Coast Salish, Their Art, Culture and Legends Reg Ashwell,1978 Discusses the origins and culture of the Coast Salish Indians *First Nations Cultural Heritage and Law* Catherine Bell,Val Napoleon,2009-01-01 First Nations Cultural Heritage and Law explores First Nations perspectives on cultural heritage and issues of reform within and beyond Western law Written in collaboration with First Nation partners it contains seven case studies featuring indigenous concepts legal orders and encounters with legislation and negotiations a national review essay three chapters reflecting on major themes and a self reflective critique on the challenges of collaborative and intercultural research Although the volume draws on specific First Nation experiences it covers a wide range of topics of concern to Inuit Metis and other indigenous peoples **The Resettlement of British Columbia** Cole Harris,2011-11-01 In this beautifully crafted collection of essays Cole Harris reflects on the strategies of colonialism in British Columbia during the first 150 years after the arrival of European settlers The pervasive displacement of indigenous people by the newcomers the mechanisms by which it was accomplished and the resulting effects on the landscape social life and history of Canada s western most province are examined through the dual lenses of post colonial theory and empirical data By providing a compelling look at the colonial construction of the province the book revises existing perceptions of the history and geography of British Columbia In their entirety this eloquent collection of nine essays constitute a provocative and unique investigation into the meaning of colonialism and geographical change in the province **Brushed by Cedar, Living by the River** Crisca Bierwert,2019-11-01 A brilliant experimental ethnography Brushed by Cedar is destined to change the way anthropologists write about the people they befriend Crisca Bierwert has created a fresh poststructural ethnography that offers new insights into Coast Salish cultures Arguing against the existence of a master narrative she presents her understanding of these Native American peoples of Washington state and British Columbia Canada through poetic bricolage offering the reader a pastiche of rich cultural images Bierwert employs postmodern literary and social analyses to examine many aspects of Salish culture legends and their storytellers domestic violence longhouse ceremonies the importance and power of place and disputes over fishing rights Her reflections overlap as a dialogue would weaving throughout the book significant threads of Salish knowledge and creating a nonauthoritative text that nonetheless speaks knowingly This book represents the future of contemporary anthropology Unlike traditional ethnography it makes no attempt to portray a complete picture of the Coast Salish Instead Bierwert utilizes a critical and diffuse approach that defies colonial syncretic and hegemonic structures and applies advanced literary theory

to the creation of ethnography Brushed by Cedar is an important guideline for anyone who writes about other cultures and will be especially useful to classes in the methodology and history of ethnography as well as to scholars specializing in Native American studies or oral literatures

A Complex Culture of the British Columbia Plateau Brian Hayden, 2007-11-01

Early hunter gatherer societies have traditionally been considered basically egalitarian in nature This assumption however has been challenged by contemporary archaeological and anthropological research which has demonstrated that many of these societies had complex social economic and political structures This volume considers two British Columbia Native communities the Lillooet and Shuswap communities of Fountain and Pavilion and traces their development into complex societies The authors explore the relation between resource characteristics and hunter gatherer adaptations and examine the use of fish animal and plant species documenting their availability and the techniques used in their gathering processing and storing The book also shows how cultural practices such as raiding potlatching and stewardship of resources can be explained from a cultural ecological point of view An important contribution to the study of hunting and gathering cultures in the Northwest this book is the most detailed examination of the subsistence base of a particular hunting and gathering group to date Its exploration of the reasons why complex hunting and gathering societies emerge as well as the ecological relationships between cultures and resources will make an important contribution to the study of cultural ecology and contemporary archaeology

In this book anthropologists archaeologists historians linguists and Aboriginal leaders describe the Coast Salish Aboriginal peoples living in western British Columbia and Washington State They focus on how Coast Salish lives and identities have been influenced by the two colonizing nations and on by shifting Aboriginal circumstances The volume builds on new scholarship to move beyond existing academic views of the Coast Salish which largely derive from ecological anthropology in creating a new view of the Coast Salish world Contributors point to the continual reshaping of Coast Salish identities and our understandings of them through litigation and language revitalization as well as community efforts to reclaim their connections with the environment Equally important is the development of much more detailed local and regional history and archaeology They point to significant continuity of networks of kinfolk spiritual practices and understandings of landscape This is the first book length effort to directly incorporate Aboriginal perspectives and a broad interdisciplinary approach to research about the Coast Salish
