The Citizen And The News:

The Citizen Marketer Joel Penney, 2017-05-05 From hashtag activism to the flood of political memes on social media the landscape of political communication is being transformed by the grassroots circulation of opinion on digital platforms and beyond By exploring how everyday people assist in the promotion of political media messages to persuade their peers and shape the public mind Joel Penney offers a new framework for understanding the phenomenon of viral political communication the citizen marketer Like the citizen consumer the citizen marketer is guided by the logics of marketing practice but rather than being passive actively circulates persuasive media to advance political interests Such practices include using protest symbols in social media profile pictures strategically tweeting links to news articles to raise awareness about select issues sharing politically charged internet memes and viral videos and displaying mass produced T shirts buttons and bumper stickers that promote a favored electoral candidate or cause Citizens view their participation in such activities not only in terms of how it may shape or influence outcomes but as a statement of their own identity As the book argues these practices signal an important shift in how political participation is conceptualized and performed in advanced capitalist democratic societies as they casually inject political ideas into the everyday spaces and places of popular culture While marketing is considered a dirty word in certain critical circles particularly among segments of the left that have identified neoliberal market logics and consumer capitalist structures as a major focus of political struggle some of these very critics have determined that the most effective way to push back against the forces of neoliberal capitalism is to co opt its own marketing and advertising techniques to spread counter hegemonic ideas to the public Accordingly this book argues that the citizen marketer approach to political action is much broader than any one ideological constituency or bloc Rather it is a means of promoting a wide range of political ideas including those that are broadly critical of elite uses of marketing in consumer capitalist societies The book includes an extensive historical treatment of citizen level political promotion in modern democratic societies connecting contemporary digital practices to both the 19th century tradition of mass political spectacle as well as more informal culturally situated forms of political expression that emerge from postwar countercultures By investigating the logics and motivations behind the citizen marketer approach as well as how it has developed in response to key social cultural and technological changes Penney charts the evolution of activism in an age of mediatized politics promotional culture and viral circulation

Activating the Citizen J. DeBardeleben, J. Pammett, 2009-08-12 The decline of citizen involvement affects two key elements of democratic government elections and political parties Activating the Citizen examines the reasons underlying citizen withdrawal and explores and assesses innovative approaches on both sides of the Atlantic to try to counter these phenomena

Cosmopolitanism and the New News Media Lilie Chouliaraki, Bolette Blaagaard, 2015-09-07 The Arab Spring the Occupy Wall Street movement and the Haiti earthquake are only some of the recent examples of the power of new media to transform journalism Some celebrate this

power as a new cosmopolitanism that challenges the traditional boundaries of foreign reporting yet others fear that the new media simply reproduce old power relations in new ways It is this important controversy around the role of new media in shaping a cosmopolitan journalism that offers the starting point of this book By bringing together an impressive range of leading theorists in the field of journalism and media studies this collection insightfully explores how Twitter Facebook Flickr and YouTube are taking the voice of ordinary citizens into the forefront of mainstream journalism and how in so doing they give shape to new public conceptions of authenticity and solidarity This collection is directed towards a readership of students and scholars in media and communications digital and information studies journalism sociology as well as other social sciences that engage with the role of new media in shaping contemporary social life This book was originally published as a special issue of Journalism Studies

Online Journalism Ethics Cecilia Friend,Jane Singer,2015-03-26 Online media present both old and new ethical issues for journalists who must make decisions in an interactive instantaneous environment short on normative standards or guidelines This user friendly book guides prospective and professional journalists through ethical questions encountered only online Including real life examples and perspectives from online journalists in every chapter the book examines the issues of gathering information reporting interviewing and writing for mainstream news organizations on the Web It considers the ethical implications of linking interactivity verification transparency and Web advertising as well as the effects of convergence on newsrooms It also addresses the question of who is a journalist and what is journalism in an age when anyone can be a publisher Each chapter includes a complex case study that promotes critical thinking and classroom discussion about how to apply the ethical issues covered

The Mediated City Stephen Coleman,Nancy Thumim,Chris Birchall,Julie Firmstone,Giles Moss,Katy Parry,Judith Stamper,Jay G. Blumler,2016-08-15 How does news circulate in a major post industrial city And how in turn are identities and differences formed and mediated through this circulation This seminal work is the first to offer an empirical examination and trace a city s pattern of news circulation Encompassing a comprehensive range of practices involved in producing circulating and consuming news and recognizing the various ways in which individuals and groups may find out follow and discuss local issues and events The Mediated City critiques thinking that takes the centrality of certain news media as an unquestioned starting point By doing so it opens up a discussion do we know what news is What types of media constitute it And why does it matter

The Future of Journalism: In an Age of Digital Media and Economic Uncertainty Bob Franklin,2017-07-06 The development of digital media has delivered innovations and prompted tectonic shifts in all aspects of journalism practice the journalism industry and scholarly research in the field of journalism studies this book offers detailed accounts of changes in all three arenas The collapse of the advertising model in tandem with the impact of the continuing global recession has created economic difficulties for legacy media and an increasingly frenzied search for new business strategies to resource a sustainable journalism while triggering concerns about

the very future of journalism and journalists The Future of Journalism In an Age of Digital Media and Economic Uncertainty brings together the research conversation conducted by a distinguished group of scholars researchers journalists and journalism educators from around the globe and hosted by The Future of Journalism at Cardiff University in September 2013 The significance of their responses to these pressing and challenging questions is impossible to overstate Divided into nine sections this collection analyses and discusses the future of journalism in relation to Revenues and Business Models Controversies and Debates Changing Journalism Practice Social Media Photojournalism and visual images of News Local and Hyperlocal journalism Quality Transparency and Accountability and Changing Professional Roles and Identities This book is essential reading for everyone interested in the prospects for journalism and the consequent implications for communications within and between local national and international communities for economic growth the operation of democracy and the maintenance and development of the social and cultural life of societies around the globe This book was originally published as special issues of Digital Journalism Journalism Practice and Journalism Studies

Cultural Meanings of News Daniel A. Berkowitz, 2011 What is news Why does news turn out like it does What factors influence the creation production and dissemination of news Cultural Meanings of News takes on these deceptively simple questions through an essential collection of seminal and contemporary studies by leaders in the fields of mass communication and media studies Similar in format and purpose to editor Dan Berkowitz's award winning Social Meanings of News this new volume represents a conceptual update a continuation of the discourse about the nature of news and how it comes to be moving ideas ahead from the earlier tradition of sociological approaches to the more pervasive cultural perspectives that inform understandings about news Cultural Meanings of News provides a carefully selected set of readings organized into thematic areas that each probe a dimension of the literature from sociological roots to cultural perspectives news as narrative and cultural text newswork as cultural ritual news as cultural myth news and its interpretive communities news as a source and reflection of collective memory toward the future of news research This text reader provides students and scholars with first hand exposure to cultural approaches to the study of news while also providing an organizing framework for understanding the commonalities and differences between threads in the research The goals are to engage readers through guided immersion in the material

EBOOK: Citizens or Consumers: What the Media Tell us about Political Participation Justin Lewis, Sanna Inthorn, Karin Wahl-Jorgensen, 2005-09-16 In this superb account of how the British and American news media represent everyday citizens and public opinion the authors show how coverage of politics and policy debates subtly even inadvertently urge people to see themselves as and thus to be politically passive disengaged and cynical The book's analysis of how journalists misrepresent even invent public opinion is alone worth the price of admission Written with great verve passion and unswerving clarity Citizens or Consumers promises to become an instant classic in the study of the failings and the still untapped promise of the news media to further democracy Susan J Douglas Catherine Neafie Kellogg Professor and Chair Department of

Communication Studies The University of Michigan Based on an exhaustive cross Atlantic empirical study Citizens or Consumers is an engaging and incisive contribution to a subject usually restricted to clichés and vague generalizations Looking not only at how media impact upon their audiences but the manner in which that influence is mediated by the way in which citizenship itself is represented in news stories Lewis et al offer us unusual and keen insight into a familiar world Written in an engaging and lively style first year students and experienced faculty members as well as general readers will benefit from its many perceptive insights Especially useful are the last few pages which suggest how journalists might alter their representation practices to invoke citizenship rather than passive consumerism Sut Jhally Professor of Communication University of Massachusetts at Amherst Founder Executive Director Media Education Foundation The two great duelists for our attention citizens and consumers are locked in a struggle for the future of democracy Citizens or Consumers offers its readers a sharp lesson in how the media highlight and distort that struggle It's the kind of lesson we all need Toby Miller author of Cultural Citizenship In recent years there has been much concern about the general decline in civic participation in both Britain and the United States especially among young people At the same time we have seen declining budgets for serious domestic and international news and current affairs amidst widespread accusations of a dumbing down in the coverage of public affairs This book enters the debate by asking whether the news media have played a role in producing a passive citizenry And if so what might be done about it Based on the largest study of the media coverage of public opinion and citizenship in Britain and the United States this book argues that while most of us learn about politics and public affairs from the news media we rarely see or read about examples of an active engaged citizenry Key reading for students in media and cultural studies politics and journalism studies *Chicago Daily News Almanac*, 1914 **Public Service Media in the Digital Age** Agnes Gulyás, Ferenc Hammer, 2014-07-03 Public service media are going through dramatic transformations as a result of technological developments policy changes market pressures and changes in media consumption A significant part of this transformation is connected to the enhanced and novel roles of audience initiative to use and generate content The scale and significance of the changes are still contested and the future of the provisions remains unclear This book synthesises current debates on public service media and provides analysis of the key issues from an international perspective It brings together leading researchers in the field and offers case studies from different countries The book explores two main areas legacy public service broadcasters in the digital age and new forms of public service media Chapters in this collection address such fundamental questions about the future of public service media as are the public ready to take on genuinely participatory roles Do public service media organisations and professionals seriously consider shifting to a radically more demand oriented production How would changes in public service media impact political discourses and landscapes Misunderstanding News Audiences Eiri Elvestad, Angela Phillips, 2018-04-09 Misunderstanding News Audiences interrogates the prevailing myths around the impact of the Internet and social media on news consumption and

democracy The book draws on a broad range of comparative research into audience engagement with news across different geographic regions to provide insight into the experience of news audiences in the twenty first century From its inception it was imagined that the Internet would benignly transform the nature of news media and its consumers There were predictions that it would for example break up news oligarchies improve plurality and diversity through news personalisation create genuine social solidarity online and increase political awareness and participation among citizens However this book finds that while mainstream news media is still the major source of news the new media environment appears to lead to greater polarisation between news junkies and news avoiders and to greater political polarisation The authors also argue that the dominant role of the USA in the field of news audience research has created myths about a global news audience which obscures the importance of national context as a major explanation for news exposure differences Misunderstanding News Audiences presents an important analysis of findings from recent audience studies and in doing so encourages readers to re evaluate popular beliefs about the influence of the Internet on news consumption and democracy in the West

Strategic Adoption of Technological Innovations Howard, Caroline, 2013-01-31 Strategic Adoption of Technological Innovations brings together research from practitioners on the development use and importance of information technology in order to achieve organizational performance This comprehensive collection is useful for academicians scholars researchers and other industry professionals to provide an understanding of strategy and use of information systems in organizations and entities

Hearings, Reports and Prints of the House Committee on the Judiciary United States. Congress. House. Committee on the Judiciary, 1969 New Zealand News, 1978 **The Ownership of the News** Great Britain: Parliament: House of Lords: Select Committee on Communications, 2008 This report examines the impact that media ownership can have on the news and the effect of consolidation on the newspaper television and radio industries The newspaper industry is facing severe problems as readership levels fall young people turn to other sources of news and advertising moves to the internet Newspaper companies are having to make savings and this is having a particular impact on investment in news gathering and investigative journalism In television news the same trends are evident Most news programmes have smaller audiences than they had ten years ago younger people in particular are watching less television news commercial television channels are losing advertising revenue to the internet New media in particular the internet are having a major impact on the way news is produced and consumed but the traditional forms of news are likely to be the most popular sources of news for the foreseeable future The proliferation of news sources has not been matched by a corresponding expansion in professional and investigative journalism Owners can and do influence the news in a variety of ways They are in a position to have significant political impact The consolidation of media ownership adds to the risk of disproportionate influence The Committee recommends reform of the public interest test criteria for newspaper mergers and also believes that reforming cross media ownership restrictions on regional and local newspaper and radio mergers is necessary The Committee does not
