Gain new understanding and better serve your readers with this detailed genre guide to nearly 700 titles that also includes notes on more than 2 800 read alike and other related titles. The popularity of this body of literature has grown in recent years and it has also diversified in terms of the types of stories being told and persons telling them. In the past readers advisors have depended on access by names or Dewey classifications and subjects to help readers find autobiographies they will enjoy. This guide offers an alternative organizing the literature according to popular genres subgenres and themes that reflect common reading interests. Describing titles that range from travel and adventure classics and celebrity autobiographies to foodie memoirs and environmental reads. *Life Stories A Guide to Reading Interests in Memoirs Autobiographies and Diaries* presents a unique overview of the genre that specifically addresses the needs of readers advisors and others who work with readers in finding books. **First Things**, 2001 **American Book Publishing Record**, 2000-07 **Book Review Digest**, 2002 *F & L Primo*, 2003 *The Closer We are to Dying* Joe Fiorito, 1999 *The Closer We Are to Dying* is newspaper columnist Joe Fiorito's spectacular debut as a book writer. A natural story teller Fiorito's extraordinary talent is revealed in prose that is spare tough and tender. In this memoir of his family he writes with a full heart wielding language like a knife. In the 1950s in Fort William Ontario when Joe Fiorito was growing up it was wrong to be poor and Italian and risky to be bookish and he was all of these. He was also marked as a member of a lively and infamous clan. Strangers could size him up at a glance and tell he was a Fiorito. Dusty's boy. Everyone knew Dusty. He was handsome and hard and hot tempered. He was a man his son loved and loathed with equal fervour. And it is Dusty who occupies the heart of this book. A letter carrier a small town trombonist and occasional crooner a heavy drinker Dusty was both the keeper and maker of the family's many stories. At the end of his life as Dusty lay dying in hospital Joe sat with him at nights listening one last time to the family legends now burnished to a perfect lustre by repeated tellings stories too fantastic to be fiction too pointed to be entirely true. Stories narrated in exquisite style in *The Closer We Are to Dying* Fiorito's striking talent is revealed both in his laconic prose and superlative story telling and in the affection and empathy of his vision. *The Closer We Are to Dying* is a beautiful reminder that while only the powerful are remembered in the history books the lives of the powerless can also be the stuff of enduring myths. *Dying for a Cure* Rebekah Beddoe, 2011-08-31 A powerful memoir of antidepressants misdiagnosis and madness. There was that term again depression being tossed around. When had I received an official diagnosis anyway. It had just been mentioned by my GP and now staff were picking it up and running with it. Things seemed to be getting blown out of proportion. I wanted to know why I couldn't be tested for this so called imbalance in my brain before being put on medication but I didn't want him to think I was questioning his expertise. He was the second doctor now to recommend the treatment. And these are the newer sort the ones

that aren't addictive or anything Not addictive They're very safe Shortly after the birth of her daughter Rebekah Beddoe was diagnosed with postnatal depression Two years later she was taking six different drugs including lithium a tranquilliser an antipsychotic and antidepressants She had been diagnosed with bipolar disorder given electric shock therapy made numerous attempts on her life and was alternately manic and consumed by crippling despair during which she could barely move She had a two-year-old daughter she hardly knew and a mother and partner who were at their wits' end unable to recognise the formerly ambitious vibrant and highly successful woman they loved Australians have embraced antidepressants twelve million prescriptions are written annually mostly by GPs But what do we really know of the pills' effects The idea that they correct a chemical imbalance in our brain is by no means proven there is much evidence that contradicts this view It is commonly thought such drugs are not addictive in fact as Rebekah found to her great distress they are hard to come off and those who do may suffer debilitating side effects This is a powerful memoir of the nightmarish three years Rebekah endured as she was repeatedly misdiagnosed only to realise that her medication was the cause of her mental deterioration Rebekah calls for better information from the pharmaceutical companies about the risks associated with antidepressants and similar classes of drugs facts rather than marketing dressed up as medical science and for a re-examination of the ways some psychiatrists treat their patients

as the two of them began building a life together Schulz's beloved father a charming brilliant absentminded Jewish refugee went into the hospital with a minor heart condition and never came out Newly in love yet also newly bereft Schulz was left contending simultaneously with wild joy and terrible grief Those twin experiences form the heart of *Lost Found* a profound meditation on the families that make us and the families we make But Schulz's book also explores how disappearance and discovery shape us all On average we each lose two hundred thousand objects over our lifetime and Schulz brilliantly illuminates the relationship between those everyday losses and our most devastating ones Likewise she explores the importance of seeking whether for ancient ruins or new ideas friends faith meaning or love The resulting book is part memoir part guidebook to sustaining wonder and gratitude even in the face of loss and grief A staff writer at *The New Yorker* and winner of the Pulitzer Prize Schulz writes with curiosity tenderness and humor about the connections between joy and sorrow and between us all
