The Citroen 2cv:

The Auto Biography of the Citroën 2CV Ellie Charleston, 2026-03 The Auto Biography of the Citroen looks at the history of this unusual vehicle from its pre war conception through to the last car to roll off the production line in 1990 It explains how the 2CV was intended to be a lightweight cheap car for farmers and the common person and how the designers developed this umbrella on wheels It also takes a nostalgic look at its many derivatives including a four wheel drive version and kit cars built on the 2CV chassis Though the car is often the butt of jokes and given derogatory names such as dustbin on wheels it was manufactured for over 40 years and nearly 4 million were produced To top everything it beat flashier cars such as Aston Martin and Lotus Esprit to come top of a poll in James Bond car chases Not bad for a modest little car The 2CV has become something of a cult car with its unique and quirky design and The Auto Biography of the 2CV provides a brief but fascinating look at this enduring motoring icon

Citroën 2CV John Reynolds, 2009-08 The Citroën 2CV is a cultural icon that formed as essential a part of the French way of life as Beaujolais or Camembert The pure logic of its engineering and the integrity of its design won it a legion of fans around the world not least in the UK Its lifespan covered well over half a century making it one of the longest running motoring success stories of all time Eventually almost seven million of its various versions and derivatives were built and today years after its manufacture ceased it is still as popular as ever

The Citroen 2cv Ed Carlow,2019-04-30 Part of a series designed to support poor readers Here we read of the 2CV connection with the James Bond franchise and through that a curious connection to Queen Elizabeth I We also see how the car can be adapted for the 21st Century and the need to clean up the air This car was a combination of engineering innovation and utilitarian bodywork for extra strength without extra weight [Citroën 2cv](#) Alexandru Dobai,2025-01-11 The Ugly Duckling was born twice The first time in 1939 blind in one eye and with a water cooled engine The second time in 1948 air cooled in a configuration that would remain largely unchanged over the years By the end of 1977 three million units had been sold And the 2CV boom continued to astonish the world What had been conceived as a solution for post war transportation had become a trendy car A vehicle that students workers housewives and artists could afford A car that evokes nostalgia no matter the social class of its owner Yet the creators of the Citro n 2CV had no intention of designing a fun car The Deuche came to life thanks to French rationalism combined with the boldness to defy conventions In 1936 Pierre Boulanger Citro n s president at the time tasked his designers with developing a car with four wheels under an umbrella He specified his ideas as follows The umbrella had to provide comfortable shelter for four people It had to be capable of running at least 50 kilometers per hour And one should be able to load a basket full of eggs inside without breaking any of them along the way Three years later in 1939 no fewer than 250 prototypes were completed However the first ducks looked rather frightening The corrugated sheet metal seemed haphazardly assembled the seats resembled hammocks and the single headlight gave it the appearance of a pirate In 1948 three years after the end of the war the Ugly Duckling reemerged from obscurity But in the meantime it had evolved into the automobile that would be produced until 1990 The one and a half million visitors at the 1948 Paris Motor Show saw the Ugly Duckling as a revelation a savior of mobility in an era marked by economic hardships The French and soon not only them were amazed to see how this four wheeled umbrella navigated the potholes of plowed fields with remarkable ease in a fluid and secure motion The first 2CV s 375cc engine produced eight horsepower enough to reach a top speed of 55 km h The design principle was as logical as it was ingenious focus on everything related to safety driving comfort durability and reliability while eliminating anything superfluous or prone to breakage Over time improvements were made to both the equipment and body quality This was accompanied by a systematic and gradual increase in engine power eventually reaching a 600cc 25 horsepower version This made the Citro n 2CV the only car to triple its horsepower since its inception The full story and much more awaits you in 230 captivating pages that if they don t revive your memories will undoubtedly make you smile at the many adventures of the Ugly Duckling [How to Restore Citroen 2CV](#) Lindsay Porter,2004 The definitive guide to restoring the Citroen 2CV and its close relatives the Dyane Van Ami 6 Mehari Aimed at the owner here is a step by step hands on guide to every aspect of restoration including body trim and mechanical components Over 1400 colour photos illustrate every stage of the process [Handbook for the Citroën](#)
