David M. Brennan, David Kristjanson-Gural, Catherine P. Mulder, Erik K. Olsen

The Clash Of Globalisations Neoliberalism The Third Way And Antiglobalisation:

The Clash of Globalisations Ray Kiely, 2005-03-01 This book provides a powerful critique of the case made for globalisation with particular emphasis placed on neo liberalism the third way and the hegemonic role of the US state It then examines the rise of anti globalisation politics and the debate over progressive alternatives to actually existing globalisation

Globalization and After Samir Dasgupta, Ray Kiely, 2006-09-07 Addresses many questions concerning the form of globalisation such as Does globalization involve integration on a worldwide scale or will there be a levelling off or even a reversal Is there an alternative to globalization This work explores the tensions and dilemmas inherent in globalization from local national and global perspectives *Critical Reflections on the Language of Neoliberalism in Education* Spyros Themelis, 2020-12-29 Recognizing the dominance of neoliberal forces in education this volume offers a range of critical essays which analyze the language used to underpin these dynamics Combining essays from over 20 internationally renowned contributors this text offers a critical examination of key terms which have become increasingly central to educational discourse Each essay considers the etymological foundation of each term the context in which they have evolved and likewise their changed meaning In doing so these essays illustrate the transformative potential of language to express or challenge political social and economic ideologies The text s musings on the language of education and its implications for the current and future role of education in society make clear its relevance to today s cultural and political landscape This exploratory monograph will be of interest to doctoral students researchers and scholars with an interest in the philosophy of education educational policy and politics as well as the sociology of education and the impacts of neoliberalism *Economic Transitions to Neoliberalism in Middle-Income Countries* Alfredo Saad-Filho, Galip L. Yalman, 2009-12-04 This book argues that neoliberalism is the contemporary form of capitalism focusing on a materialist understanding of its workings as a modality of social and economic reproduction and its everyday practices of dispossession and exploitation **Neoliberal Thought and Thatcherism** Robert Ledger, 2017-12-01 The premiership of Margaret Thatcher has been portrayed as uniquely ideological in its pursuit of a more market based economy A body of literature has been built on how a sharp turn to the right by the Conservative Party during the 1980s inspired by the likes of Milton Friedman and Friedrich Hayek acted as one of the key stepping stones to the turbo charged capitalism and globalization of our modern world But how neoliberal was Thatcherism The link between ideas and the Thatcher government has frequently been over generalized and under specified Existing accounts tend to characterize neoliberalism as a homogeneous and often ill defined group of thinkers that exerted a broad influence over the Thatcher government In particular this study explores how Margaret Thatcher approached special interest groups a core neoliberal concern The results demonstrate a willingness to utilize the state often in contradictory ways to pursue apparently more market orientated policies This book through a combination of archival research interviews and examination of neoliberal thought itself defines the dominant strains of neoliberalism more clearly and explores their

relationship with Thatcherism **Science Fiction, New Space Opera, and Neoliberal Globalism** Jerome

Winter, 2016-11-15 One of the few points critics and readers can agree upon when discussing the fiction popularly known as New Space Opera a recent subgenre movement of science fiction is its canny engagement with contemporary cultural politics in the age of globalisation This book avers that the complex political allegories of New Space Opera respond to the recent cultural phenomenon known as neoliberalism which entails the championing of the deregulation and privatisation of social services and programmes in the service of global free market expansion Providing close readings of the evolving New Space Opera canon and cultural histories and theoretical contexts of neoliberalism as a regnant ideology of our times this book conceptualises a means to appreciate this thriving movement of popular literature **We Make Our Own History**

Laurence Cox, Alf Gunvald Nilsen, 2014-08-20 We live in the twilight of neoliberalism the ruling classes can no longer rule as before and ordinary people are no longer willing to be ruled in the old way Pursued by global elites since the 1970s neoliberalism is defined by dispossession and ever increasing inequality The refusal to continue to be ruled like this ya basta appears in an arc of resistance stretching from rural India to the cities of the global North From this network of movements new visions are emerging of a future beyond neoliberalism We Make Our Own History responds to these visions by reclaiming Marxism as a theory born from activist experience and practice This book marks a break both with established social movement theory and with those forms of Marxism which treat the practice of social movement organising as an unproblematic process It shows how movements can develop from local conflicts to global struggles how neoliberalism operates as a social movement from above and how popular struggles can create new worlds from below **The Political**

Origins of Inequality Simon Reid-Henry, 2015-12-08 This far reaching study examines how political policies and paradigms have deepened global inequality and how to reframe the debate to address it Inequality is the defining issue of our time one in which the global 1% now owns half the world's wealth In this magisterial study Simon Reid Henry rewrites the story of globalization as one about the management of inequality Reaching back to the eighteenth century The Political Origins of Inequality foregrounds the political turning points and decisions behind the making of today's uneven societies As it weaves together insights from the Victorian city to the Cold War from US economic policy to Europe's present migration crisis a true picture emerges of the structure of inequality itself Reid Henry shows that the problem of inequality cannot be resolved by the conventional arguments of left versus right Modern political discourse has no place for public reason or the common good Yet he argues it is within our power to address this To forge a better world we must meet our political responsibilities to others rather than simply offering the selective charity of the rich We must think beyond economics and outside our national borders But above all we must reinvent the language of equality for a modern global world *Habermas and Giddens on Praxis and Modernity* Craig Browne, 2017-01-02 In Habermas and Giddens on Praxis and Modernity Craig Browne investigates how two of the most important and influential contemporary social theorists have sought to develop the

modernist visions of the constitution of society through the autonomous actions of subjects Comparing Habermas s and Giddens s conceptions of the constitution of society interpretations of the social structural impediments to subjects autonomy and attempts to delineate potentials for progressive social change within contemporary society Browne draws on his own work which has extended aspects of the social theorists approach to modernity Despite the criticisms developed over the course of the book Habermas and Giddens are found to be two of the most important theorists of democratization and social democracy the dynamics of capitalist modernity and their paradoxes social practices and reflexivity and the foundations of social theory in the problem of the relationship of social action and social structure

The BRICs, US 'Decline' and Global Transformations R. Kiely,2015-04-07 The author examines the rise of the BRICs and the supposed decline of the United States Focusing on the boom years from 1992 to 2007 and the crisis years after 2008 he argues that there are limits to the rise of the former and that the extent of US decline has been greatly exaggerated

The Financialisation of Social Reproduction in the Age of Neoliberalism: From Theory to Case Studies Ben Fine,2024-12-02 Drawing upon comprehensive research across five countries including case studies of housing water and health comprehensive theoretical and empirical accounts are offered of the impact of financialisation on economic and social reproduction alongside the corresponding material cultures of neoliberalism Economic is understood as embedded within social reproduction with neoliberalism as the current stage of capitalism fundamentally underpinned by but not reducible to the financialisation of everyday life Considerable emphasis is placed upon the variegated outcomes attached to the neoliberalisation of social reproduction as highlighted by the comparative study of economic and social provisioning across different countries and sectors

Routledge Handbook of Marxian Economics David M. Brennan,David Kristjanson-Gural,Catherine P. Mulder,Erik K. Olsen,2017-03-16 Most developed economies are characterized by high levels of inequality and an inability to provide stability or opportunity for many of their citizens Mainstream economics has proven to be of little assistance in addressing these systemic failures and this has led both scholars and students to seek alternatives One such alternative is provided by Marxian economics In recent decades the field has seen tremendous theoretical development and Marxian perspectives have begun to appear in public discourse in unprecedented ways This handbook contains thirty seven original essays from a wide range of leading international scholars recognized for their expertise in different areas of Marxian economics Its scope is broad ranging from contributions on familiar Marxist concepts such as value theory the labor process accumulation crisis and socialism to others not always associated with the Marxian canon like feminism ecology international migration and epistemology This breadth of coverage reflects the development of Marxian economic and social theory and encompasses both the history and the frontiers of current scholarship This handbook provides an extensive statement of the current shape and future direction of Marxian economics The Routledge Handbook of Marxian Economics is an invaluable resource for students researchers and policy makers seeking guidance in this field It is designed to serve both as a reference work and as

a supplementary text for classroom use with applications for courses in economics sociology political science management anthropology development studies philosophy and history **Capabilities, Power, and Institutions** Stephen L.

Esquith,Fred Gifford,2010-01-01 Development economics political theory and ethics long carried on their own scholarly dialogues and investigations with almost no interaction among them Only in the mid 1990s did this situation begin to change primarily as a result of the pioneering work of an economist Amartya Sen and a philosopher who doubled as a classicist and legal scholar Martha Nussbaum Sen's Development as Freedom 1999 and Nussbaum's Women and Human Development 2000 together signaled the emergence of a powerful new paradigm that is commonly known as the capabilities approach to development ethics Key to this approach is the recognition that citizens must have basic capabilities provided most crucially through health care and education if they are to function effectively as agents of economic development Capabilities can be measured in terms of skills and abilities opportunities and control over resources and even moral virtues like the virtue of care and concern for others The essays in this collection extend criticize and reformulate the capabilities approach to better understand the importance of power especially institutional power In addition to the editors the contributors are Sabina Alkire David Barkin Nigel Dower Shelley Feldman Des Gasper Daniel Little Asunci n Lera St Clair A Allan Schmid Paul B Thompson and Thanh Dam Truong *Financialisation and Poverty Alleviation in Ghana* Francis Boateng

Frimpong,2021-11-22 The neoliberal policy response to the crisis in Ghana did not succeed in reversing the economic decline in both the medium and long term In fact quite the opposite rather than undoing the economic decline Frimpong argues that the policy prescriptions further weakened the country's ability to develop This is because the policies intentionally and unintentionally encouraged factors that destabilised the possibility of the real productive assets to earn commensurate returns to facilitate the flow of capital to the real sectors to ensure the survival of industrial enterprises Rising profit in the financial sector incentivised financial capitalist to divert capital into financial assets at the expense of productive investment further decelerating the pace of real capital accumulation in the country *Capitalism in Transformation* Roland

Atzmüller,Brigitte Aulenbacher,Ulrich Brand,Fabienne Décieux,Karin Fischer,Birgit Sauer,2019 Presenting a profound and far reaching analysis of economic ecological social cultural and political developments of contemporary capitalism this book draws on the work of Karl Polanyi and re reads it for our times The renowned authors offer key insights to current changes in the relations between the economy politics and society and their ecological and social effects **Land and Freedom**

Leandro Vergara-Camus,2014-09-11 The Zapatistas of Chiapas and the Landless Rural Workers Movement MST of Brazil are often celebrated as shining examples in the global struggle against neoliberalism But what have these movements achieved for their members in more than two decades of resistance and can any of these achievements realistically contribute to the rise of a viable alternative Through a perfect balance of grassroots testimonies participative observation and consideration of key debates in development studies agrarian political economy historical sociology and critical political economy Land and

Freedom compares for the first time the Zapatista and MST movements Casting a spotlight on their resistance to globalizing market forces Vergara Camus gets to the heart of how these movements organize themselves and how territorial control politicization and empowerment of their membership and the decommodification of social relations are key to understanding their radical development potential *Postcoloniality and Statehood* Priyanka Chandra,2025-09-12 This book traces the evolution of the postcolonial state and the social contract in Egypt It problematises two of the most ubiquitous and contentious terms democratisation and development within the context of Egypt and the larger Global South It also subverts western centric ideas of global politics to examine why certain aspects of Egypt s history and policies have received more attention than others This volume presents a study of state society relations the shift to Infitah the impact of neoliberalisation from 1970 to 2011 and social responses to it It argues that the Arab Uprisings of 2011 were not isolated events but a result of a longue dur e political economic history Through the prism of postcoloniality it shows how citizenship is constantly renegotiated in view of the ongoing neoliberalisation and the impact of such social transformations on the nature of the postcolonial state It juxtaposes the role of the state and society against global political and economic landscapes to address the larger question what is the nature of the postcolonial state This book will be of interest to a wide array of scholars and researchers from politics and international relations sociology and social anthropology social theory political theory postcolonialism and Global South studies *The World Bank* David Moore,2007 The World Bank Development Poverty Hegemony scrutinises the World Bank s agenda setting documents of the past fifteen years from its examinations of African crises and East Asian miracles to its perspectives on the state s changing developmental role the Bank s environmental and participatory strategies and the institution s changes since Paul Wolfowitz took over from James Wolfensohn as the Bank president in 2005 **The Politics of Fiscal Federalism** Adam Harmes,2019-05-13 What does federalism have to do with the political struggle between conservatives and progressives over economic policy How do economic theories of fiscal federalism influence European North American and global forms of governance In the first comprehensive account of the left right politics of multilevel governance across federal regional and global levels Adam Harmes identifies both free market and interventionist political projects related to fiscal federalism Harmes argues that these political projects and the interests that promote them explain a diverse range of phenomena across national contexts across levels of governance and over time This includes the left right dynamics of US and Canadian federalism the free market origins of British euroscepticism and the Brexit vote the complex politics behind the NAFTA renegotiations and the emergence of both populist and progressive challenges to global free trade A highly accessible outline of fiscal federalism theory *The Politics of Fiscal Federalism* also expands upon the broader value and policy differences between neoliberal classical liberal and Keynesian welfare economics on issues such as the role of the state subnational and global trade economic nationalism and monetary integration This original and innovative work demonstrates that a political economy approach is essential to the study of federalism and why

federalism and multilevel governance is a critical area of study for political economists **Black Woman's Burden** N. Rousseau, 2009-09-28 *Black Woman's Burden* examines the historical endeavors to regulate Black female sexuality and reproduction in the United States through methods of exploitation control repression and coercion The myth of the angry Black woman has been built over generations through clever rhetoric and oppressive social policy Here Rousseau explores the continued impact of labeling and stereotyping on the development of policies that lead to the construction of national racial and gender identities for Black women
