Atrocity and Early Modern Drama Sarah Johnson,Georgina Lucas,2025-01-09 Extreme violence scarred the early modern period Contemporary commentators grappled to find language to categorize the massacres genocides assassinations enslavements sacks rapes

riots and regicides that characterized the period Some used outrages others cruelties but significantly the term atrocity that we use today gained the most currency Atrocity and Early Modern Drama intervenes in the broad field of violence and early modern drama by placing acts of atrocity at its centre In doing so this essay collection offers the first book length examination of atrocities and early modern English drama The volume considers atrocity in early theatre its varied representations in contemporary Shakespeare performance and strategies for teaching early modern atrocity drama Contributors introduce us to atrocity in the works of Shakespeare John Fletcher William Rowley Thomas Dekker and Thomas Middleton across a range of forms including comedy tragedy revenge cinematic adaptation documentary film and contemporary theatre The collection addresses the intersections of atrocities through class crime gender race and the natural world Together the chapters interrogate how early modern English drama reflects upon and shapes understandings of the historically contingent politically loaded and culturally contentious phenomena of atrocity

A Statement of the Circumstances which Led to the Prosecution of the King V. Blacow Richard Blacow, 1812

"The Soul Exceeds Its Circumstances" Eugene O'Brien, 2016-11-15 The Soul Exceeds its Circumstances brings together sixteen of the most prominent scholars who have written on Seamus Heaney to examine the Nobel Prize winner's later poetry from a variety of critical and theoretical perspectives While a great deal of attention has been devoted to Heaney's early and middle poems the Bog Poems in particular this book focuses on the poetry collected in Heaney's *Seeing Things* 1991 *The Spirit Level* 1996 *Electric Light* 2001 *District and Circle* 2006 and *Human Chain* 2010 as a thematically connected set of writings The starting point of the essays in this collection is that these later poems can be grouped in terms of style theme approach and intertextuality They develop themes that were apparent in Heaney's earlier work but they also break with these themes and address issues that are radically different from those of the earlier collections The essays are divided into five sections focusing on ideas of death the later style translation and transnational poetics luminous things and gifts and usual and unusual spaces A number of the contributors see Heaney as stressing the literary over the actual and as always looking at the interstices and positions of liminality and complexity His use of literary references in his later poetry exemplifies his search for literary avatars against whom he can test his own ideas and with whom he can enter into an aesthetic and ethical dialogue The essayists cover a great deal of Heaney's debts to classical and modern literature in the original languages and in translations and demonstrate the degree to which the

streets on which Heaney walked and wrote were two way he was influenced by Virgil Petrarch Milosz Wordsworth Keats Rilke and others and in turn had an impact on contemporary poets This remarkable collection will appeal to scholars and literary critics undergraduates as well as graduate students and to the many general readers of Heaney s poetry

Atrocity, Punishment, and International Law Mark A. Drumbl, 2007-04-30 This book argues that accountability for extraordinary atrocity crimes should not uncritically adopt the methods and assumptions of ordinary liberal criminal law Criminal punishment designed for common criminals is a response to mass atrocity and a device to promote justice in its aftermath This book comes to this conclusion after reviewing the sentencing practices of international national and local courts and tribunals that punish atrocity perpetrators Sentencing practices of these institutions fail to attain the goals that international criminal law ascribes to punishment in particular retribution and deterrence Fresh thinking is necessary to confront the collective nature of mass atrocity and the disturbing reality that individual membership in group based killings is often not maladaptive or deviant behavior but rather adaptive or conformist behavior This book turns to a modern and adventurously pluralist application of classical notions of cosmopolitanism to advance the frame of international criminal law to a broader construction of atrocity law and towards an interdisciplinary contextual and multicultural conception of justice
