A marked shift in Christian perceptions of its own identity coincided with a considerably more martial and aggressive approach to nonbelievers both inside and outside of Europe This wide ranging study includes such topics as the background to the First Crusade the Knights Templar Bernard of Clairvaux the Cistercian Order the works of Peter the Venerable apocalyptic hopes and fears and martyrdom in the context of Christian conflicts with Islam Focusing on French monastic writings the book also examines papal documents Spanish polemics crusade chronicles and other works This is a survey of research on these important subjects and serves as both a reference work and a point of departure for further study *Encyclopedia of Monasticism* William M. Cistercian Architecture and Medieval Society Maximilian Sternberg, 2013-08-15 In Cistercian Architecture and Medieval Society Maximilian Sternberg offers an account of the social functions of the built environment in medieval monasticism Few medieval monuments hold so privileged a place in the modern imagination as Cistercian abbeys yet Sternberg suggests it is precisely our own peculiarly modern fascination with the idea of Cistercian aesthetics that has hindered a full view of the complex social meanings of their architecture This book draws attention instead to the practical and symbolic means by which architecture helped the Cistercians to negotiate the dense web of relations that in actuality bound them to other spheres of medieval society It explores the permeability of monastic boundaries and considers their effectiveness in reconciling a simultaneous need for interaction and distance between monastic communities and these other social spheres

Pastoral Care and Monasticism in Latin Christianity and Japanese Buddhism (ca. 800-1650) Toshio Ohnuki, Gert Melville, Yuichi Akae, Kazuhisa Takeda, 2024 Monasticism has a special position in the history of pastoral care It produced innovations in various aspects of pastoral care despite or more precisely because of its isolation in legal or social terms from the secular world The thirteen papers contained in this volume will reveal that there was a great variety in the ways pastoral care continued to be practised by monasticism depending on time space and the nature of each religious order Adopting a comparative approach their historical and geographical range of investigation is not limited to medieval Europe but expands to the Americas and even to Japan in the early Modern Age This volume bases on a conference held on 1 and 2 March 2019 at Okayama University Japan as part of the close collaboration between a Japanese research group on Christian Buddhist religious movements and the Research Project Monasteries in the High Middle Ages Innovation Laboratories for European Life Designs and Regulatory Models of the Saxon and the Heidelberg Academies of Sciences and Humanities as well as the Research Center for Comparative History of Religious Orders FOVOG Dresden

Creating Cistercian Nuns Anne E. Lester, 2011-11-22 In Creating Cistercian Nuns Anne E Lester addresses a central issue in the history of the medieval church the role of women in the rise of the religious reform movement of the thirteenth century Focusing on the county of

Champagne in France Lester reconstructs the history of the women's religious movement and its institutionalization within the Cistercian order. The common picture of the early Cistercian order is that it was unreceptive to religious women. Male Cistercian leaders often avoided institutional oversight of communities of nuns, preferring instead to cultivate informal relationships of spiritual advice and guidance with religious women. As a result, scholars believed that women who wished to live a life of service and poverty were more likely to join one of the other reforming orders rather than the Cistercians. As Lester shows, however, this picture is deeply flawed. Between 1220 and 1240 the Cistercian order incorporated small independent communities of religious women in unprecedented numbers. Moreover, the order not only accommodated women but also responded to their interpretations of apostolic piety even as it defined and determined what constituted Cistercian nuns in terms of dress, privileges, and liturgical practice. Lester reconstructs the lived experiences of these women, integrating their ideals and practices into the broader religious and social developments of the thirteenth century, including the crusade movement, penitential piety, the care of lepers, and the reform agenda of the Fourth Lateran Council. The book closes by addressing the reasons for the subsequent decline of Cistercian convents in the fourteenth century. Based on extensive analysis of unpublished archives, *Creating Cistercian Nuns* will force scholars to revise their understanding of the women's religious movement as it unfolded during the thirteenth century.

Medieval Theology of Work P. Ranft, 2016-04-30 This study addresses the need to learn what medieval thinkers had to say about the concept of work by examining the thought of Peter Damian and numerous other religious leaders and groups of the High Middle Ages for evidence of their contributions, deepening our understanding of this concept.

The Cistercians in the Middle Ages Janet E. Burton, Julie Kerr, 2011 The Cistercians, White Monks, were the most successful monastic experiment to emerge from the tumultuous intellectual and religious fervor of the 11th and 12th centuries. This book seeks to explore the phenomenon that was the Cistercian Order.

The Medieval Cloister in England and Wales John McNeill, 2017-12-02 This dedicated volume of the *Journal of the British Archaeological Association* draws together ten papers which collectively explore something of the art and architecture, styles and uses of the medieval cloister in England and Wales. Contributors consider the continental context, cloisters in English palaces, Benedictine and Augustinian cloister arcades in the 12th and 13th centuries, architecture and meaning in Cistercian east ranges, late medieval vaulted cloisters in the West Country, cloisters at the cathedrals of Old Sarum, Canterbury, and Lincoln, and assess the extent to which the cloister bosses at Norwich Cathedral Priory reflect contemporary religious politics. The volume also contains an extended consideration and gazetteer of all Cistercian cloisters in England and Wales.

The Cistercian World, 2006-04-27 The Cistercian Order was born in Burgundy at the start of the twelfth century as a movement of radical renewal, an Order that survives to this day with the greater part of its written heritage preserved. This volume brings together a selection of its finest works which speak powerfully across the centuries to modern readers. Writings by St Bernard of Clairvaux c. 1090-1153, including his letters, *The Life of Malachy the Irishman*, sermons on the Song of Songs, and

the sharply satirical Apologia for Abbot William reveal him to be a highly individual and influential writer of the Middle Ages. Also included here are a charming description of Clairvaux, biographies of abbots, and a series of exemplary stories all drawing on the Scriptures to express intensely personal forms of monastic theology.
