**The classical Theory of composition from its origins to the present** Aldo Scaglione,1972      **The Classical Theory of Composition** Aldo D. Scaglione,1972      *The ^AOxford Handbook of Rhetorical Studies* Michael J. MacDonald,2017-09-20 Featuring roughly sixty specially commissioned essays by an international cast of leading rhetoric experts from North America Europe and Great Britain the Handbook will offer readers a comprehensive topical and historical survey of the theory and practice of rhetoric from ancient Greece and Rome through the Middle Ages and Enlightenment up to the present day      *The Ethos of Drama* Robert L. King,2010-04-26 A groundbreaking approach to drama criticism

*Spenser's International Style* David Scott Wilson-Okamura,2013 David Scott Wilson Okamura reframes long standing questions about Edmund Spenser s style in the wider context of long term European trends      Linguistic Relativities John Leavitt,2010-12-23 There are more than six thousand human languages each one unique For the last five hundred years people have argued about how important language differences are This book traces that history and shows how language differences have generally been treated either as of no importance or as all important depending on broader approaches taken to human life and knowledge It was only in the twentieth century in the work of Franz Boas and his students that an attempt was made to engage seriously with the reality of language specificities Since the 1950s this work has been largely presented as yet another claim that language differences are all important by cognitive scientists and philosophers who believe that such differences are of no importance This book seeks to correct this misrepresentation and point to the new directions taken by the Boasians directions now being recovered in the most recent work in psychology and linguistics

**Eighteenth-Century Manners of Reading** Eve Tavor Bannet,2017-11-09 This book explores how and why reading was taught in the eighteenth century exploring different teaching methods in social and economic context      *Mark's Audience* Mary Ann Beavis,2015-01-29 Mark 4 11 12 the parable theory passage has probably been commented upon more often than any other section of Mark s Gospel The saying has usually been interpreted as an authentic utterance of Jesus which was subsequently misunderstood and misinterpreted by early Christians including the evangelist Mark The precise meaning of the mystery logion in the ministry of Jesus is notoriously elusive since we have no information about the context in which it was spoken or about the audience to which it was addressed Much more however can be known about the interpretative context of the logion in Mark since it is surrounded by passages that seem to echo the mystery saying This study examines the complex web of literary relationships between Mark 4 11 12 and the Gospel as a whole Dr Beavis s fresh interpretation is unusual in that she undertakes to interpret the Gospel of Mark as far as possible from the point of view of its historical readers audience Chapters 1 and 2 of the book attempt to describe the community for which the Gospel was written and in the rest of the book this socio cultural setting is used to investigate the meaning of the mystery saying for the original readers hearers of Mark      **Geschichte Der Sprachwissenschaften** Sylvain Auroux,2000      *Encyclopedia of Language*

James J Murphy's insightful introduction places the text in historical perspective by discussing Ramus's life and career, the development of his ideas, and the milieu in which his writings were produced. This edition includes an updated bibliography of works concerning Ramus's rhetoric and related topics.

**Courting Power** Laurie Shepard, 2013-08-21 This text chronicles a change in epistolary persuasion in the 1230s crystallized at the imperial chancery of Frederick II Emperor from 1220-1250. There traditional appeals premised on authority and harmony were challenged by letters in which historical circumstances functioned as an integral part of the strategy of persuasion. Based on the close reading of *Artes Dictandi* as well as a series of letters issued from the papal and imperial chanceries, this book explores the theory and practice of medieval letter writing. Letters are evaluated as verbal acts intended to persuade with the public as the ultimate arbiter of success. The author argues that the form, proportion, and style of letters were contoured by ideology.

**The Making of Memory in the Middle Ages** Lucie Doležalová, 2009-11-17 Memory in the Middle Ages has received particular attention in recent decades, yet the topic remains difficult to grasp, and the research on it rather fragmented. This book gathers particular case studies on memory in different parts of medieval Europe and in a variety of fields including literatures, languages, manuscript studies, history, history of ideas, philosophy, social history, and art history. The studies address on the one hand memory as means of storing and recuperating knowledge, arts of memory, and memory aids, and on the other hand memory as remembering and constructing the past, including the subject of forgetting. It should be useful to all interested in medieval culture, literature, and history. Contributors are Milena Bartlov, Bergsveinn Birgisson, Irene Bueno, Vincent Challet, Greta Dinkova, Bruun Lucie Doležalová, David Falvey, Carmen Florea, Cécile Giraud, Laura Iseppi, de Filippis, Farkas Gábor Kiss, Rüdiger Lorenz, Else Mundal, Előd Némethy, William J. Purkis, Slavica Ranković, Lucia Raspe, Kimberly Rivers, Victoria Smirnova, Francesco Stella, Peter Tóth, Tamás Visi, Jon Whitman, and Rafał Wójcik.

Frank O'Hara's New York School and Mid-Century Mannerism Sam Ladkin, 2024-02-02 Frank O'Hara's *New York School and Mid-Century Mannerism* offers a ground-breaking account of the poet Frank O'Hara and the extraordinary cultural blossoming O'Hara catalysed, namely the mid-century experimental and multi-disciplinary arts scene, the New York School. Fresh accounts of canonical figures Jackson Pollock, Willem de Kooning, George Balanchine, Fred Astaire, and original work on those too little discussed Edwin Denby, Elaine de Kooning, resound with analysis of queer iconology from Michelangelo's David to James Dean. Sam Ladkin argues that O'Hara and the New York School revive Mannerism. Turning away from interpretations of O'Hara's Transcendentalism, Romanticism, or pastoralism, mid-century Mannerism helps explain O'Hara's self-conscious style, its play with sweet and grand, grace, contortion of conventional measure, risks with affectation, conceits, nonchalance, and scrambling of high/low culture. Mannerism clarifies the sociability implicit in the formal innovations of the New York School. The work also studies the kinship between art mediums by retooling rhetoric and recovering a perennial manneristic tendency beyond period style. Genealogies of grace, the *figura serpentina*, *sprezzatura*, *ornatus*, and the marvellous exemplify qualities exhibited by O'Hara's New York School. Ladkin

relates the essential role of dance in the New York School O'Hara's reception has been tied to painting predominantly Abstract Expressionism He was also however a balletomane a fan for whom ballet was made up exclusively of qualities which other arts only aspire to in order to be truly modern Relaying ballet's Mannerist origins and aesthetics and demonstrating its influence alongside Broadway and Hollywood musical dance on art and poetry completes the portrait of mid-century modernity

**The Epic Rhetoric of Tasso** Maggie Gunsberg, 2017-12-02 Maggie Gunsberg examines the poetica and poesis of Tasso in the context of the historical and cultural climate in which he lived His epic theory is explored from the point of view of three rhetorical faculties current in 16th-century poetics inventio dispositio and elocutio His discussion of dispositio reveals a fascinating similarity with ideas on art expressed by the Russian Formalists in the 1920s a coincidence that can be attributed to the lasting influence of Aristotelian writings on plot In her textual analysis of *Gerusalemme liberata* Dr Gunsberg uses modern methodologies drawing on Freud Lacan and the ideology of body language to develop new ways of reading the epic text The two parts of this study dealing with Tasso's theory and practice respectively offer complementary approaches that together illuminate his epic contribution

Outlaw Rhetoric Jenny C. Mann, 2012-02-17 A central feature of English Renaissance humanism was its reverence for classical Latin as the one true form of eloquent expression Yet sixteenth-century writers increasingly came to believe that England needed an equally distinguished vernacular language to serve its burgeoning national community Thus one of the main cultural projects of Renaissance rhetoricians was that of producing a common vernacular eloquence mindful of its classical origins yet self-consciously English in character The process of vernacularization began during Henry VIII's reign and continued with fits and starts late into the seventeenth century However as Jenny C Mann shows in *Outlaw Rhetoric* this project was beset with problems and conflicts from the start *Outlaw Rhetoric* examines the substantial and largely unexplored archive of vernacular rhetorical guides produced in England between 1500 and 1700 Writers of these guides drew on classical training as they translated Greek and Latin figures of speech into an everyday English that could serve the ends of literary and national invention In the process however they confronted aspects of rhetoric that run counter to its civilizing impulse For instance Mann finds repeated references to Robin Hood indicating an ongoing concern that vernacular rhetoric is outlaw to the classical tradition because it is common popular and ephemeral As this book shows however such allusions hint at a growing acceptance of the nonclassical along with a new esteem for literary production that can be identified as native to England Working across a range of genres Mann demonstrates the effects of this tension between classical rhetoric and English outlawry in works by Spenser Shakespeare Sidney Jonson and Cavendish In so doing she reveals the political stakes of the vernacular rhetorical project in the age of Shakespeare
